Are you from a middle class household and you want to win a scholarship to help with college expenses? Are you finding it impossible to find scholarships for college that are not based on financial need? Do you want to find merit-based scholarships? Are you wondering if scholarships exist for students living in a higher

income household? Scholarships for Middle Class Students answers all of these questions and more! Many believe scholarships are only available to students and families who have significant financial need. Often students from middle class families don't qualify for many of the need-based scholarships. However, they still can't afford college without a significant amount of student loans. This student loan debt can sometimes put them at a major disadvantage. In Scholarships for Middle Class Students, Marianne Ragins, \$400,000 scholarship winner and popular workshop leader identifies scholarships, prizes, and awards you can earn even if you do not have financial need. From achievement and merit-based scholarships to significant monetary prizes you can win in contests, Scholarships for Middle Class Students can help you fund the college education of your dreams, minimize student loans, and reduce the potential strain on parent savings or retirement accounts.

Whether you're starting out or starting over, you can grow wealth and make smart money choices that will bring financial security and well-being. Torabi shows readers how to build a healthy view of money, investing, wealth, and aspirations... how to map out a plan that matches their needs and goals... and put that plan into action! Torabi shows how to stop agonizing and start organizing... become your own biggest "money advocate"... assert yourself to stop getting ripped off by financial institutions... make your money count... build momentum... embrace an entrepreneurial spirit... get where you want to go! The second edition of The College Solution , which contains approximately 90% new material, is aimed at helping parents and teenagers become empowered consumers as they navigate through the college process. Billions of dollars are available to pay for college, but not everybody gets their share. It's not always the families with the brightest students or the parents who are struggling financially who receive the most money. The College Solution shares the secrets of how you can capture some of this money for your own family. The book provides advice on such topics as financial aid, merit scholarships, athletic scholarships, admission hooks, the important differences between colleges and universities, college rankings, the best student loans and the latest online tools to evaluate the generosity of schools.

Every parent wants the best for their child. That's why they send them to college! But most parents struggle to pay for school and end up turning to student loans. That's why the majority of graduates walk away with \$35,000 in student loan debt and no clue what that debt will really cost them.¹ Student loan debt doesn't open doors for young adults—it closes them. They postpone getting married and starting a family. That debt even takes away their freedom to pursue their dreams. But there is a different way. Going to college without student loans is possible! In *Debt-Free Degree*, Anthony O'Neal teaches parents how to get their child through school without debt, even if they haven't saved for it. He also shows parents: *How to prepare their child for college *Which classes to take in high school *How and when to take the ACT and SAT *The right way to do college visits *How to choose a major A college education is supposed to prepare a graduate for their future, not rob them of their paycheck and freedom for decades. *Debt-Free Degree* shows parents how to pay cash for college and set their child up to succeed for life.

Debt-Free Degree John Wiley & Sons

This book is the best introduction to getting free money scholarships and grants. It is a "must read" for the parents of college-bound high school students who don't want to blow all their money on college tuition and expenses. Parents of college-bound high school students often ask when the best time is to get free money in the form of scholarships and grants to help pay for college. The answer is simple, but how you get to the answer is not. The best time to get the free money you are seeking to help pay for your students college education is January, February, and March of their senior year. That's the time when the colleges and universities are flush with scholarship and grant money. When the "free money" gets low, or is gone, it naturally becomes increasingly difficult to get any free money. In fact, if you wait too long, the only way to get money for college is through student loans and parent loans. This is an easy (but unbelievably expensive) way to pay for college. Why? It's expensive because you (or your child), could easily pay an additional \$50,000 to \$100,000+ in interest and finance charges. The not so simple answer to this question often shocks parents: Your best chance of getting the big money actually starts between the 7th and 10th grades. Some parents gasp when they find out. That's because they think that the 11th grade is the appropriate time to start planning for college. In the old days this was probably true. However, today everything has changed. The cost of college is much more than it ever was in the past. In fact, it's such a huge investment to get a college degree (\$100,000 to \$200,000+), the only thing more expensive in life will be the purchase of a family home in a nice neighborhood, or paying for a catastrophic illness if you have no health insurance. If you have a college-bound high school student, you are in for a big financial surprise. It'll be a big surprise because you and your student are going to have to come up with \$20,000 to \$60,000 PER YEAR, until your student graduates. If you are lucky and have really good student, this will be 4 consecutive years. For not so lucky parents and students, this could easily drag out to 5-7 years. If you don't have the money to throw at this "cash-eating monster," you are going to have to borrow the money through student loans, second mortgages, or dip into your retirement savings. Or, you can

simply tell your student that the only way they are going to college is to get student loans or to go to a community college and start with an AA degree. There are billions of dollars of free money scholarships and grants available to all college-bound high school students. The problem is that most parents are too busy living their lives, raising their families, and earning a living to take the time and expertise to find out where all this money is and how to get it. This is where this book can help you. If you are sincerely interested in sending your kids to the top colleges in America for pennies on the dollar, please read this book right away and be prepared to learn ways you can get free money scholarships and grants to cover the costs, and which colleges and universities are most likely to give your student money to attend their school.
