Terrorism Inside

America's Borders

examines the history, trends, and different features of terrorism, and how the media, law enforcement, and other social institutions have responded to the violence. A variety of theoretical, methodological and analytical strategies are used to explore these issues.

Ensign Ross Hofmann had no idea what was in store for him when he arrived at Cavite Naval Base in October 1941. Two months later, Japanese forces struck the Philippines, destroying the base and forcing U.S. personnel to retreat to Bataan. There, Hofmann joined a makeshift unit of Army Aircorps ground personnel, U.S. Marines, U.S. sailors, U.S. Naval

ground battalions and Filipinos to fight a Japanese force that landed nearby. In March 1942, with the fall of Bataan imminent, he traveled to Cebu to run supplies through the blockade of Bataan and Corregidor. Soon after his arrival, the Japanese landed on Cebu, forcing the Americans to retreat again. Hiking through jungles and crossing dangerous waters in barely seaworthy vessels, Hofmann avoided capture and reached an American base in Mindanao. He received orders to establish a seaplane base on Lake Lanao. As Japanese troops landed nearby, two seaplanes returning from Corregidor stopped to refuel, one of them hitting a submerged rock on take-off. In a harrowing race against the enemy advance, Hofmann and others worked feverishly to fix the plane and escape before the Japanese converged on Lake Lanao. This memoir recounts Hofmann's experiences in vivid detail. Instructors considering this book for use in a course may

Will Israel and the U.S. be destroyed or partially destroyed in 2012-2019 or 2026-2030 and beyond and Muslims, Catholics and communism take over most of the world? Were there strange things going around the sun, the moon changing degrees and phases, stars that aren't where there suppose to be and the magnetic poles changing mostly reported secretly in 2001-2011? Did NASA or scientists and astronomers brush the pictures of them away so not to scare people? Did the Bible Code predict strange behavior of the moon in 2011? Will a great tidal wave hit the U.S. East Coast in

2012-2019 and Yellowstone Park super volcano erupt or a comet or asteroid hits the earth or Ocean in 2026-2030 and utterly destroy the entire United States if it still around after the war of 2012-2019? Will the Muslims, communism and Catholics persecute Christians, Americans and Jews all over the world bringing them before Kings and have them sent to prisons and torture and killed if they don't deny Christ and convert to Islam? Will Muslims and people all over the world begin to mock and scoff at Christians and the Bible because Israel and the U.S. are destroyed and no Rapture or end or Second Coming of Christ happened? Several of the Bible prophecies predict God will not make a full end of the U.S., Israel and the world at this time and pockets of people and nations may or may not survive. God may save the U.S., Israel and the world if the people repent and turn from their sins and begin to humble themselves and heed the harbingers. But if they don't then these events may start to happen. This book was written by June 12, 2012.

United States of AmericaEnd Time Signs The New York Supplement What Happened to Those People Laura Ingalls Wilder Wrote About? U of Minnesota Press "Taps the fascinating history of a surprisingly understudied place—Dallas . . . to reorient our understanding of America's Republican Right." —Darren Dochuk, author of *Anointed with Oil* On the morning of November 22, 1963, President Kennedy told Jackie as they started for Dallas, "We're heading into nut country today." That day's events ultimately obscured and revealed just how right he was: Oswald was a lone gunman, but the city that surrounded him was full of

people who hated Kennedy and everything he stood for, led by a powerful group of ultraconservatives who would eventually remake the Republican party in their own image. In *Nut Country*, Edward H. Miller tells the story of that transformation, showing how a group of influential far-right businessmen, religious leaders, and political operatives developed a potent mix of hardline anticommunism, biblical literalism, and racism to generate a violent populism—and widespread power. Though those figures were seen as extreme in Texas and elsewhere, mainstream Republicans nonetheless found themselves forced to make alliances, or tack to the right on topics like segregation. As racial resentment came to fuel the national Republican party's divisive but effective "Southern Strategy," the power of the extreme conservatives rooted in Texas only grew. Drawing direct lines from Dallas to DC, Miller's captivating history offers a fresh understanding of the rise of the new Republican Party and the apocalyptic language, conspiracy theories, and ideological

rigidity that remain potent features of our politics today. "Well-researched and briskly written . . . A timely, intelligent, and penetrating book." —The New York Times Book Review

McKissack v.

Comprehensive Health Services of Detroit, 447

MICH 57 (1994) McFarland

We live in turbulent times with continents and nations facing ever-heightening risks such as natural disasters, intense and protracted conflicts, terrorism, corporate crises, cyber threats to infrastructures and mega-events. We are witnessing the rise of mega-crises and a new class of adversity with many unknowns. The prospect of mega-crises presents professionals and students in the field of crisis management with four major tasks. First, they should engage in "deep thinking" about the causes of the increasing occurrence of mega-crises. Second, they should identify and work through the dominant trends which complicate contemporary crisis management. Third, they should upgrade institutional crisis management capacity. Fourth, they should improve societal

resilience since no institutional complex can mitigate or manage these mega-crisis on its own. This book is divided into four primary parts, each of which looks at one facet of mega-crises. Part I focuses on the concept of a mega-crisis and mega-crisis management; Part II examines crisis management of mega-natural disasters; Part III evaluates crisis management of man-made mega-crises; and Part IV identifies mega-threats and vulnerabilities. Additional major topics include Hurricane Katrina; Hurricane Gustav; the London Bombings; the Mumbai Terrorist Attacks of July 7, 2005; corporate meltdowns; the subprime crisis; the Olympic Games; electricity grids; global climate change; the Dutch Delta; risks to food security; and mega-crises and the Internet. This comprehensive text will provide practitioners and academics with the results of an across-the-board research effort in the prospects, nature, characteristics, and the effects of mega-crises.

In 1983 visionary director John Cassavetes asked journalist Michael Ventura to write a unique film study—an on-set diary of the making of his film *Love Streams*. Cassavetes laid out his expectations. He wanted "a daring book, a tough book". In Ventura's words, "All I had to do for 'daring' and 'tough' was transcribe this man's audacity day by day." Full of insight into not only the filmmaker but his actors and his Hollywood peers, the resulting book describes the creation of *Love Streams* shot by shot, crisis by crisis. During production, the director

learned that he was seriously ill, that this film might, as it tragically turned out, be his last. Starring alongside actress and wife Gena Rowlands, Cassavetes shot in sequence, reconceiving and revising his film almost nightly, in order that *Love Streams* could stand as his final statement. Both an intimate portrait of the man and an insight into his unique filmmaking philosophy, this important text for all movie lovers and film historians documents a heroic moment in the life of a great artist.
