A 34-year-old teacher named Eliza Fletcher, sometimes known as  
Liza, was last seen jogging close to the University of Memphis

campus early on Friday morning. She was then allegedly pushed into a black SUV. The 34-year-old was a local teacher who also happened to be the multibillionaire's granddaughter. Both Ms. Fletcher and the late Joseph Orgill III, a wealthy local businessman and philanthropist who was worth \$1 billion, were well-known individuals in the neighborhood. His business apparently has a market worth of over \$3 billion (£2.6 billion) and more than 5000 employees. The Memphis Police Department reports that in addition to the widely reported claims of kidnapping, Mr. Abston has also been charged with first-degree murder. According to court documents, Mr. Abston was in the S.U.V. that was used in the kidnapping. If you want to learn more about Eliza Fletcher, including her biography, family, how her dead body was discovered after being kidnapped, the crucial

clues that helped identify her kidnapper, how he was apprehended, and much more, you must read "ELIZA FLETCHER: Billionaire Daughter's Jogger Murder Mystery." Authorities in Memphis have confirmed that the body of the 34-year-old woman who was kidnapped while out for a run on Friday morning was located during the hunt for Eliza Fletcher. You may find the most recent accusations against the suspect accused of kidnapping Fletcher in this book, along with the most recent information the police have made public. Authorities announced on September 6, 2022 that they had found Fletcher's body behind an unoccupied apartment, ending the city's frenzied multi-day search. According to the police chief, it was still too early to determine Fletcher's cause of death and where it occurred. And a whole lot more! to learn more Click the Add to Cart button now!
