The only current authorized edition of the classic work on parliamentary procedure--now in a new updated edition Robert's Rules of Order is the recognized guide to smooth, orderly, and fairly conducted meetings. This 12th edition is the only current manual to have been maintained and updated since 1876 under the continuing program established by General Henry M. Robert himself. As indispensable now as the original edition was more than a century ago, Robert's Rules of Order Newly Revised is the acknowledged "gold standard" for meeting rules. New and enhanced features of this edition include: Section-based paragraph numbering to facilitate cross-references and e-book compatibility Expanded appendix of charts, tables, and lists Helpful summary explanations about postponing a motion, reconsidering a vote, making and enforcing points of order and appeals, and newly expanded procedures for filling blanks New provisions regarding debate on nominations, reopening nominations, and completing an election after its scheduled time Dozens more clarifications, additions, and refinements to improve the presentation of existing rules, incorporate new interpretations, and address common inquiries Coinciding with publication of the 12th edition, the authors of this manual have once again published an updated (3rd) edition of Robert's Rules of Order Newly Revised In Brief, a simple and concise introductory guide cross-referenced to it.

Cracking the GED Test with 2 Practice Exams, 2016 Edition PublicAffairs

Study Skills and Test-Taking Strategies for Medical Students: Find and Use Your Personal Learning Style provides techniques that identify and apply the medical student's personal learning style to specific study skills and exam-taking strategies so that understanding, analysis, synthesis, and recall of information occur in a time-efficient manner. This volume in the Oklahoma Notes Series is written for talented medical students who were excellent scholars in undergraduate school but find themselves overwhelmed with the information explosion and time constraints of medical school.
