Afong Moy is fourteen years old when she's brought to the United States from Guangzhou Province in 1834. Allegedly the first Chinese woman to set foot on U.S. soil, she has been put on display for the American public as "The Chinese Lady." For the next half-century, she performs for curious white people, showing them how she eats, what she wears, and the highlight of the event: how she walks with bound feet. As the decades wear on, her celebrated sideshow comes to define and challenge her very sense of identity. Inspired by the true story of Afong Moy's life, *THE CHINESE LADY* is a dark, poetic, yet whimsical portrait of America through the eyes of a young Chinese woman. United Nations

*A KID'S GUIDE TO THE OCEAN* "Can you imagine a world without fish? It's not as crazy as it sounds. But if we keep doing things the way we've been doing things, fish could become extinct within fifty years. So let's change the way we do things!" *World Without Fish* is the uniquely illustrated narrative nonfiction account—for kids—of what is happening to the world's oceans and what they can do about it. Written by Mark Kurlansky, author of *Cod*, *Salt*, *The Big Oyster*, and many other books, *World Without Fish* has been praised as "urgent" (*Publishers Weekly*) and "a wonderfully fast-paced and engaging primer on the key questions surrounding fish and the sea" (Paul Greenberg, author of *Four Fish*). It has also been included in the New York State Expeditionary Learning English Language Arts Curriculum. Written by a master storyteller, *World Without Fish* connects all the dots—biology,

economics, evolution, politics, climate, history, culture, food, and nutrition—in a way that kids can really understand. It describes how the fish we most commonly eat, including tuna, salmon, cod, swordfish—even anchovies— could disappear within fifty years, and the domino effect it would have: the oceans teeming with jellyfish and turning pinkish orange from algal blooms, the seabirds disappearing, then reptiles, then mammals. It describes the back-and-forth dynamic of fishermen, who are the original environmentalists, and scientists, who not that long ago considered fish an endless resource. It explains why fish farming is not the answer—and why sustainable fishing is, and how to help return the oceans to their natural ecological balance.

Interwoven with the book is a twelve-page graphic novel. Each beautifully illustrated chapter opener links to the next to form a larger fictional story that perfectly complements the text.

'*Worldly Goods*' provides a radical interpretation of the Golden Age of European culture. During the Renaissance, Jardine argues, vicious commercial battles were being fought over silks and spices, and who should control international trade.

Amateur sleuth Odessa Dean is about to discover the only thing harder than finding her way out of an escape room is finding an affordable apartment in Brooklyn in this sequel to *Killer Content*. Odessa Dean has made a home of Brooklyn. She has a fun job waiting tables at *Untapped Books & Café* and a new friend, Izzy, to explore the city with. When she's invited on a girls' day out escape room adventure, she jumps at

the chance. It's all fun and games until the lights come on and they discover one of the girls bludgeoned to death... The only possible suspects are Odessa and the four other players that were locked in the escape room with the victim. She refuses to believe that one of them is responsible for the murder, despite what the clues indicate. In between shifts at the café, Odessa splits her time interviewing the murder suspects, updating the bookstore's social media accounts, and searching for the impossible--an affordable apartment in Brooklyn. But crime--and criminally high rent--waits for no woman. Can Odessa clear her and Izzy's names before the police decide they're guilty?

The main thesis of this book, I suppose, is that while 99% of the world tries to avoid suffering, the most successful people and people that will be remembered for generations to come, not only choose to suffer, but embrace it fully, often asking for more. Suffering is not for the faint of heart, but neither is anything that leads to something truly meaningful. Through my usual use of literature historical figures, scripture, popular music, and popular movies, and my own personal experiences, I try to not only encourage you, the reader, to choose to suffer as I have said in the paragraph below, but also to embrace it. Malcom Gladwell once said, "good writing does not succeed or fail on the strength of its ability to persuade. It succeeds or fails on the strength of its ability to engage you, to make you think, to give you a glimpse into someone else's head." I hope I achieved this

throughout the pages of Mrs. Dubose's Last Wish.

It's murder most viral in this debut mystery by Olivia Blacke. Bayou transplant Odessa Dean has a lot to learn about life in Brooklyn. So far she's scored a rent free apartment in one of the nicest neighborhoods around by cat-sitting, and has a new job working at Untapped Books & Café. Hand-selling books and craft beers is easy for Odessa, but making new friends and learning how to ride the subway? Well, that might take her a little extra time. But things turn more sour than an IPA when the death of a fellow waitress goes viral, caught on camera in the background of a couple's flash-mob proposal video. Nothing about Bethany's death feels right to Odessa--neither her sudden departure mid-shift nor the clues that only Odessa seems to catch. As an up-and-coming YouTube star, Bethany had more than one viewer waiting for her to fall from grace. Determined to prove there's a killer on the loose, Odessa takes matters into her own hands. But can she pin down Bethany's killer before they take Odessa offline for good?

Rosencrantz and Guildenstern Are Dead is a play which, as it were, takes place in the wings of Hamlet, and finds both humour and poignancy in the situation of the ill-fated attendant lords. The National Theatre production in April 1967 made Tom Stoppard's reputation virtually overnight. Its wit, stagecraft and verbal verve remain as exhilarating as they were then and the play has become a contemporary classic. 'One of the most original and engaging of post-war plays.' Emilia Romero is living a double life. By day, she's a field hockey star with a flawless report card. But by night, she's kicking virtual ass as the only female member of a highly competitive eSports team. Emilia has mastered the art of keeping her two worlds thriving, which hinges on them staying completely separate. That's in part to keep her real-life persona, but also for her own safety, since girl gamers are often threatened and harassed. When a major eSports tournament comes to her city, Emilia is determined to prove herself to her team and the male-dominated gaming community. But her perfectly balanced life is thrown for a loop when a member of a rival team recognizes her . . . Jake Hooper has had a crush on Emilia since he was ten years old. When his underdog eSports team makes it into the tournament, he's floored to discover she's been leading a double life. The fates bring Jake and Emilia together as they work to keep her secret, even as the pressures of the tournament and their non-gaming world threaten to pull everything apart. Debut author Alexis Nedd has crafted a YA combo-punch of charming romance and virtual adventure that will win the hearts of gamers and non-gamers alike.

Created by Natan Last, a senior at Brown University, three-time intern with Will Shortz, and in 2008 the youngest person to have a puzzle published in the Sunday New York Times, Word kicks the crossword puzzle squarely into the 21st century for a new generation of puzzle-lovers, replacing fusty crossword-ese with hip cultural references, modern wordplay, and a lively mix of high-and-low-brow pop trivia. A Word puzzle begins with the shared knowledge of a literate but not-so-reverent generation, and celebrates the knowingness with a deft touch. Your parents' crosswords make solvers feel smart. Word puzzles make solvers feel smart and cool, getting the references to The Daily Show, Mario Brothers, the Goo Goo Dolls, and a hefty dose of nostalgia (the name of the motel in Psycho). But they also know the core curriculum: Charlotte Bronte's Jane, Roman generals, Berlioz and von Bismarck, Homer—and not just Homer Simpson. The puzzles are

constructed with all the smarts of a daily Times crossword: themes, interconnected clues, titles that unlock the overall puzzle (solve all the clues and the circle letters will spell out a famous name at Hogwarts). Assisting Mr. Last is a group of five more top “under 25” constructors, all of whom have published puzzles in The New York Times.

Water is a finite and non-substitutable resource. As the foundation of life, societies and economies, it carries multiple values and benefits. But unlike most other natural resources, it has proven extremely difficult to determine its true ‘value’. The 2021 edition of the United Nations World Water Development Report, titled “Valuing Water” assesses the current status of and challenges to the valuation of water across different sectors and perspectives and identifies ways in which valuation can be promoted as a tool to help improve its management and achieve global sustainable development.
