A Rhetoric of Bourgeois
Revolution OUP Oxford
Ancient and Modern
Democracy is a
comprehensive account of
Athenian democracy as a
subject of criticism,
admiration and scholarly
debate for 2,500 years,

covering the features of
Athenian democracy, its
importance for the
English, American and
French revolutions and for
the debates on
democracy and political
liberty from the
nineteenth century to the
present. Discussions were
always in the context of
contemporary
constitutional problems.
Time and again they

made a connection with a
long-established tradition,
involving both dialogue
with ancient sources and
with earlier phases of the
reception of Antiquity.
They refer either to a
common cultural legacy
or to specific national
traditions; they often
involve a mixture of
political and scholarly
arguments. This book
elucidates the complexity

of considering and constructing systems of popular self-rule.

Volney's Ruins

Bloomsbury Publishing
USA

This groundbreaking three-volume encyclopedia is the first to focus exclusively on the revolutionary movements that have changed the course of history from the American and French Revolutions to the present. ABC-CLIO is proud to present an encyclopedia that reaches around the globe to explore the most

momentous and impactful political revolutions of the last two-and-a-half centuries, exploring their origins, courses, consequences, and influences on subsequent individuals and groups seeking to change their own governments and societies. In three volumes, *Revolutionary Movements in World History* covers 79 revolutions, from the American and French uprisings of the late 18th century to the rise of communism, Nazism, and fascism; from Ho Chi Minh

and Fidel Castro to the Ayatollah, al Qaeda, and the fall of the Berlin wall. Written by leading experts from a number of nations, this insightful, cutting-edge work combines detailed portrayals of specific revolutions with essays on important overarching themes. Full of revealing insights, compelling personalities, and some of the most remarkable moments in the world's human drama, *Revolutionary Movements in World History* offers a new way of looking at how societies reinvent

themselves.

A Brief History of the
Masses Hachette UK

The first comprehensive study of the complex events and debates through which the 1789 French National Assembly became a sovereign body. The Tennis Court Oath Cambridge University Press
The upheavals, terror, and drama of the French Revolutionary and Napoleonic period restructured politics and society on a grand scale, making this the defining moment for modern

European history. This volume collects together a wide selection of primary texts to explain the process behind the enormous changes undergone by France and Europe between 1787 and 1815, from the Terror to the Counter-Revolution and from Marie-Antoinette to Robespierre and Bonaparte. While bringing the impact of historical events to life, Philip Dwyer and Peter McPhee provide a clear outline of the period through key documents and lucid introductory passages and

commentary. They illustrate the meaning of the Revolution for peasants, sans-culottes, women, and slaves, as well as placing events within a wider European context.. Students will find this an invaluable source of information on the Revolution as a whole as well as the international significance of the events. *Index to the World Great Classics* Standard Ebooks
From an award-winning historian, a “vivid” (Wall Street Journal) account of the revolution that

created the modern world. The French Revolution's principles of liberty and equality still shape our ideas of a just society—even if, after more than two hundred years, their meaning is more contested than ever before. In *A New World Begins*, Jeremy D. Popkin offers a riveting account of the revolution that puts the reader in the thick of the debates and the violence that led to the overthrow of the monarchy and the establishment of a new society. We meet

Mirabeau, Robespierre, and Danton, in all their brilliance and vengefulness; we witness the failed escape and execution of Louis XVI; we see women demanding equal rights and Black slaves wresting freedom from revolutionaries who hesitated to act on their own principles; and we follow the rise of Napoleon out of the ashes of the Reign of Terror. Based on decades of scholarship, *A New World Begins* will stand as the definitive treatment of the French Revolution.

Jacobin Republic Under Fire Cambridge University Press

Originally published in German in 1988, *The Apocalypse in Germany* is now available for the first time in English. A fitting subject for the dawn of the new millennium, the apocalypse has intrigued humanity for the last two thousand years, serving as both a fascinating vision of redemption and a profound threat. A cross-disciplinary study, *The Apocalypse in Germany* analyzes fundamental aspects of

the apocalypse as a religious, political, and aesthetic phenomenon. Author Klaus Vondung draws from religious, philosophical, and political texts, as well as works of art and literature. Using classic Jewish and Christian apocalyptic texts as symbolic and historical paradigms, Vondung determines the structural characteristics and the typical images of the apocalyptic worldview. He clarifies the relationship between apocalyptic visions and utopian speculations and explores

the question of whether modern apocalypses can be viewed as secularizations of the Judeo-Christian models. Examining sources from the eighteenth century to the present, Vondung considers the origins of German nationalism, World War I, National Socialism, and the apocalyptic tendencies in Marxism as well as German literature--from the fin de siècle to postmodernism. His analysis of the existential dimension of the apocalypse explores the

circumstances under which particular individuals become apocalyptic visionaries and explains why the apocalyptic tradition is so prevalent in Germany. The Apocalypse in Germany offers an interdisciplinary perspective that will appeal to a broad audience. This book will also be of value to readers with an interest in German studies, as it clarifies the riddles of Germany's turbulent history and examines the profile of German culture,

particularly in the past century.

The Tribe of John

Wesleyan University Press

A distinguished group of international scholars from the disciplines of history, philosophy, literature and art history offer a reconsideration of the ideas and the impact of the abbé Henri Grégoire, one of the most important figures of the French Revolution and a contributor to the campaigns for Jewish emancipation, rights for blacks, the reform of the Catholic Church and many

other causes

The French Revolution and Napoleon OUP

Oxford

In *The Unruly City*, historian Mike Rapport offers a vivid history of three intertwined cities toward the end of the eighteenth century—Paris, London, and New York—all in the midst of political chaos and revolution. From the British occupation of New York during the Revolutionary War, to agitation for democracy in London and popular uprisings, and ultimately

regicide in Paris, Rapport explores the relationship between city and revolution, asking why some cities engender upheaval and some suppress it. Why did Paris experience a devastating revolution while London avoided one? And how did American independence ignite activism in cities across the Atlantic? Rapport takes readers from the politically charged taverns and coffeehouses on Fleet Street, through a sea battle between the British and French in the New

York Harbor, to the scaffold during the Terror in Paris. The Unruly City shows how the cities themselves became protagonists in the great drama of revolution. The French Revolution of 1789 as Viewed in the Light of Republican Institutions Routledge This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the

The Electronic Poetry Center (EPC) of the State University of New York (SUNY) at Buffalo presents selections from "Tribe of John: Ashbery and Contemporary Poetry." The book highlights the poetry of American poet and writer John Ashbery (1927-). EPC offers the text of the introduction and afterword, as well as the table of contents.

An Historical and Moral View of the Origin and Progress of the French Revolution Rowman & Littlefield

What Is the Third Estate? was the most influential pamphlet of 1789. It did much to set the French Revolution on a radically democratic course. It also launched its author, the Abbé Sieyès, on a remarkable political career that spanned the entire revolutionary decade. Sieyès both opened the revolution by authoring the National Assembly's declaration of sovereignty in June of 1789 and closed it in 1799 by engineering Napoleon Bonaparte's coup d'état. This book studies the

powerful rhetoric of the great pamphlet and the brilliant but enigmatic thought of its author. William H. Sewall's insightful analysis reveals the fundamental role played by the new discourse of political economy in Sieyès's thought and uncovers the strategies by which this gifted rhetorician gained the assent of his intended readers--educated and prosperous bourgeois who felt excluded by the nobility in the hierarchical social order of the old regime. He also probes

the contradictions and incoherencies of the pamphlet's highly polished text to reveal fissures that reach to the core of Sieyes's thought--and to the core of the revolutionary project itself. Combining techniques of intellectual history and literary analysis with a deep understanding of French social and political history, Sewell not only fashions an illuminating portrait of a crucial political document, but outlines a fresh perspective on the history of revolutionary

political culture.

Modern France Basic Books

The Tennis Court Oath Wesleyan University Press

The World's Great Classics University of Missouri Press

The Soul Is a Stranger in This World is a timely examination of some of the best modern and contemporary poets and a trenchant defense of poetry as a narrative, musical, and theological art. While it is common today to view the poet as a revolutionary, who

breaks old forms in the name of aesthetic and political freedom, this volume begins with the classical view of the poet "as a man speaking to men," as Wordsworth put it. Poetry may challenge and shock, but it also consoles, probing the contours of the human soul in a broken world. Collected from essays and reviews first published in *The Wall Street Journal*, *The New Criterion*, *Books and Culture*, *First Things*, and other outlets, the volume traces these concerns in the work of

modern masters such as Rilke and Eliot, avant-garde exemplars like Andre du Bouchet and Basil Bunting, and contemporary writers such as Dana Gioia and Franz Wright.

The World's Great Classics: Ancient history, by G. Rawlinson Penn State Press

The French Revolution, politics and the modern nation -- French and the civilizing mission -- Paris and magnetic appeal -- France stirs up the melting pot -- France hurtles into the future.

The World's Great Classics Comprising a General Index, a Subject Index, and Index of Authors, and a Chronologicaal Index Duke University Press
Aristocracies or nobilities dominated the social, economic, and institutional history of all European counties until only a few generations ago. The relics of their power, in traditions and behaviour, in architecture and the arts, are still all around us. This short introduction shows how ideas of aristocracy originated in ancient

times, were transformed in the middle ages, and have only fallen apart over the last two centuries. The myths in which aristocracies have always sought to shroud themselves are stripped away, but the true sources of their enduring power are also revealed. Their outlook and behaviour affected the rest of society in innumerable and sometimes surprising ways, but perhaps most surprising was the way in which a centuries-old aristocratic hegemony

crumbled away over the last two hundred years. In this Very Short Introduction William Doyle considers why this happened and what remains today. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to

make interesting and challenging topics highly readable.

The Rights of Man The Tennis Court Oath

This new edition of the most authoritative, comprehensive history of the French Revolution of 1789 draws on a generation of extensive research and scholarly debate to reappraise the most famous of all revolutions. Updates for this second edition include a generous chronology of events, plus an extended bibliographical essay

providing an examination of the historiography of the Revolution. Opening with the accession of Louis XVI in 1774, the book traces the history of France through revolution, terror, and counter-revolution, to the triumph of Napoleon in 1802, and analyses the impact of events both in France itself and the rest of Europe. William Doyle shows how a movement which began with optimism and general enthusiasm soon became a tragedy, not only for the ruling orders, but for the

millions of ordinary people all over Europe whose lives were disrupted by religious upheaval, and civil and international war. It was they who paid the price for the destruction of the old political order and the struggle to establish a new one, based on the ideals of liberty and revolution, in the face of widespread indifference and hostility. *Sophie's World* Cambridge University Press
This series is for the Cambridge International AS History syllabus (9489) for examination from

2021. Written by an experienced author team that includes examiners, a practising teacher and trainer, this coursebook supports the Cambridge International AS History syllabus. With increased depth of coverage, this coursebook helps build confidence and understanding in language, essay-writing and evaluation skills. It develops students' conceptual understanding of history with the five new 'Key concepts', for example exploring similarity and difference

in the aims/achievements of Witte and Stolypin. In addition, it encourages individuals to make substantiated judgments and reflect on their learning. Students can consolidate their skills through exam-style questions with source material and sample responses.

It is time for a major work of synthetic interpretation, and this is what *The Jacobin Republic Under Fire* offers."

Representations of Revolution, 1789-1820

Springer Science & Business Media
Stefan Jonsson uses three monumental works of art to build a provocative history of popular revolt: Jacques-Louis David's *The Tennis Court Oath* (1791), James Ensor's *Christ's Entry into Brussels in 1889* (1888), and Alfredo Jaar's *They Loved It So Much, the Revolution* (1989). Addressing, respectively, the French Revolution of 1789, Belgium's proletarian messianism in the 1880s, and the worldwide rebellions and revolutions

of 1968, these canonical images not only depict an alternative view of history but offer a new understanding of the relationship between art and politics and the revolutionary nature of true democracy. Drawing on examples from literature, politics, philosophy, and other works of art, Jonsson carefully constructs his portrait, revealing surprising parallels between the political representation of "the people" in government and their aesthetic

representation in painting. Both essentially "frame" the people, Jonsson argues, defining them as elites or masses, responsible citizens or angry mobs. Yet in the aesthetic fantasies of David, Ensor, and Jaar, Jonsson finds a different understanding of democracy—one in which human collectives break the frame and enter the picture. Connecting the achievements and failures of past revolutions to current political issues, Jonsson then situates our present moment in a long

historical drama of popular unrest, making his book both a cultural history and a contemporary discussion about the fate of democracy in our globalized world.
Revolutionary Movements

in World History [3 volumes] OUP USA
 One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she

knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.
