The lines are in clear light grey which are visible and easy to follow Suitable for pencils, pens, felt tips pens and acrylic pens Features: 100 pages 6 x 9 page size Lined pages Cream/Ivory colored paper Soft cover / paperback Matte finish cover This is a great unique gift idea under \$10 for: Black History Month Gift Christmas present Cheap stocking stuffer idea Birthday Gift
[Dirty Little Secrets about Black History, Its Heroes, and Other Troublemakers](#) Wipf and Stock Publishers
 The book is written about White people who are on the ropes today, and the present is the key to the future. Ending White Slavery explains, exposes,

and removes these shackles of White Slavery by invalidating the basic assumption of that enslavement: that Blacks are entitled to special consideration from Whites whose ancestors kidnapped them out of Africa, and transported them worlds away from their roots into slavery; revealing the slave trade as instigated and perpetuated by tribes of Africa against each other for their benefit and purpose; revealing that slave traders and owners were a minuscule percent of the White population even in its time; revealing that mostly, the ancestors of today's Whites had nothing to do with slavery and their ancestors were disadvantaged by slavery in lost employment and opportunity. Ending White Slavery demonstrates that atonement for slavery by today's Whites is misguided, and detrimental to them and to Blacks as well. As for racial discrimination, is it not palpable in affirmative action, BET, the NAACP, the Miss Black America Pageant exclusivity to Blacks? Not so, the United Negro College Fund because its "member colleges and universities admit students without reference to race or ethnicity. UNCF's largest scholarship program, the Gates Millennium Scholars Program, supports Hispanic American, Asian/Pacific American and Native American students as well as African Americans," but not Whites? Is there any affirmative action for Whites, a WET, a NAAWP, an exclusively Miss White America Pageant, a United Caucasian College Fund, any White college, a White History Month? Ending White Slavery exhorts all races to adhere to their culture, to be loyal to their race by eschewing integration and its consequent, inevitable mongrelization. For Whites this means preserving their recessive fair skin, blue or green eyes and blond, brown or red hair against being subsumed by genetically dominant black skin, brown eyes and black hair; revering and advancing their cultural heritage exemplified by Beethoven, Mozart, Michelangelo, Rembrandt, Shakespeare, and their progeny instead of bongo drums, parodies of poetry punctuated by profanity, crotch-grabbing, and thumping cacophony. That is the goal, but after recognition and exhortation, what? The Racial State, exemplified by China,

Japan other Asian States for Yellows, the African States for Blacks, but no longer the United States for Whites. Israel is a template for the current creation of the Racial State, and its need, to preserve and secure White culture, White genes, and White lives in a world in which Whites are the minority, a world which has not a single State that Whites may call their own, where their best interests are represented exclusively. Ending White Slavery does not merely describe a Utopia and leaves it there. It describes potentials for accomplishing the Racial State over time. A must-read for everyone, not just Whites, who would look beyond the perverse immediacy of a mongrelizing false diversity of integration to a true diversity of racial separateness to preserve all races in all their natural genetic and cultural diversity.

[Black King](#) Alpha Edition

Woodson's classic work of criticism explores how the education received by blacks has failed to give them an appreciation of themselves as a race and their contributions to history. Woodson puts forward a program that calls for the educated to learn about their past and serve the black community. (Education/Teaching)

Black History Month Decoded White History Month/White History Month is a crash course study guide written to provide a brief history of North and South America between the 15th and 19th Centuries. It is a book that provides an overview of how the United States of America became one of the most significant and most powerful nations in the world.**Black Thighs Matter**

This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature.

Black Thighs Matter Independently Published

I think part of it is accepting that it's so much beauty in being black and that's the thing that, I guess, I get emotional about because I've always known that. I've always been proud to be black. Never wanted to be nothing else. Loved everything about it, just...It's such beauty in black people, and it really saddens me when we're not allowed to express that pride in being black, and that if you do, then it's considered anti-white. No! You just pro-black. And that's okay. The two don't go together. Because you celebrate black culture does not mean that you don't like white culture or that you putting it down. It's just taking pride in it, but what's irritating is when somebody says, you know, "They're racist!", "That's reverse racism!" or, "They have a Black History Month, but we don't have a White History Month!"Well, all we've ever been taught is white history. So, why are you mad at that? Why does that make you angry? That is to suppress me and to make me not be proud-Tina Knowles(quoted from the Album "A Seat at the Table" by Solange Knowles)

Ending White Slavery One World

The Black History of the White House presents the untold history, racial politics, and shifting significance of the White House as experienced by African Americans, from the generations of enslaved people who helped to build it or were forced to work there to its first black First Family, the Obamas. Clarence Lusane juxtaposes significant events in White House history with the ongoing struggle for democratic, civil, and human rights by black Americans and demonstrates that only during crises have presidents used their authority to advance racial justice. He describes how in 1901 the building was officially named the "White House" amidst a furious backlash against President Roosevelt for inviting Booker T. Washington to dinner, and how that same year that saw the consolidation of white power with the departure of the last black Congressman elected after the Civil War. Lusane explores how, from its construction in 1792 to its becoming the home of the first black president, the White House has been a prism through which to view the progress and struggles of black Americans seeking full citizenship and justice. "Clarence Lusane is one of America's most thoughtful and critical thinkers on issues of race, class and power."—Manning Marable "Barack Obama may be the first black president in the White House, but he's far from the first black person to work in it. In this fascinating history of all the enslaved people, workers and entertainers who spent time in the president's official residence over the years, Clarence Lusane restores the White House to its true colors."—Barbara Ehrenreich "Reading The Black History of the White House shows us how much we DON'T know about our history, politics, and culture. In a very accessible and polished style, Clarence Lusane takes us inside the key national events of the American past and present. He reveals new dimensions of the black presence in the US from revolutionary days to the Obama campaign. Yes, 'black hands built the White House'—enslaved black hands—but they also built this country's economy, political system, and culture, in ways Lusane shows us in great detail. A particularly important feature of this book its personal storytelling: we see black political history through the experiences and insights of little-known participants in great American events. The detailed lives of Washington's slaves seeking freedom, or the complexities of Duke Ellington's relationships with the Truman and Eisenhower White House, show us American racism, and also black America's fierce hunger for freedom, in brand new and very exciting ways. This book would be a great addition to many courses in history, sociology, or ethnic studies courses. Highly recommended!"—Howard Winant "The White House was built with slave labor and at least six US presidents owned slaves during their time in office. With these facts, Clarence Lusane, a political science professor at American University, opens The Black History of the White House(City Lights), a fascinating story of race relations that plays out both on the domestic front and the international stage. As Lusane writes, 'The Lincoln White House resolved the issue of slavery, but not that of racism.' Along with the political calculations surrounding who gets invited to the White House are matters of musical tastes and opinionated first ladies, ingredients that make for good storytelling."—Boston Globe Dr. Clarence Lusane has published in The Washington Post, The Miami Herald, The Baltimore Sun, Oakland Tribune, Black Scholar, and Race and Class. He often appears on PBS, BET, C-SPAN, and other national media.

W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and

several works of history. Black Reconstruction in America tells and interprets the story of the twenty years of Reconstruction from the point of view of newly liberated African Americans. Though lambasted by critics at the time of its publication in 1935, Black Reconstruction has only grown in historical and literary importance. In the 1960s it joined the canon of the most influential revisionist historical works. Its greatest achievement is weaving a credible, lyrical historical narrative of the hostile and politically fraught years of 1860-1880 with a powerful critical analysis of the harmful effects of democracy, including Jim Crow laws and other injustices. With a series introduction by editor Henry Louis Gates, Jr., and an introduction by David Levering Lewis, this edition is essential for anyone interested in African American history.

The Survival Of The White Race Basic Books

"A no-nonsense call to action for all those willing to confront their complicity, Good White Racist? promises 'This is going to be hard, and you are going to be uncomfortable. But it will be worth it.'" - Foreword Reviews \ good · white · racist \ noun A well-intentioned person of European descent who is nonetheless complicit in a culture of systemic racism A white person who would rather stay comfortable than do the work of antiracism When it comes to race, most white Americans are obsessed with two things: defending our own inherent goodness and maintaining our own comfort levels. Too often, this means white people assume that to be racist, one has to be openly hateful and willfully discriminatory—you know, a bad person. And we know we're good, Christian people, right? But you don't have to be wearing a white hood or shouting racial epithets to be complicit in America's racist history and its ongoing systemic inequality. In Good White Racist?, Kerry Connelly exposes the ways white people participate in, benefit from, and unknowingly perpetuate racism—despite their best "good person" intentions. Good White Racist? unpacks the systems that maintain the status quo, keep white people comfortable and complicit, and perpetuate racism in the United States and elsewhere. Combining scholarly research with her trademark New Jersey snark, Connelly shows us that even though it may not be our fault or choice to participate in a racist system, we all do, and it's our responsibility to do something about it.

The Mis-education of the Negro Cambridge University Press

From the Pulitzer Prize-winning scholar, a timely history of the constitutional changes that built equality into the nation's foundation and how those guarantees have been shaken over time. The Declaration of Independence announced equality as an American ideal, but it took the Civil War and the subsequent adoption of three constitutional amendments to establish that ideal as American law. The Reconstruction amendments abolished slavery, guaranteed all persons due process and equal protection of the law, and equipped black men with the right to vote. They established the principle of birthright citizenship and guaranteed the privileges and immunities of all citizens. The federal government, not the states, was charged with enforcement, reversing the priority of the original Constitution and the Bill of Rights. In grafting the principle of equality onto the Constitution, these revolutionary changes marked the second founding of the United States. Eric Foner's compact, insightful history traces the arc of these pivotal amendments from their dramatic origins in pre-Civil War mass meetings of African-American "colored citizens" and in Republican party politics to their virtual nullification in the late nineteenth century. A series of momentous decisions by the Supreme Court narrowed the rights guaranteed in the amendments, while the states actively undermined them. The Jim Crow system was the result. Again today there are serious political challenges to birthright citizenship, voting rights, due process, and equal protection of the law. Like all great works of history, this one informs our understanding of the present as well as the past: knowledge and vigilance are always necessary to secure our basic rights.

[A House Built by Slaves](#) Lulu.com

"To date, history remains largely white history. Black people, as a race, are virtually non-existent when historical events are described in textbooks,

movies and centennial celebrations. Their role in America is most often that of cotton pickers, marchers or rioters. Black History Month narrowly limits contributions of blacks to a familiar list of 10 to 15 individuals when in fact, blacks, though enslaved and powerless, had a profound and indelible influence on the American socio-economic system [sic]. Black labor was the engine that drove this nation and civilizations around the world. Slavery and its legacies shaped and continue [sic] to reveal this nation's cultural, moral and ethical hypocrisy. The products of black labor created industrial revolutions in Britain and America. They provoked social tensions that led to the Revolutionary War, Civil War, Reconstruction and a national civil rights movement...the purpose of this book is to unearth and expose some of the 'Dirty Little Secrets' hidden in the darkness of history." -- cover, page 4.

Dear Police Cognella Academic Publishing

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Teaching Black History to White People Colchis Books

An award-winning look at Lincoln and Race Widely praised and winner of the 2023 Gilder Lehrman Lincoln Prize, this book illuminates why Lincoln's unprecedented welcoming of African American men and women to the White House transformed the trajectory of race relations in the United States.

From his 1862 meetings with Black Christian ministers, Lincoln began inviting African Americans of every background into his home, from ex-slaves from the Deep South to champions of abolitionism such as Frederick Douglass and Sojourner Truth. More than a good-will gesture, the president conferred with his guests about the essential issues of citizenship and voting rights. Drawing from an array of primary sources, White reveals how African Americans used the White House as a national stage to amplify their calls for equality. Even more than 160 years after the signing of the Emancipation Proclamation, Lincoln's inclusion of African Americans remains a necessary example in a country still struggling from racial divisions today.

White History Month Independently Published

A Race Is a Nice Thing to Have: A Guide to Being a White Person or Understanding the White Persons in Your Life is designed to help White people fully recognize and accept their racial identity, assume the proper responsibility for ending racism, and develop an understanding of how racism impacts their own racial group. This powerful text encourages positive racial adjustment and deeper levels of self-understanding. The book explores the meaning of race in society, the "color-blindness" movement, the problem of ignorance about Whiteness, the various phases of internalized racism, and other critical topics. Evocative and meaningful activities throughout the text foster reflection and increased levels of self-awareness and acceptance. The third edition features updated references and charts, as well as a new foreword by Dr. Allen Ivey. *A Race Is a Nice Thing to Have* is part of the Cognella Series on Advances in Culture, Race, and Ethnicity. The series, co-sponsored by Division 45 of the American Psychological Association, addresses critical and emerging issues within culture, race, and ethnic studies, as well as specific topics among key ethnocultural groups. For a look at the specific features and benefits of *A Race Is a Nice Thing to Have*, visit cognella.com/a-race-is-a-nice-thing-to-have-features-and-benefits.
