Seeking writing success? Start at the beginning... Whether you're looking to get published or just hoping to hook your reader, first impressions are vital. Compelling opening scenes are the key to catching an agent or editor's attention, and are crucial for keeping your reader engaged. As a writer, what you do in your opening pages, and how you do it, is a matter that cannot be left to chance. The First 50 Pages is here to help you craft a strong beginning right from the start. You'll learn how to:

- introduce your main character
- establish your story world
- set up the plot's conflict
- begin your hero's inner journey
- write an amazing opening line and terrific first page
- and more

This helpful guide walks you through the tasks your first 50 pages must accomplish in order to avoid leaving readers disoriented, frustrated, or bored. Don't let your reader put your book down before ever seeing its beauty. Let The First 50 Pages show you how to begin your novel with the skill and intentionality that will land you a book deal, and keep readers' eyes glued to the page. The Numeracy Book now supports Show and Tell from level 1 with a revised syllabus for level 2 and 3. The Numeracy Book covers the main areas of pre-school math progressively, with inbuilt recycling so learners repeat what they have learned. The syllabus includes: number sense and operations, patterns, functions and algebra, geometry and measurement. Suggestions for when to use the NumeracyBook are referenced at the bottom of the Student Book page, but this is flexible and can be used according to time and needs of the students.

While expanding out into interstellar space using star gates left by an ancient, long-vanished race, humanity encounters the Fallers, an alien race bent on genocide. In this fragile situation, a new planet is discovered. A team of human scientists is sent to investigate the pre-industrial race living there. But what the scientists don't know is that their mission of first contact is actually a covert military operation.

Show and Tell: Level 3: Numeracy Book Catapult: Start With The Story

What if it were possible to live two very different lives in two separate worlds? What if the dreams we awaken from are the fading memories of that second life? What if one day we woke up in the wrong world? Every night, a woman on a black warhorse gallops through the mist in Chris Redston's dreams. Every night, she begs him not to come to her. Every night, she aims her rifle at

his head and fires. The last thing Chris expects--or wants--is for this nightmare to be real. But when he wakes up in the world of his dreams, he has to choose between the likelihood that he's gone spectacularly bonkers or the possibility that he's just been let in on the secret of the ages. Only one person in a generation may cross the worlds. These chosen few are the Gifted, called from Earth into Lael to shape the epochs of history--and Chris is one of them. But before he figures that out, he accidentally endangers both worlds by resurrecting a vengeful prince intent on claiming the powers of the Gifted for himself. Together with a suspicious princess and a guilt-ridden Cherazii warrior, Chris must hurl himself into a battle to save a country from war, two worlds from annihilation, and himself from a dream come way too true.

When a boy brings his pterodactyl to school for show-and-tell, hilarious havoc ensues. The creature's delightfully demented antics, the kids' expressions as they try to avoid the hungry pterodactyl, and the out-of-control imagination of the boy yield a wild and wacky romp. Kids who dig dinosaurs will devour this preposterous pterodactyl tale written in rhyming couplets and teeming with edgy school-age humor and giggle-inducing illustrations.

Pterodactyl Show and Tell Brighter Child

Sam is a quiet little boy who must conquer his fear of show-and-tell.

This fiction-editing guide shows authors and editors how to recognize shown and told prose, and avoid unnecessary exposition. Louise Harnby, a fiction editor, writer and course developer, teaches you how to identify stylistic problems and craft solutions that weave showing and telling together, and understand why there's no place for 'don't tell' in strong writing. Topics include: Shown and told prose in different scenarios; the relevance of viewpoint; when exposition serves story and deepens character; and tools that help writers add texture.

"Show, don't tell is probably the single most-important piece of advice given to writers. But many writers struggle to understand this powerful principle or have difficulty applying it to their own work. Even experienced authors sometimes don't grasp the finer nuances of showing and telling. In this book, Sandra Gerth draws on her experience as an editor and best-selling author to show you how to show and tell you when to tell. Each chapter includes concrete examples and exercises that will hone your writing skills." - Back Cover

Making Sense of 'Show, Don't Tell' Penguin

This guide reveals how writers can utilize cognitive storytelling strategies to craft stories that ignite readers' brains and captivate them through each plot element. Imagine knowing what the brain

craves from every tale it encounters, what fuels the success of any great story, and what keeps readers transfixed. *Wired for Story* reveals these cognitive secrets—and it's a game-changer for anyone who has ever set pen to paper. The vast majority of writing advice focuses on "writing well" as if it were the same as telling a great story. This is exactly where many aspiring writers fail—they strive for beautiful metaphors, authentic dialogue, and interesting characters, losing sight of the one thing that every engaging story must do: ignite the brain's hardwired desire to learn what happens next. When writers tap into the evolutionary purpose of story and electrify our curiosity, it triggers a delicious dopamine rush that tells us to pay attention. Without it, even the most perfect prose won't hold anyone's interest. Backed by recent breakthroughs in neuroscience as well as examples from novels, screenplays, and short stories, *Wired for Story* offers a

revolutionary look at story as the brain experiences it. Each chapter zeroes in on an aspect of the brain, its corresponding revelation about story, and the way to apply it to your storytelling right now.
