Moving to another job isn't easy. And it is an extremely important decision. This could be because you don't like your job right now, or because you outgrew your company. You might feel your current job is not challenging enough for you to reach your full potential. You might not be learning anymore, improving your skills or learning new technologies. You may not have a choice. You were fired, or your company went bankrupt or had other challenges that

affected the bottom line. You've decided to move to another city or even another country. Moving to another job doesn't mean moving to a different company. It could be moving to a new position or a promotion or changing to another department where you will work on different types of projects. How do you actually move to another job or another position? How do you get a new job when everything else has failed and you lost your job? That's a serious matter.

And there are very good ways of doing this, and this is what this book is about.

Regular job searches

SUCK! They don't have to if you know what to do.

Put yourself in the driver's seat of your job search and get amazing job offers from companies you're dying to work with.

After years of coaching students to C-Suite executives at Fortune

500's I developed a custom-tailored job search strategy designed

to keep the job seeker engaged in their search and drive the offers they really want, really quickly.

About this project: I've spent my career helping senior executives, talented professionals and new graduates find their dream jobs. Their job searches were slow, stalled or even DOA before we met; after just a few weeks of working together, they landed jobs they wanted. And they loved the work we did together. I bottled up the best step-by-step advice from these one-on-one

sessions into 120 action-packed pages, just for you. Take it and run. Who should read this book? If you want a new job right now, you need to read this book. If you want to be known in your industry, you need to read this book. If you want your dream employer to create a job for you, you need to read this book. What you'll learn: How to take back your search and get employers to chase YOU How to take HR/Corporate Recruiters out of the process and get offers directly from hiring

managers How to create an undeniable value in the market that will generate offers for you and you alone For Job Seekers: You need a new job right now. I'll show you how to: Use proven strategies to beat out more qualified competition Reignite a dead search Move into a new field Win every interview using a simple, two-step process For Rock Stars: You like where you are, but you have one eye on the next big thing and you want to build your profile. I'll show you how

to: Make companies fight over you when they hear your story Stand out to recruiters and executives running "secret searches" Make your current employer beg to give you promotions for fear of losing you to the competition For Students: You're graduating, your loan payments are due and you don't know where to start. I'll show you how to: Beat out your competition, including more seasoned job seekers Get the \$\$\$'s you really deserve instead of taking a salary you can

barely live off of Set yourself up for the best promotions and job offers for your entire career Why this book? Most job search advice is terrible. Job searches are miserable. And I could spend every hour of every day of my life advising job seekers and I wouldn't scratch the surface of the need in this area. I want to reach as many people as possible with this message. I want to help job seekers take back control of their search. Everyday people come to me that need my help to find great jobs but

they simply can't afford my services. Even with the 10 hours a week that I set aside for pro bono work it doesn't scratch the surface of the demand for real help for job seekers that have been struggling for months and sometimes, years.

John Wiley & Sons Peter Cappelli confronts the myth of the skills gap and provides an actionable path forward to put people back to work.

Even in a time of perilously high unemployment, companies contend that they cannot find the employees they need. Pointing to a skills gap, employers argue applicants are simply not qualified; schools aren't preparing students for jobs; the government isn't letting in enough high-skill immigrants; and even when the match is right, prospective employees won't accept jobs at the wages offered. In this powerful and fast-reading book, Peter Cappelli,

Wharton management professor and director of Wharton's Center for Human Resources, debunks the arguments and exposes the real reasons good people can't get hired. Drawing on jobs data, anecdotes from all sides of the employer-employee divide, and interviews with jobs professionals, he explores the paradoxical forces bearing down on the American workplace and lays out solutions that can help us break through what has become a crippling employer-

employee stand-off. Among the questions he confronts: Is there really a skills gap? To what extent is the hiring process being held hostage by automated software that can crunch thousands of applications an hour? What kind of training could best bridge the gap between employer expectations and applicant realities, and who should foot the bill for it? Are schools really at fault? Named one of HR Magazine's Top 20 Most Influential Thinkers of 2011, Cappelli not only

changes the way we think about hiring but points the way forward to rev America's job engine again.

More than 70% of today's job opportunities come through the "hidden job market": they're never advertised, assigned to search firms or internal recruiters, or displayed at job fairs. What's more, as employers cut recruiting costs, the proportion of "hidden" job opportunities is actually growing. And, since most jobseekers

know practically nothing about it, those who do understand it have a powerful inside advantage. Now, two career experts reveal the hidden job market, and show how to use it to dramatically improve your chances of landing a job that fits your passions and skills perfectly. Duncan Mathison and best-selling author Martha Finney help you launch a custom, personal job search that avoids competing with thousands of desperate, laid-off job seekers. Learn how to: Use the hidden
