The racial makeup of sports in the United States serves as a classic example of racism in the 21st century. This book examines the racial disparities in sports and the continuing significance of race in 21st-century America, debunking the myth of a "postracial society." Sports can serve as an inspirational example of what can be achieved through hard work and perseverance, regardless of one's race. However, there is plenty of evidence that race still plays a major role in sports, and that sports are key agents of racial socialization. *White Sports/Black Sports: Racial Disparities in Athletic Programs* challenges the idea that America has moved beyond racial discrimination and identifies the obvious and subtle ways in which racial identities and athletic determinism affect non-white individuals in the world of sports. Author Lori Latrice Martin gives readers a keen awareness of the issues, allowing them to see the links between sports and society as a whole and to perceive that the issues surrounding racism in sports impact people in every realm of life and are not limited to the playing field. She discusses how the media acts as an agent of racial socialization in sports, documents how historical stereotypes of minorities still exist, and looks closely at racial socialization in sports, including basketball, baseball, and football, exposing how blacks remained under-represented in most sports, especially

among front office administrators, owners, coaches, and managers. This work serves undergraduate and graduate students in the social sciences to enhance their understanding of minority and majority group relationships and appeals to general readers interested in the history of race and sports in America. *Agri-naturalist* Jones & Bartlett Publishers

Extraordinary Jobs in Sports Peterson Nelnet Company

Raised By The World is an adventurous book about hope, perseverance, passion, and grit. It recounts Vincent's passionate journey of self-discovery which began when his dad introduced him to golf. Until then, he was an uninspired boy hunting for birds and mice with prospects limited to the confines of this economically depressed rural Zambian town. When he emerged as a young golfing prodigy and decided to pursue a career in golf, it introduced him to a new world of opportunity, but at the same time, it began a pursuit of happiness journey whose questions don't have immediate answers and every step forward breaks traditional norms in this developing African country with fewer than 5000 golfers and 20 golf courses. Learning invaluable life

lessons while enduring unimaginable predicaments along the way, he shares his exhilarating journey culminating to the moment he earned membership to the Professional Golfers Association of America. *Raised by the World* is a compelling, inspirational book from a leader who from humbled beginnings and against all odds has weathered storms with higher stakes than most people will ever encounter. Challenge, change and commitment flow from *Raised by the World*. This book is about Vincent Kabaso's still unfolding story- both the heartaches he has faced, and the many accomplishments he has had—from his roots in Africa to his journey to America. A must-read book for anyone serious about learning some of the best traits possible and taking incredible risks to better their lives. — Major General Steven J Hashem (US Army, Ret.) I am so glad that Vincent has poured himself and his efforts into writing *Raised by the World*, it truly is an amazing story worth every minute of the read. From the first time we met back in 2013 on the campus of Methodist University, I knew this young man was something special. Vincent had already defied the odds of so many young people from Zambia and utilized golf as a way to escape the hardships his family endured. He wanted to see the world and make it a better place. During his time with us in the PGA Golf Management Program we saw his passion for the game and love for the Lord never waiver, despite what would be another major setback when losing his financial backing due to political and economic turmoil back home. His positive attitude and persistence were a true testament to the students in our program. -Bob Bruns, PGA/Director Methodist University PGA Golf Management Program

[Principles and Practice of Sport Management](#) Golf Yellow Pages Most golfers approach the tee with a complex mental package: worries and judgments about their swing, the other person's swing, the course, the weather, looking good, looking bad. They think about what's wrong instead of what's possible, and this is what Extraordinary Golf teaches: the art of the possible. Drawing on his experience teaching both amateurs and professionals for more than fifteen years, in his clinics around the country, in his Golf in the Kingdom seminars at the Esalen Institute, and at his own School for Extraordinary Golf in California, Shoemaker shows how extraordinary golf can be coached, learned, and practiced, with results not only in people's scores but in their sheer pleasure

in the game. Combining a host of practical exercises with an entirely new point of view, he demonstrates how to focus not on the voices in your head but on the reality of golf: the club, the ball, your body, the course - the elements that actually make up your game. He shows how to approach shots creatively, instead of mechanically; how to read greens simply by staying awake; how to develop a powerful and consistent swing by rediscovering trust for your instincts; and how to improve yourself in competition by determining what you're competing for. He also gives simple guidelines on how to coach yourself, your spouse, and your children successfully.
