The incorporation of training videos into a sound marathon training program makes Simple Marathon a one of a kind system; a book that will help any committed athlete run a great marathon. The Geek Out section at the back of the book is another unique aspect of Simple Marathon Training. The Geek Outs are written by world-renowned physiologists and professional marathoners as well as Coach Jay's clients who have been using the system for several years to run PRs. You'll learn why it's best to do your hardest strength and mobility work on the same day as your workouts and long runs. You'll learn the correct method for fueling during a marathon. Information on imagery leading up to the race and mental skills to use during race day are just some of the topics in the Geek Out section. The bottom line is, if you're a busy adult with a hectic life, Simple Marathon Training is the right training book for you. "Jay's training system works beautifully for runners who aim for excellence in every area of their lives-athletically, personally and professionally. Inspiration and practical tips for runners who prioritize enjoyment over pace and embrace their place as an "average" runner In her first book, popular runner blogger Amanda Brooks lays out the path to finding greater fulfillment in running for those who consider themselves "middle of the pack runners" -- they're not trying to win Boston (or even qualify for Boston); they just want to get strong and stay injury-free so they can continue to enjoy running. Run to the Finish is not your typical running book. While it is filled with useful strategic training advice throughout, at its core, it is about embracing your place in the middle of the pack with humor and learning to love the run you've got without comparing yourself to other runners. Mixing practical advice like understanding the discomfort vs. pain, the mental side of running, and movements to treat the most common injuries with more playful elements such as "Favorite hilarious marathon signs" and "Weird Thoughts We all Have at the Start Line," Brooks is the down-to-earth, inspiring guide for everyone who wants to be happier with their run.
