 "Immersive and humane." —Jennifer
 Szalai, New York Times A fresh history of
 the West grounded in the lives of mixed-

descent Native families who first bridged
 and then collided with racial boundaries.
 Often overlooked, there is mixed blood at
 the heart of America. And at the heart of
 Native life for centuries there were
 complex households using intermarriage
 to link disparate communities and create
 protective circles of kin. Beginning in the
 seventeenth century, Native
 peoples—Ojibwes, Otoes, Cheyennes,
 Chinooks, and others—formed new
 families with young French, English,
 Canadian, and American fur traders who
 spent months in smoky winter lodges or at
 boisterous summer rendezvous. These
 families built cosmopolitan trade centers
 from Michilimackinac on the Great Lakes
 to Bellevue on the Missouri River, Bent's
 Fort in the southern Plains, and Fort
 Vancouver in the Pacific Northwest. Their
 family names are often imprinted on the
 landscape, but their voices have long been

mutated in our histories. Anne F. Hyde's pathbreaking history restores them in full. Vividly combining the panoramic and the particular, *Born of Lakes and Plains* follows five mixed-descent families whose lives intertwined major events: imperial battles over the fur trade; the first extensions of American authority west of the Appalachians; the ravages of imported disease; the violence of Indian removal; encroaching American settlement; and, following the Civil War, the disasters of Indian war, reservations policy, and allotment. During the pivotal nineteenth century, mixed-descent people who had once occupied a middle ground became a racial problem drawing hostility from all sides. Their identities were challenged by the pseudo-science of blood quantum—the instrument of allotment policy—and their traditions by the Indian schools established to erase Native ways. As Anne F. Hyde shows, they navigated the hard choices they faced as they had for centuries: by relying on the rich resources of family and kin. Here is an indelible western history with a new human face.

Celebrating the 100-year anniversary of the beloved crossword puzzle, readers can solve over 100 different puzzles from top constructors. *The Demon-Haunted World* Random House In this beautifully written and propulsive memoir, Huma Abedin—Hillary Clinton's famously private top aide and longtime

adviser—emerges from the wings of American political history to take command of her own story. The daughter of Indian and Pakistani intellectuals and advocates who split their time between Saudi Arabia, the UK, and the United States, Abedin grew up in many worlds. *Both/And* grapples with family, legacy, identity, faith, marriage, and motherhood with wisdom and sophistication. Abedin launched full steam into a college internship in the office of the first lady in 1996, never imagining that her work at the White House would blossom into a career in public service, nor that the career would become an all-consuming way of life. Still in her twenties and thirties, she thrived in rooms with diplomats and sovereigns, entrepreneurs and artists, philanthropists and activists, and witnessed many crucial moments in 21st-century American history—Camp David for urgent efforts at Middle East peace in the waning months of the Clinton administration, Ground Zero in the days after the 9/11 attacks, the inauguration of the first African American president of the United States, the convention floor when America nominated its first female presidential candidate. Abedin's relationship with Clinton has seen both women through extraordinary personal and professional highs, as well as unimaginable lows. Here, for the first time, is a deeply personal account of Hillary Clinton as mentor, confidante, and role model. Abedin cuts through caricature, rumor, and misinformation to reveal a crystal-clear portrait of Clinton as a brilliant and caring leader a steadfast friend, generous, funny, hardworking, and dedicated. *Both/And* is a candid and heartbreaking chronicle of Abedin's marriage to Anthony Weiner, what drew her to him, how much she wanted to believe in him, the devastation wrought by his betrayals—and their shared love for their son. It is also a timeless story of a young woman with aspirations and ideals coming into her own in high-pressure jobs, and a testament to the potential for women in leadership to blaze a path forward while supporting those who follow in their footsteps. *Both/And* describes Abedin's journey through the opportunities and obstacles, the trials and triumphs, of a full and complex life. Abedin's compassion and courage, her resilience and grace, her work ethic and mission are an inspiration to people of all ages. "This journey has led me through exhilarating milestones and devastating setbacks," said Abedin. "I have walked both with great pride and in overwhelming shame. It is a life I am—more than anything—enormously grateful for and a story I look forward to

sharing."

NAMED A BEST BOOK OF THE YEAR BY THE NEW YORKER LONGLISTED FOR THE CENTER FOR FICTION FIRST NOVEL PRIZE

"If you read one debut novel in 2022, this should be it." —Los Angeles Times In the bustling streets and cloistered homes of Lagos, a cast of vivid characters—some haunted, some defiant—navigate danger, demons, and love in a quest to lead true lives. As in Nigeria, vagabonds are those whose existence is literally outlawed: the queer, the poor, the displaced, the footloose and rogue spirits. They are those who inhabit transient spaces, who make their paths and move invisibly, who embrace apparitions, old vengeance and alternative realities. Eloghosa Osunde's brave, fiercely inventive novel traces a wild array of characters for whom life itself is a form of resistance: a driver for a debauched politician with the power to command life and death; a legendary fashion designer who gives birth to a grown daughter; a lesbian couple whose tender relationship sheds unexpected light on their experience with underground sex work; a wife and mother who attends a secret spiritual gathering that shifts her world. As their lives intertwine—in bustling markets and underground clubs, churches and hotel rooms—vagabonds are seized and challenged by spirits who command the city's dark energy. Whether running from danger, meeting with secret lovers, finding their identities, or vanquishing their shadowselves, Osunde's characters confront and support one another, before converging for the once-in-a-lifetime gathering that gives the book its unexpectedly joyous conclusion. Blending unvarnished realism with myth and fantasy, *Vagabonds!* is a vital work of imagination that takes us deep inside the hearts, minds, and bodies of a people in duress—and in triumph.

The world needs real men, real bad. And there are all sorts of conflicting ideas and messages about what a "real man" is (and is not). Is a real man one who hunts, loves sports, grills meat, fixes cars, and climbs mountains? Sure, sometimes. But that's not really the point of being a man and it's not the purpose for which men were made. Into our cultural confusion, Brant

Hansen paints a refreshingly specific, compelling picture of what men are made to be: "Keepers of the Garden." Protectors and defenders. He calls for men of all interests and backgrounds (including "avid indoorsmen" like himself) to be ambitious about the right things and to see themselves as defenders of the vulnerable, with whatever resources they have. Using short chapters loaded with must-have wisdom and Brant's signature humor, *The Men We Need* explains the essence of masculinity in a fresh, thoughtful, and entertaining way that will inspire any man who dares to read it.

A prescient warning of a future we now inhabit, where fake news stories and Internet conspiracy theories play to a disaffected American populace "A glorious book . . . A spirited defense of science . . . From the first page to the last, this book is a manifesto for clear thought."—Los Angeles Times How can we make intelligent decisions about our increasingly technology-driven lives if we don't understand the difference between the myths of pseudoscience and the testable hypotheses of science? Pulitzer Prize-winning author and distinguished astronomer Carl Sagan argues that scientific thinking is critical not only to the pursuit of truth but to the very well-being of our democratic institutions. Casting a wide net through history and culture, Sagan examines and authoritatively debunks such celebrated fallacies of the past as witchcraft, faith healing, demons, and UFOs. And yet, disturbingly, in today's so-called information age, pseudoscience is burgeoning with stories of alien abduction, channeling past lives, and communal hallucinations commanding growing attention and respect. As Sagan demonstrates with lucid eloquence, the siren song of unreason is not just a cultural wrong turn but a dangerous plunge into darkness that threatens our most basic freedoms. Praise for *The Demon-Haunted World* "Powerful . . . A stirring defense of informed rationality. . . Rich in surprising information and beautiful writing."—The Washington Post Book World "Compelling."—USA Today "A clear vision of what good science means and why it makes a difference. . . A testimonial to the power of science and a warning of the dangers of unrestrained credulity."—The Sciences "Passionate."—San Francisco Examiner-Chronicle
