Words Is a Powerful Thing

"On 14th February, 1945, the Allies fire-bombed Dresden, killing tens of thousands and starting a political row and propaganda war that lasted years. James Dalton leads the Pathfinder group that pinpoints the target with flares and ensures that maximum destruction is done. The raid is proclaimed a success or an atrocity, depending on which side of the propaganda machine you are on. In a subsequent mission, Dalton crashes and is horribly burnt himself. Just rewards perhaps, for having choreographed the burning of Dresden. In the ensuing decade, Dalton struggles with his disfigurement and a tormented soul that holds him accountable for a war crime. In Dresden, a young boy survives the bombs and fire and escapes to England. Years later, they meet, and Dalton emerges from alcoholism and PTSD to find spiritual healing and love through a gift that he unwittingly gave the young boy in Dresden in 1945."-- Publisher's description.

 Bestselling author Tony Horwitz tells the electrifying tale of the daring insurrection that put America on the path to bloody war. Plotted in secret, launched in the dark, John Brown's raid on Harpers Ferry was a pivotal moment in U.S. history. But few Americans know the true story of the men and women who launched a desperate strike at the slaveholding South. Now, *Midnight Rising* portrays Brown's uprising in vivid color, revealing a country on the brink of explosive conflict. Brown, the descendant of New England Puritans, saw slavery as a sin against America's founding principles. Unlike most

abolitionists, he was willing to take up arms, and in 1859 he prepared for battle at a hideout in Maryland, joined by his teenage daughter, three of his sons, and a guerrilla band that included former slaves and a dashing spy. On October 17, the raiders seized Harpers Ferry, stunning the nation and prompting a counterattack led by Robert E. Lee. After Brown's capture, his defiant eloquence galvanized the North and appalled the South, which considered Brown a terrorist. The raid also helped elect Abraham Lincoln, who later began to fulfill Brown's dream with the Emancipation Proclamation, a measure he called "a John Brown raid, on a gigantic scale." Tony Horwitz's riveting book travels antebellum America to deliver both a taut historical drama and a telling portrait of a nation divided—a time that still resonates in ours.

An Infinity of Nations Stanford University Press

Shakespearean Metadrama was first published in 1971. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. In a new approach to Shakespeare criticism, the author interprets five of Shakespeare's early plays as metadramas, dramas that are not only about the various moral, social, political, and other thematic issues with which critics have so long been concerned but also about the plays themselves. Professor Calderwood demonstrates that in these five plays Shakespeare writes about his dramatic art -- its nature, its media of language and theater, its generic forms and conventions, its relationship to truth and the social order. In an introductory chapter the author explains his theory of

metadrama, placing it in a general critical context as well as in the specific framework of Shakespeare's plays. He distinguishes between the meaning of metadrama and the similar terms "metaplay" and "metatheatre." He points out that the dominant metadramatic aspect of the five plays under study is the interplay of language and action in drama. A separate chapter is devoted to the interpretation of each of the plays. Professor Calderwood is aware that in presenting his critical theory and interpretations he may be met with skepticism by other scholars and critics. He anticipates such a situation in the introduction: "To the critic trying on introductory styles for a book on Shakespearean metadrama," he writes, "the plight of Falstaff at the Boar's Head Tavern comes all too readily to mind. 'What trick,' he must ask himself, 'what device, what starting-hole, canst thou now find out to hide thee from this open and apparent shame?'"

Unfinished Man and the Imagination is a ground-breaking foundational work in theological anthropology that was first published in 1968. Ray Hart is a highly original thinker who, using theological and philosophical categories in imaginative ways, provides a theological account of human being that may serve as the basis for an ontology of revelation.

Midnight Rising Tuttle Publishing
Discipleship and witness are not self-sustainable. Preaching equips God's people for the work of serving and building up the body of Christ (Eph. 4:11). The gospel is news that passes from the lips of one who has heard to the ears of one who has not yet heard, then (God willing) it burrows in the soul,

energizing the hands in daring response to a word received. Preaching is instigated by an astounding claim: Good news; God has spoken to us. The Christian life is what you get when ordinary folk respond: I have heard. The book (a companion to *Preachers Dare*) is for anyone who listens to sermons—which includes preachers, since there's no way to preach without gaining skills as a listener. Listening is a human skill, but as God's word is proclaimed, the hearer experiences a vocal mix of preacher, listener, and God. Praise for *Listeners Dare* "Books about preaching—how to research, write, and deliver sermons—are legion. But books about how sermons are heard, internalized, and acted upon by ordinary Christians in the pews are rare. Willimon addresses this elusive yet critically important task with his usual wit, acumen, and pastor's heart. A few hours pondering this thought-filled work will pay handsome dividends come Sunday." —Grant Wacker, Gilbert T. Rowe Distinguished Professor of Christian History, Duke Divinity School, Durham, NC "There is no shortage of resources out there for how to prepare and preach a sermon, and yet faith comes from hearing. In turning our attention to the homiletical process of listening, Willimon has given clergy and laity alike a true gift. Together, we get to listen for God's daring Word—a word that in our hearing brings about holy obedience, persistent hope, and daring discipleship."

—Karoline M. Lewis, Marbury E. Anderson Chair of Biblical Preaching, Professor of Biblical Preaching, Luther Seminary; Program Director, Festival of Homiletics "Listening to a sermon is a spiritual discipline—that is the simple, profound insight that underpins this rich offering from Will Willimon." —Lauren F.

Winner, Associate Professor, Duke Divinity School, Durham, NC
The Redemption of Jarek U of Minnesota Press

Did you know? Richard Burton claimed that he would rather have played rugby for Wales at Cardiff Arms Park than Hamlet at the Old Vic. Local rivalries between choirs in the 'land of song' used to be so fierce that fights would break out following singing competitions. Roald Dahl was an RAF fighter pilot during the Second World War, and a near-death crash landing inspired his first published work. The Little Book of Welsh Culture is a fast-paced, fact-filled journey through the cultural heritage of Wales, crammed full of myths, traditions and personalities. Experience the country's immense artistic legacy as never before, from the medieval legends surrounding King Arthur and The Mabinogion to its modern-day transformation into a thriving filming location for big-screen blockbusters. Discover the truth behind the ancient druidic rituals of the National Eisteddfod, separate the facts from the fiction that surround Dylan Thomas' infamous lifestyle, and learn how Wales successfully regenerated the Doctor Who franchise - and unearth some fascinating secrets and hidden gems along the way.

The Antonine Romans and The

Redemption Andrew Boyce

Set in Colonial America during the War for Independence, Hessian brothers Heinrich and Eberhard Haeger are conscripted into the German mercenary army that serves English King George III. The brothers are soon at odds and then separated in 1776 during battle. Their lives take very different directions as they are involved with the Burkhard family of Pennsylvania German Lutherans, Philadelphia Irish, New York Loyalists and members from Iroquois Nation. This is a story that will show the complexities and struggles of the time when our nation was very divided and strong Christian faith of individuals made the difference in America's fight for freedom.

Listeners Dare LSU Press

Exploring the morally entangled territory of language and race in 18th- and 19th-century America, Sean Harvey shows that whites' theories of an "Indian mind" inexorably shaped by Indian languages played a crucial role in the subjugation of Native peoples and informed the U.S. government's efforts to extinguish Native languages for years to come.

21st Century Genre-Bending Crime Films The Top Pick Volume One Cinema of the 21st century has transformed the global discourse through an expansion of media reach. The tremendous changes in filmmaking worldwide have witnessed many new dimensions and articulated the best contemporary world cinema. The article spotlights a few of its best pick in the genre-specific convention of the crime films made in the twenty-first century. These inspiring cinemas' appeal

has an excuse of the genre bend through several layers, which is also a culmination of interests and styles. The blend worth mentioning of the staple that could catalyse various debates surrounding them. The idea to pen regarding interests about extraordinary experiences of energy and emotion the films motivate and communicate, stirring up the most extensive imaginaries of disciplines to combine and analyse through areas of studies. The essential elements of psychology, history, psychoanalysis, politics, the social order, literary studies and many such influences that sustain the audience that likely to turn the material consumptions to meet the visual needs. Knowledge indicates that the world of cinema reflects the virtual and social construct of the subgenre and besides the interplay of the changing definition. What it brings is the emotions and responses of the audience face-to-face with the ambivalence of the content, production and impact of crime from sources of inherent spring of indie filmmakers, studios, collaboration, mainstream cinemas and also the blockbusters of sorts.

The Martial Arts of Indonesia Houghton Mifflin Harcourt P

Preserved in music, dance, and art--as well as in ritual, tribal law, and mythology--the fighting arts of the Indonesian archipelago play a central role in Indonesian culture. *The Martial Arts of Indonesia* is a heavily illustrated and well-researched work from revered martial arts scholar and teacher Donn F. Draeger. Draeger offers an expert's perspective on the story of Indonesia's martial culture, providing a comprehensive introduction to the sophisticated forms of empty-hand combat. These acrobatic fighting styles

like Pencak Silat--which was granted World Cultural Heritage status by UNESCO in 2019--and Kuntao are growing in popularity around the world. This book also has extensive information on traditional Indonesian weapons including: Keris: A dagger with a waved blade and pistol-grip handle Kujang: A sickle-shaped dagger with a distinctive curve Rencong: An L-shaped knife with a slightly curved blade Draeger shows how these unique Indonesian forms are related to their mainland cousins, provides a historical context for their development, and describes the various combat methods employed throughout Indonesia. This edition includes a new foreword by Gary Nathan Gartenberg, the world's leading expert on Indonesian martial arts, which explains the lasting importance of this classic study of an ancient martial tradition. With over 400 photos and illustrations of moves and weapons that showcase the intricacies of the Indonesian fighting forms, *The Martial Arts of Indonesia* is an indispensable addition to any martial artist's library.

Black Writers From South Africa

Henry Holt and Company

Before they had an empire in the East, the British travelled into the Islamic world to pursue trade and to form strategic alliances against the Catholic powers of France and Spain. First-hand encounters with Muslims, Jews, Greek Orthodox, and other religious communities living together under tolerant Islamic rule changed forever the way Britons thought about Islam, just as the goods they imported from Islamic countries changed forever the way they lived. *Britain and the Islamic World* tells the story of how, for a century and a half, merchants and diplomats travelled from Morocco to Istanbul, from Aleppo to

Isfahan, and from Hormuz to Surat, and discovered a world that was more fascinating than fearful. Gerald MacLean and Nabil Matar examine the place of Islam and Muslims in English thought, and how British monarchs dealt with supremely powerful Muslim rulers. They document the importance of diplomatic and mercantile encounters, show how the writings of captives spread unreliable information about Islam and Muslims, and investigate observations by travellers and clergymen who reported meetings with Jews, eastern Christians, Armenians, and Shi'ites. They also trace how trade and the exchange of material goods with the Islamic world shaped how people in Britain lived their lives and thought about themselves.

Vanishing Voices The History Press Combining theology, politics and historical analysis, “theorizes what might be at stake—ethically—for America’s current political life” (Andrew Taylor, *Journal of American History*).

Conventional wisdom holds that attempts to combine religion and politics will produce unlimited violence.

Concepts such as jihad, crusade, and sacrifice need to be rooted out, the story goes, for the sake of more bounded and secular understandings of violence. Ted Smith upends this dominant view, drawing on Walter Benjamin, Giorgio Agamben, and others to trace the ways that seemingly secular politics produce their own forms of violence without limit. He brings this argument to life—and digs deep into the American political imagination—through a string of surprising reflections on John Brown, the nineteenth-century abolitionist who took up arms against the state in the name of a higher law. Smith argues that the key to limiting violence is not its separation from religion, but its connection to richer

and more critical modes of religious reflection. Weird John Brown develops a negative political theology that challenges both the ways we remember American history and the ways we think about the nature, meaning, and exercise of violence. “Powerfully combines theology and political theory. . . .

Recommended.” —R. J. Meagher, *Choice* “Smith illustrates how an ethical and philosophical reading of history can help us to better understand the world we live in.” —Franklin Rausch, *New Books in Christian Studies* “A brilliantly original and compelling book.” —John Stauffer, Harvard University “A very sophisticated philosophical and theological reflection on John Brown and the question of divine violence.” —Willie James Jennings, Duke University

The Japan Chronicle AuthorHouse T.S. Eliot and Early Modern Literature, for the first time, considers the full imaginative and moral engagement of one of the most influential poets of the twentieth century, T.S. Eliot, with the Early Modern period of literature in English (1580-1630). This engagement haunted Eliot's poetry and critical writing across his career, and would have a profound impact on subsequent poetry across the world, as well as upon academic literary criticism, and wider cultural perceptions. To this end, the book elucidates and contextualizes several facets of Eliot's thinking and its impact: through establishment of his original and eclectic understanding of the Early Modern period in relation to the literary and critical source materials available to him; through consideration of uncollected and archival materials, which suggest a need to reassess established readings of the poet's career; and through attention to Eliot's resonant formulations about the period

in consequent literary, critical and artistic arenas. To the end of his life, Eliot had to fend off the presumption that he had, in some way, 'invented' the Early Modern period for the modern age. Yet the presumption holds some force - it is famously and influentially an implication running through Eliot's essays on that earlier period, and through his many references to its writings in his poetry, that the Early Modern period formed the most exact historical analogy for the apocalyptic events (and consequent social, cultural and literary turmoil) of the first half of the twentieth-century. T.S. Eliot and Early Modern Literature gives a comprehensive sense of the vital engagement of this self-consciously modern poet with the earlier period he always declared to be his favourite.

Unique in its breadth of coverage, *Who's Who in Contemporary Women's Writing* is a comprehensive, authoritative and enjoyable guide to women's fiction, prose, poetry and drama from around the world in the second half of the twentieth century. Over the course of 1000 entries by over 150 international contributors, a picture emerges of the incredible range of women's writing in

our time, from Toni Morrison to Fleur Adcock- all are here. This book includes the established and well-loved but also opens up new worlds of modern literature which may be unfamiliar but are never less than fascinating.

Apocalypse and the Millennium in the American Civil War Era Westminster John Knox Press

Praise for the print edition: "...a useful and engaging reference to the vast world of the novel in world literature." *Who's Who in Contemporary Women's Writing* Springer

The study of Syro-Mesopotamian civilization has greatly advanced in the past twenty-five years. In particular the renewed interest in Eastern (or 'Mesopotamian') Syria has radically altered our understanding of not only the ancient Near East, but of the Bible as well. With Syria east of the Euphrates becoming one of the most active areas of archaeological investigation in the entire Near East, the need for a synthesis of this research and its integration with the Hebrew Bible has greatly increased. This volume charts the state of our knowledge, following a general chronological flow, and will appeal not only to scholars of the ancient Near East but also to Biblical specialists interested in the historical and religious backgrounds to the Israelite and Judahite kingdoms.
