Elsevier Health Sciences
Praise for Educating Nurses "This book represents a call to arms, a call for nursing educators and programs to step up in our preparation of nurses. This book will incite controversy, wonderful debate, and dialogue among nurses and others. It is a must-read for every nurse educator and for every nurse that yearns for nursing to acknowledge and reach for the real difference that nursing can make in safety and quality in health care." —Beverly Malone, chief executive officer, National League for Nursing "This book describes specific steps that will

enable a new system to improve both nursing formation and patient care. It provides a timely and essential element to health care reform." —David C. Leach, former executive director, Accreditation Council for Graduate Medical Education "The ideas about caregiving developed here make a profoundly philosophical and intellectually innovative contribution to medicine as well as all healing professions, and to anyone concerned with ethics. This groundbreaking work is both paradigm-shifting and delightful to read." —Jodi Halpern, author, *From Detached Concern to Empathy: Humanizing Medical Practice* "This book is a landmark work in professional education! It is a must-read for all practicing and aspiring nurse educators, administrators, policy makers, and, yes, nursing students." —Christine A. Tanner, senior editor, *Journal of Nursing Education* "This work has profound implications for nurse executives and frontline managers." —Eloise Balasco Cathcart, coordinator, Graduate Program in Nursing Administration, New York University

The thoroughly updated edition reflects the current NCLEX test plan and contains more than 5,000 test questions to help students practice taking the exam. The book contains more questions than any other NCLEX-RN review and includes more pharmacology-related questions. *The Future of the Nursing Workforce in the United States* W.B. Saunders Company

The fully updated second edition of *Foundations of Nursing* gives you all the information you need to successfully complete your nursing curriculum. This single volume includes comprehensive, fundamental content in basic nursing, adult health nursing, and maternal and pediatric nursing. Introductory content

covers such topics as the health care system, communication, nursing processes, and client teaching. Current topics such as HIPAA, West Nile Virus, SARS, and bioterrorism are also discussed. The adult health nursing section is written following the Nursing Process format. The clinical chapters have been revised to include Nursing Management sections for each disorder, emphasizing the nurse's role in providing competent client care. Nursing Outcomes Classification (NOC) and Nursing Interventions Classification (NIC) have been identified in each Nursing Care Plan. A Case Study included in each chapter uses critical thinking questions to assist the user through the nursing process and to develop a customized plan of care for the client in the scenario. The maternal and pediatric section covers topics such as prenatal care, complications of pregnancy, birth, postpartum care, and newborn care. Childrearing is covered from birth through 18 years of age.

Study Guide for Understanding Medical Surgical Nursing Elsevier Health Sciences

Text Connects key concepts to practice and patient care for the diseases and disorders that will be encountered most frequently in practice. Promotes critical thinking and clinical judgment by emphasizing the 'whys' and 'hows' of clinical presentation and treatment plans. Focuses on the patient-centered role of the nurse, with clear and well-defined nursing coverage. Presents Nursing Management clearly and consistently using the nursing process to identify and reinforce the nurse's responsibilities as a member of an inter-professional care team. Organizes Nursing Interventions into 'Assessments, 'Action, ' and 'Teaching' categories with

rationales relating back to the underlying physiology and pathophysiology. Incorporates the critical care content important for new nurses. Davis Advantage--Personalized Learning and Quizzing Personalized Learning Creates personalized learning plans tailored to students' individual needs to help them build a strong foundation and make the connections to Med-Surg topics. Reinforces learning and engages students through videos and interactive activities to drive mastery. Tracks students' progress every step of the way; students know exactly how they're doing and where they need to focus their studies. Davis Edge Quizzing Challenges students to think at higher cognitive levels with over 2,000 NCLEX(R)-style questions that align with the Medical-Surgical Nursing text with page references. Includes self-grading that provides immediate feedback as each quiz is completed. Promotes in-depth understanding and comprehension with comprehensive rationales for both correct and incorrect responses. Builds students' confidence for the difficult alternate-format questions, including 'select all that apply' and 'ordered response'. Prepares students for course exams, ATI, HESI, and NCLEX(R) exams with test-taking strategies and tips. Makes studying and reviewing on the go even easier with access to the ebook
