Operation Yao Ming

Triumph Books
The riveting story behind NBA giant Yao

Ming, the ruthless Chinese sports machine that created him, and the East-West struggle over China's most famous son. The NBA's 7'6" All-Star Yao Ming has changed the face of basketball, revitalizing a league desperate for a new hero while becoming a multimillionaire pitchman for Reebok and McDonald's. But his journey to America—like that of his forgotten foil, 7'1" Wang Zhizhi—began

long before he set foot on the world's brightest athletic stage. Operation Yao Ming opens with the story of the two boys' parents, basketball players brought together by Chinese officials intent on creating a generation of athletes who could bring glory to their resurgent motherland. Their children would have no more freedom to choose their fates. By age thirteen, Yao was pulled out of sports school

to join the Shanghai Sharks pro team, following in the footsteps of Wang, then the star of the People's Liberation Army team. Rumors of the pair of Chinese giants soon attracted the NBA and American sports companies, all eager to tap a market of 1.3 billion consumers. In suspenseful scenes, journalist Brook Larmer details the backroom maneuverings that brought China's first

players to the NBA. Drawing on years of firsthand reporting, Larmer uncovers the disturbing truth behind China's drive to produce Olympic champions, while also taking readers behind the scenes of America's multibillion-dollar sports empire. Caught in the middle are two young men—one will become a mega-rich superstar and hero to millions, the other a struggling

athlete rejected by his homeland yet lost in America.

Basketball Legends

On the night of March 2, 1962, in Hershey, Pennsylvania, right up the street from the chocolate factory, Wilt Chamberlain, a young and striking athlete celebrated as the Big Dipper, scored one hundred points in a game against the New York Knickerbocker s. As historic and

revolutionary as the achievement was, it remains shrouded in myth. The game was not televised; no New York sportswriters showed up; and a fourteen-year-old local boy ran onto the court when Chamberlain scored his hundredth point, shook his hand, and then ran off with the basketball. In telling the story of this remarkable night, author Gary M. Pomerantz brings to life a

lost world of American sports. In 1962, the National Basketball Association, stepchild to the college game, was searching for its identity. Its teams were mostly white, the number of black players limited by an unspoken quota. Games were played in drafty, half-filled arenas, and the players traveled on buses and trains, telling tall tales, playing cards, and sometimes reading Joyce.

Into this scene stepped the unprecedented Wilt Chamberlain: strong and quick-witted, voluble and enigmatic, a seven-footer who played with a colossal will and a dancer's grace. That strength, will, grace, and mystery were never more in focus than on March 2, 1962. Pomerantz tracked down Knicks and Philadelphia Warriors, fans, journalists, team officials, other NBA stars of the era, and

basketball historians, conducting more than 250 interviews in all, to recreate in painstaking detail the game that announced the Dipper's greatness. He brings us to Hershey, Pennsylvania, a sweet-seeming model of the gentle, homogeneous small-town America that was fast becoming anachronistic. We see the fans and players, alternately fascinated and confused by Wilt, drawn

anxiously into the spectacle. Pomerantz portrays the other legendary figures in this story: the Warriors' elegant coach Frank McGuire; the beloved, if rumpled, team owner Eddie Gottlieb; and the irreverent p.a. announcer Dave "the Zink" Zinkoff, who handed out free salamis courtside. At the heart of the book is the self-made Chamberlain, a romantic cosmopolitan who owned a

nightclub in Harlem and shrugged off segregation with a bebop cool but harbored every slight deep in his psyche. March 2, 1962, presented the awesome sight of Wilt Chamberlain imposing himself on a world that would diminish him. Wilt, 1962 is not only the dramatic story of a singular basketball game but a meditation on small towns, midcentury America, and one of the most

intriguing figures in the pantheon of sports heroes. Manute Bol was the first African-born player drafted into the NBA and, at seven foot seven inches, the tallest. In the 1980s and 90s he was also among the league's most fearsome shot-blockers and its most beloved figures. Off the basketball court, however, Bol's

story was more remarkable than most fans ever knew. Activist, gambler, joker, rebel—Bol was a complex man whose fate was inextricably bound with that of the South Sudan, his homeland. On the eve of that new nation's independence, writer Jordan Conn traveled to the Sudan to explore Bol's remarkable path from Africa to the NBA, his rise to stardom and fall into

obscurity, and his final role as a renowned humanitarian and hero to his people. Conn's account is a funny and moving portrait of a man who lived a life befitting his outsized body.
