In this pioneering work about the precursor to the comic book, Kelly Boyd traces the evolution of the boys' story paper and its impact on the imaginative world of working-class readers. From the penny dreadful and the Boy's Own Paper to the tales of Billy Bunter and Sexton Blake, this cultural form shaped ideas about gender, race, class and empire in response to social change. This study is an important analysis of a neglected part of popular culture.

Casinos are often used by political economists, and popular commentators, to think critically about capitalism. Bingo - an equal chance numbers game played in many parts of the world - is overlooked in these conversations about gambling and political economy. Bingo Capitalism challenges that omission by asking what bingo in England and Wales can teach us about capitalism and the regulation of everyday gambling economies. The book draws on official records of parliamentary debate, case law, regulations and in-depth interviews with both bingo players and workers to offer the first socio-legal account of this globally significant and immensely popular pastime. It explores the legal and political history of bingo and how gender shapes, and is shaped by, diverse state rules on gambling. It also sheds light on the regulation of workers, players, products, places, and

technologies. In so doing it adds a vital new dimension to accounts of UK gambling law and regulation. Through Bingo Capitalism, Bedford makes a key theoretical contribution to our understanding of the relationship between gambling and political economy, showing the role of the state in supporting and then eclipsing environments where gambling played a key role as mutual aid. In centring the regulatory entanglement between vernacular play forms, self-organised membership activity, and corporate leisure experiences, she offers a fresh vision of gambling law from the everyday perspective of bingo.

The Lamb Will Slaughter the Lion by Margaret Killjoy pits utopian anarchists against rogue demon deer in this dropkick-in-the-mouth punk fantasy that Alan Moore calls "scary and energetic." Searching for clues about her best friend's mysterious suicide, Danielle ventures to the squatter, utopian town of Freedom, Iowa, and witnesses a protector spirit — in the form of a blood-red, three-antlered deer — begin to turn on its summoners. She and her new friends have to act fast if they're going to save the town — or get out alive. "Intelligent and fiercely imagined." —Alan Moore "A dark story of the human need for power." —Eileen Gunn "Daring anti-fantasy." — Nick Mamatas "A unique bite of punk culture." — Delilah S. Dawson "Important, thought-provoking...thrilling ride." —Lewis Shiner "Always vivid."—Tobias Buckell "As relatable as it is harrowing." —Leanna Renee Hieber "Utterly engrossing...it refuses to let you go." —Mur Lafferty At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Bingo Theory unites us all. Men are not from Mars and Women are not from Venus. We are all from Planet Earth. The traditional view of masculine and feminine energy is very black and white. If you are a woman, you are considered to be feminine, and similarly if you are man- you are considered to be masculine. This outdated and inadequate mindset has led to a tremendous imbalance both internally in our lives, as well as externally in our world. The Bingo Theory breaks through this traditional gender-polarized idea of man and woman, by providing a new fresh view and understanding of masculine and feminine energies and the important role both of these energies play in our lives. Every single human on this planet has two energies living within them: the masculine and the feminine.The masculine energy helps us to operate in the outer world; it makes us strong, independent, and confident. The feminine energy, on the other hand, helps us love and connect to others. It's what makes us creative and intuitive. In this book you will learn how to balance the masculine and feminine energies within you so that you can be a Bingo. What is a Bingo? A Bingo is a winning combination of both of masculine and feminine energies. This inner balance is crucial in order to have a better relationship with yourself, attract your perfect romantic partner, improve your existing relationship, as well as have a fulfilling career. In this book you will: - Discover the groundbreaking medical research that has proven that, biologically, we are all a blend of masculine and feminine strengths. - Take a quiz that helps you to determine if your strength energy is masculine or feminine. This alone is a huge eye opener. It will allow you to see clearly what amazing strengths you possess and will also highlight the areas you need to work on. - Learn simple, actionable tips to help you balance your energies. - Learn how to attract a Bingo relationship if you are single. - Learn how to transform your existing relationships (whether romantic or otherwise) using the principles of masculine and feminine energies.

This collection interrogates the multifaceted ways in which global transformations are constituted by deeply gendered socio-economic practices at the level of the 'everyday'. It brings feminist insights to bear on the emerging International Political Economy (IPE) debates about 'the everyday', showing how gender is key to understanding how political economy is enacted and performed at the local level, by non-elites, and via various cultural practices. Drawing on 'everyday' IPE and a longer-standing body of feminist scholarship that documents and theorizes the mutually constitutive nature of, on the one hand, global markets, and on the other, households, families, relations of social reproduction and gendered socio-economic practices, this collection charts the lived realities of people and communities across a wide range of sites and spaces of the global political economy. It considers how globalizing capitalism affects and is in turn affected by Argentine sex workers, Nepalese private security contractors, Canadian call centre workers, Southeast Asian domestic workers, workers and players in British bingo halls, working class households in the UK, and much more. It demonstrates, through detailed empirical research, that a gender lens is crucial for understanding how, and on what terms, individuals and households are becoming ever more enmeshed in capitalist social relations, and how they actively and creatively resist these processes. The chapters originally published as a special issue in Globalizations.

In Not Just Beer and Bingo! A Social History of Working Mens Clubs, Ruth Cherrington traces the history of working men's clubs from their mid-19th origins to their current state of declining popularity and numbers. This book is a unique and comprehensive account of a social movement that has provided companionship, education, recreation and a great deal of pleasure to working class communities for over 150 years. All aspects of club life are covered here in a highly readable, often funny, but sometimes poignant manner. At all times, Ruth Cherrington maintains a scholarly approach, drawing upon wide-ranging research and the wealth of information collected from scores of club goers, officials and entertainers from across the country. They tell their own stories throughout this book, from nights out with the kids to seaside outings, the concerts and Christmas parties, the place of women, the popularity of games and gambling and the many charitable roles and activities that clubs are involved in. Ruth Cherrington illustrates throughout the book how clubs were much loved social and community institutions that have always been about much more than beer drinking and bingo playing. They were often central to working class leisure time as well as at the heart of the communities where they were located. She shows how clubs played numerous social and cultural roles, making important contributions to the lives of their members and their families. She does not shy away from tacking the downsides of clubs life and the criticisms that they have sometimes received for some of their policies and practices. The role of the Club and Institute Union (CIU) is also considered here. Established by a Temperance minister in 1862, it helped to nurture the early clubs, fight some battles on their behalf, eventually becoming a nationwide organization that represented the Union of working mens clubs. As clubs now face many challenges and with around half the number that existed during their heyday in the early 1970s, the key reasons for the decline are laid out for the reader to consider. The discussion doesn't end there with an account of the fight back and what club people, from members through to officials and the CIU, are doing to keep their doors open and to adapt to the rapidly changing times we live in. The work concludes by offering some thoughts about their future prospects.
