The Joy of Dog Training Ravenio Books

Training the Best Dog Ever, originally published in hardcover as The Love That Dog Training Program, is a book based on love and kindness. It features a program of positive reinforcement and no-fail techniques that author Dawn Sylvia-Stasiewicz used to train the White House dog, Bo Obama, and each of Senator Ted Kennedy's dogs, among countless others. Training the Best Dog Ever relies on trust and treats, not choke collars; on bonding, not leash-yanking or reprimanding. The five-week training program takes only 10 to 20 minutes of practice a day and works both for puppies and for adult dogs that need to be trained out of bad habits. Illustrated with step-by-step photographs, the book covers hand-feeding; crate and potty training; and basic cues—sit, stay, come here—as well as more complex goals, such as bite inhibition and water safety. It shows how to avoid or correct typical behavior problems, including jumping, barking, and leash-pulling. Plus: how to make your dog comfortable in the world—a dog that knows how to behave in a vet's office, is at ease around strangers, and more. In other words, the best dog ever.

Natural Dog Training John Wiley & Sons

Newsflash!: WINNER of the 2015 Book of the Year for Dog Behavior and Training! If you want to develop your playful relationship with your dog, this book is easily the most comprehensive source on the topic, covering food, toy and personal play in great depth. Fenzi and Jones begin by explaining that good play is not measured by the techniques you use, but rather the amount of enjoyment it generates between you and your dog. They continue to explain that each trainer and dog is unique, which means that what works for one dog won't necessarily work for others. Fenzi and Jones discuss the dog's natural play style, the importance of not overwhelming your dog with enthusiasm, and how to take a fun test to determine whether your dog is playing for fun, or because you insist. They also consider your own preferences and what to do if your dog doesn't like to play. And then they go into great detail! Fenzi and Jones discuss HOW to play with your dog! HOW to problem solve if your dog doesn't respond to your overtures! And HOW to proceed to develop as wide a range of options as possible for all types of dogs, from shy wallflowers to over the top high drive dogs. When you finish this book, you will know a great deal about all types of play. Indeed, you might have a hard time finishing the book since you will be in such a hurry to put it down and try out some fun games!

Level Up Your Dog Training is written for the DIY-minded dog owner who believes in learning by doing. The core of this book is the same pet manners curriculum that I teach to local dog owners every day. As you work through the exercises, you'll train your dog how to sit, lie down, come when called, leave it, stay, settle on a mat, walk politely on a leash, potty promptly when asked and more. And in the process of teaching those behaviors to your dog, you'll pick up a few new skills yourself! You'll learn fundamental concepts of dog training such as the three ways to build any new behavior, how to train effectively with positive reinforcement, how to attach a cue to any behavior, how to level up the difficulty on your dog's skills and all the techniques you'll need to train a totally new trick from scratch without a recipe holding your hand. If you and your dog both do your homework, by the end of the book, you'll know the basics of how to teach a dog anything (some assembly required). Lucky Dog Lessons Fox Chapel Publishing

In a nation where our love of dogs keeps growing and dog ownership has reached an all-time high, confusion about dogs and their behavioral problems is skyrocketing. Many dogs are out of control, untrained, chewing up furniture, taking medication for anxiety, and biting millions of people a year. Now, in this groundbreaking new guide, Jon Katz, a leading authority on the human-canine bond, offers a powerful and practical philosophy for living with a dog, from the moment we decide to get one to the sad day when one dies. Conventional training methods often fail dog owners, but Katz argues that we know our dogs better than anyone else possibly could, and therefore we are well suited to train them. It is imperative, he says, that we think rationally and responsibly about how we choose, train, and live with the dogs we love, and the more we learn about ourselves, the better we can recognize their wonderful animal natures. Misinterpreting dogs is a profound obstacle to understanding them. Katz believes that both people and dogs are unique—a chow differs from a Lab just as a city dweller differs from a farmer—and he describes how such individuality isn't addressed by even the best and most popular training methods. Not every training theory is for everyone, notes Katz, but almost anyone can train a dog and live with him comfortably. *Katz on Dogs* is filled with no-nonsense advice and answers to such key questions as: • What kind of dog should I have? Is there a specific breed or kind of dog for my personality, family, or living situation? • What is the best way to train a dog? • Can I trust my vet? • How often (and for how long) can a dog be left alone? • Is it preferable to have only one dog, or are more better? • What are the secrets to successful housebreaking? • What are my dogs thinking, if anything? • How can I walk my dog instead of having her walk me? • Is it ever okay to give away a dog you love? • When is it time to put my dog down? Katz draws from his own experience, his interactions with thousands of dog owners, vets, breeders, dog rescue workers, trainers, and behaviorists, and he has tested his approach with volunteer dog owners around the country. Their helpful and often inspiring stories illustrate how all of us can live well with our dogs. You can do it, Katz contends. You can live a loving and harmonious life with your dog.

Training the Best Dog Ever Speedy Publishing LLC

When the complexities of modern living demanded that, for his own protection as well as his master's convenience, the dog be made controllable, the average owner sought advice from the most available source, which was, too often, some local dog-show exhibitor. Not realizing that, excepting a few praiseworthy individuals, these exhibitors were only superficially concerned with the qualities of use and companionship, an unfortunate dog owner would accept the sight of trophies or ribbons as the credits of an expert. Growing numbers of people and dogs continued to emphasize the advantages of proper dog-behavior and when, in 1935, The American Kennel Club instituted its obedience trials, the competition necessary to focus attention on results and improvement of methods was provided. And something else was observed. It was evident that thorough obedience training does more than assure a dog's response to his master's command; capacities for learning and emotional stability could be increased and integrated as permanent qualities of character. Recently, leading magazines of both general and specialized nature have made the public aware of the trained dog's potential, and of the recreational possibilities of dog training as a hobby. Interest in dog-training classes and other activities where dogs are dignified by usefulness, rather than merely looked at, is evidence that the dog-training public has outgrown the "make a game" and "tid-bit tossing" techniques that, by not being founded on positive and proper motivations, demonstrate the inadequacy of the master, thus promoting failure of response at those times when control is most needed, as well as contributing to the dog's feeling of insecurity. Dog owners of perspective have come to want the type of obedience upon which a blind person might stake his life, and the emotional stability that is vital to dogs in the presence of small, unpredictable children.
