Alpha Edition  
Excerpt from A History of  
Baptists in New Jersey The  
author of this history of  
Baptists in New Jersey  
owes a vast debt of  
gratitude to pastors and

to others familiar with  
olden days on account of  
their aid to secure a  
fitting history of the  
earlier and later times.  
The work was undertaken  
at the suggestion of Rev.

O. P. Eaches of Hightstown. Fifty and more years ago the Rev. R. T. Middleditch was asked by the Board of the State Convention to write such a history. Later, Rev. J. M. Carpenter was a substitute for Mr. Middleditch. The papers of these gentleman have fallen into my hands and other facts have come to my knowledge. The author has been associated with the New Jersey Baptist Convention since 1843. He was personally acquainted with the men who

originated it, and with very old men and women who were familiar with the earliest times and has also stored up from his youth data and facts touching the past. He is specially indebted to O. B. Leonard of Plainfield, without whose help the history would have been quite immature. To T. T. Price, M. D., of Tuckerton, a native of Cape May county, eminently familiar with the Baptist beginnings there about; to J. W. Lyell of Camden; to Deacon Howell of Morristown; to Pastor

Fisher of Holmdel; to Pastor Johnson of Jersey City; to Pastor Sembower of Cedarville; to D. Dewolf of Newark; to Pastor Anschutz of Hoboken; to C. A. Kenney, clerk of Lafayette church; to Rev. G. W. Clark and Rev. O. P. Eaches both of Hightstown, in preparing the book for "press." Mr. Clark also furnished the sketch of the Afro-American churches, and prepared the brief indexes. The help of these men has been invaluable and they are entitled to the highest praise for

their aid in making the book becoming to the denomination and to its object. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. **Proceedings of the New York Historical Society** JHU Press Originally commissioned in 1984, this report deals with the historical geography and

archeology of the Battle of New Orleans during the War of 1812 as it pertained to the Chalmette Battlefield. It touches upon how people put the battlefield to use after the War of 1812 as a place for generations of people as they live, work, and play. Also covered are some of the things, both bad and good, we have done over the years to commemorate the battle and remember this important event in our nation's past.

The History of Oregon and California lays out a

general record of accumulated knowledge of the Northwestern border of America and the coast, but goes as far as the Arctic Sea. Published in 1845, this is one of the earlier accounts of widespread exploration of the unknown frontier.

The question of how the American state defines its power not what it is" but what it does has become central to a range of historical discourses, from

the founding of the Republic and the role of the educational system, to the functions of agencies and America's place in the world. Here, James Sparrow, William J. Novak, and Stephen Sawyer assemble some definitional work in this area, showing that the state is an integral actor in physical, spatial, and economic exercises of power. They further imply that traditional conceptions of the state cannot grasp the subtleties of power and its articulation. Contributors

include C.J. Álvarez, Elisabeth Clemens, Richard John, Robert Lieberman, Omar McRoberts, Gautham Rao, Gabriel Rosenberg, Jason Scott Smith, Tracy Steffes, and the editors.

It created a sensation when it appeared in 1903 and remains a striking insider's narrative of the American steel industry in

the late nineteenth century. Details the historic confrontation between Andrew Carnegie and Henry Clay Frick, and the business dealings leading up to the creation of U.S. Steel in 1900.

1986 was a pivotal year in South African history. It was the year of the vigilante, the year of the necklace - but also the year the talking began. Drawing on newspaper

articles, memoirs, and little-known histories, William Dickey presents a compelling diary of a very bad year. He focuses on ordinary people, showing what life was actually like under an authoritarian regime - from the six hours a day that black workers in KwaNdebele spent on buses to the rebel sporting tours that provided a distraction for white South Africans. Some stories foreshadow the miracle of 1990 - for instance, the deputy commander of Pollsmoor Prison takes Nelson

Mandela on a scenic drive around Cape Town, years before his eventual release. Other stories shine a light on our current conflicts. Written in crisp prose, 1986 is a model of historical excavation, deftly evoking the spirit of the times. *Catalogue of a Miscellaneous Collection of Books* New York : Aldine Book Company  
 This study of military historiography examines the changing narrative of the Battle of New Orleans through two centuries of commemoration. Once

celebrated on par with the Fourth of July, the anniversary of the Battle of New Orleans is no longer a day of reverence for most Americans. The United States' stunning defeat of the British army on January 8th, 1815, gave rise to the presidency of Andrew Jackson, the Democratic Party, and the legend of Jean Laffite. Yet the battle has not been a national holiday since 1861. Joseph F. Stoltz III explores how generations of Americans have consciously revised, reinterpreted, and

reexamined the memory of the conflict to fit the cultural and social needs of their time. Combining archival research with deep analyses of music, literature, theater, and film across two centuries of American popular culture, Stoltz highlights the myriad ways in which politicians, artists, academics, and ordinary people have rewritten the battle's history. From Andrew Jackson's presidential campaign to the occupation of New Orleans by the Union Army to the Jim Crow era,

the continuing reinterpretations of the battle alienated whole segments of the American population from its memorialization. Thus, a close look at the Battle of New Orleans offers an opportunity to explore not just how events are collectively remembered across generations but also how a society discards memorialization that is no longer necessary or palatable.
