A sweet tiger cub, padding softly on its paws across the ground. A little lion getting its head nuzzled by mama as they soak in the sun. Two young kangaroos—joeys—at play. An infant chimpanzee, clinging lovingly to its mother's back. Nothing's more irresistible than an animal baby, and with these magnificent photos, kids can meet the cutest ones of all, and their families, too. From two fox kits climbing on logs, to an adorable baby bunny, to a trio of polar bears huddling close to stay warm, to penguins, polar bears, eaglets, and foals, these precious creatures will fascinate human "cubs"—and entice them to look at the pictures over and over again.

Everything we undergo and everything around us is temporal. Neither success nor failure, neither joy nor is sorrow permanent. This reality compels us to stay humble in our good times and be optimistic in our harsh times. At a time when a pandemic has drastically changed our lives and lifestyles, this anthology attempts to showcase how we are always subjected to change. The writers have beautifully penned the changes brought in by the cycle of time. Some have also stated the inevitable changes which are yet to be accepted. Some things have changed and some things need to be changed. Hence the book provides the readers a bit of nostalgia and a sense of awakening!

State of Wisconsin Blue Book National Geographic Books

"Our Best 357 Colleges is the best-selling college guide on the

market because it is the voice of the students. Now we let graduate students speak for themselves, too, in these brand-new guides for selecting the ideal business, law, medical, or arts and humanities graduate school. It includes detailed profiles; rankings based on student surveys, like those made popular by our Best 357 Colleges guide; as well as student quotes about classes, professors, the social scene, and more. Plus we cover the ins and outs of admissions and financial aid. Each guide also includes an index of all schools with the most pertinent facts, such as contact information. And we've topped it all off with our school-says section where participating schools can talk back by providing their own profiles. It's a whole new way to find the perfect match in a graduate school."
