and
Observations
Group, SOG
was the most
secret elite US
military unit to
serve in the
Vietnam

War—so secret its very existence was denied by the government. Composed entirely of volunteers from such ace fighting units as the Army Green Berets, Air Force Air Commandos, and Navy SEALs, SOG took on the most dangerous covert assignments, in the deadliest and most forbidding theaters of operation. In SOG, Major John L. Plaster, a three-tour SOG veteran, shares the

gripping exploits of these true American warriors in a minute-by-minute, heartbeat-by-heartbeat account of the group's stunning operations behind enemy lines—penetrating heavily defended North Vietnamese military facilities, holding off mass enemy attacks, launching daring missions to rescue downed US pilots. Some of the most extraordinary

true stories of honor and heroism in the history of the US military, from sabotage to espionage to hand-to-hand combat, Plaster's account is "a detailed history of this little-known aspect of the Vietnam War...a worthy act of historical rescue from an unjustified, willed oblivion" (The New York Times). *Dictionary of American Naval Aviation Squadrons* Department of the Army Halperin's

subject is the erotics of male culture in ancient Greece. Arguing that the modern concept of "homosexuality" is an inadequate tool for the interpretation of these features of sexual life in antiquity, Halperin offers an alternative account that accords greater prominence to the indigenous terms in which sexual experiences were constituted in the ancient Mediterranean world. Wittily

and provocatively written, Halperin's meticulously drawn windows onto ancient sexuality give us a new meaning to the concept of "Greek love." *The Royal Air Force from September 1939 to December 1940* Henry Holt and Company
The USA Today bestseller
Surprise... your target.
Kill... your enemy.
Vanish... without a trace. From Pulitzer Prize

finalist Annie Jacobsen, the untold story of the CIA's secret paramilitary units. When diplomacy fails, and war is unwise, the president calls on the CIA's Special Activities Division, a highly-classified branch of the CIA and the most effective, black operations force in the world. Originally known as the president's guerrilla warfare corps, SAD conducts risky and

ruthless operations that have evolved over time to defend America from its enemies. Almost every American president since World War II has asked the CIA to conduct sabotage, subversion and, yes, assassination. With unprecedented access to forty-two men and women who proudly and secretly worked on CIA covert operations from the dawn of the Cold War to the present day,

along with declassified documents and deep historical research, Pulitzer Prize finalist Annie Jacobsen unveils-like never before-a complex world of individuals working in treacherous environments populated with killers, connivers and saboteurs. Despite Hollywood notions of off-book operations and external secret hires, covert action is actually one piece in a colossal foreign policy

machine. Written with the pacing of a thriller, SURPRISE, KILL, VANISH brings to vivid life the sheer pandemonium and chaos, as well as the unforgettable human will to survive and the intellectual challenge of not giving up hope that define paramilitary and intelligence work. Jacobsen's exclusive interviews-with members of the CIA's Senior Intelligence Service

(equivalent to the Pentagon's generals), its counterterrorism chiefs, targeting officers, and Special Activities Division's Ground Branch operators who conduct today's close-quarters killing operations around the world-reveal, for the first time, the enormity of this shocking, controversial and morally complex terrain. Is the CIA's paramilitary army

America's weaponized strength, or a liability to its principled standing in the world? Every operation reported in this book, however unsettling, is legal. *The Score Takes Care of Itself* Pen and Sword Military A New York Times Notable Book for 2011 A Library Journal Top Ten Best Books of 2011 A Boston Globe Best Nonfiction Book of 2011 Bestselling author Tony Horwitz tells

the electrifying tale of the daring insurrection that put America on the path to bloody war. Plotted in secret, launched in the dark, John Brown's raid on Harpers Ferry was a pivotal moment in U.S. history. But few Americans know the true story of the men and women who launched a desperate strike at the slaveholding South. Now, *Midnight Rising*

portrays Brown's uprising in vivid color, revealing a country on the brink of explosive conflict. Brown, the descendant of New England Puritans, saw slavery as a sin against America's founding principles. Unlike most abolitionists, he was willing to take up arms, and in 1859 he prepared for battle at a hideout in Maryland, joined by his teenage daughter, three of his

sons, and a guerrilla band that included former slaves and a dashing spy. On October 17, the raiders seized Harpers Ferry, stunning the nation and prompting a counterattack led by Robert E. Lee. After Brown's capture, his defiant eloquence galvanized the North and appalled the South, which considered Brown a terrorist. The raid also helped elect Abraham Lincoln, who later began to

fulfill Brown's dream with the Emancipation Proclamation, a measure he called "a John Brown raid, on a gigantic scale." Tony Horwitz's riveting book travels antebellum America to deliver both a taut historical drama and a telling portrait of a nation divided—a time that still resonates in ours.

A Little History of the World
Troubador Publishing Ltd
Indexes the Times and its supplements.

Applied Corporate Finance, 4th Edition Weiser Books
E. H. Gombrich's *Little History of the World*, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the *Little History* brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design,

fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history. Simon and Schuster [Includes 12 maps and 4 tables] In recent years, the U.S. Army has paid increasing attention to the conduct of unconventional warfare. However, the base of historical experience available for study has been largely

American and overwhelmingly Western. In Russian-Soviet Unconventional Wars in the Caucasus, Central Asia, and Afghanistan, Dr. Robert F. Baumann makes a significant contribution to the expansion of that base with a well-researched analysis of four important episodes from the Russian-Soviet experience with unconventional wars. Primarily employing Russian sources,

including important archival documents only recently declassified and made available to Western scholars, Dr. Baumann provides an insightful look at the Russian conquest of the Caucasian mountaineers (1801-59), the subjugation of Central Asia (1839-81), the reconquest of Central Asia by the Red Army (1918-33), and the Soviet war in Afghanistan (1979-89). The history of these

wars—especially as it relates to the battle tactics, force structure, and strategy employed in them—offers important new perspectives on elements of continuity and change in combat over two centuries. This is the first study to provide an in-depth examination of the evolution of the Russian and Soviet unconventional experience on the predominantly Muslim southern periphery of the former

empire. There, the Russians encountered fierce resistance by peoples whose cultures and views of war differed sharply from their own. Consequently, this Leavenworth Paper addresses not only issues germane to combat but to a wide spectrum of civic and propaganda operations as well. *The New York Times Index* Prima Games Katka's heart pumped against her ribs... battles

like this were what Raider's Peril was all about. Eleven-year-old Katka feels most at home when she is not being Katka. By day, she attends school like the rest of her friends, but by night, Catanna Brittlestar adventures around the White Desert in search of prestige and precious gems, with her loyal guild in tow. The German Decision to Invade Norway and Denmark

Springer
Nature
The last lecture on leadership by the NFL's greatest coach: Bill Walsh Bill Walsh is a towering figure in the history of the NFL. His

advanced leadership transformed the San Francisco 49ers from the worst franchise in sports to a legendary dynasty. In the process, he changed the way football is played. Prior to his death, Walsh granted a series of exclusive interviews to bestselling author Steve Jamison. These became his ultimate lecture on leadership. Additional insights and perspective are provided

by Hall of Fame quarterback Joe Montana and others. Bill Walsh taught that the requirements of successful leadership are the same whether you run an NFL franchise, a fortune 500 company, or a hardware store with 12 employees. These final words of 'wisdom by Walsh' will inspire, inform, and enlighten leaders in all professions. Russian-Soviet Unconventional Wars in the

Caucasus, Central Asia, and Afghanistan [Illustrated Edition] Sports Publishing LLC NFL coaching legend Bill Walsh offers his unique blueprint and conceptual insights for coaches at all levels of play. Among the topics covered in this comprehensive 560-page, hardcover book are: Understanding the role of head coach; Strategies and tactics for dealing with a highly competitive adversary;

Designing a winning game plan; Organising the staff; The importance of being able to focus and concentrate; Evaluating players; Game-day responsibilities; And much, much more. *Aiming at Targets* Saint Martin's Paperbacks Bicyclist/journalist Alan Snel decided to pack a lifetime of bicycle misadventures, crazy times and tender moments into a collection of bicycle stories thatspan nearly 40

years. Bicycling can be about giving you a ride to work, a front-row seat to see nature, a meditation session, a workout or a ride across the country. Alan has bicycled it all and tried it all, even trying to increase the profile of bicycling in Tampa Bay -- talk about a long uphill ride. This is Alan's love sonnet to bicycling in all its forms. Never stop pedaling.

The Times Index Finding the Winning

Edge Science fiction-roman.

Trigger Happy Yale University Press

These are the combat experiences of the first Marine to command a special operations task force, recounted against a backdrop of his journey from raw Second Lieutenant to seasoned Colonel and Task Force Commander; from leading Marines through the streets of Mogadishu,

Baghdad, Fallujah and Mosul to directing multi-national special operations forces in a dauntingly complex fight against a formidable foe. The journey culminates in the story's centerpiece: the fight against ISIS, in which the author is able to use the lessons of his harsh apprenticeship to lead the SOF task force under his command to hasten the Caliphate's eventual

demise. Milburn has an unusual background for a US Marine, and this is no ordinary war memoir. Very few personal accounts of war cover such a wide breadth of experience, or with so discerning a perspective. As Bing West comments: "His exceptional skill is telling each story of battle and then knitting them into a coherent whole. By the end of the book, the reader understands what happened on the ground in the wars against terrorists over the past twenty years." Milburn tells his extraordinary story with self-effacing candor, describing openly his personal struggles with the isolation of command, post-combat trauma and family tragedy. And with the skill and insight of a natural story teller, he makes the reader experience what it's like to lead those who fight America's wars. *Bicycle Man* Routledge From the Foreword: This volume focuses on that second and longer campaign. But rather than a narrative of the overall course of the conflict, it provides a soldier's-eye view of the war by focusing on detailed accounts of selected engagements. Each illustrates the everyday challenges

that America's soldiers faced in a difficult struggle against an inventive and often elusive enemy. Weapons, doctrine, and procedures developed to fight a conventional campaign against a similar opposing force had to be adapted to fit a different type of conflict. The U.S. Army's combat and support forces brought both resourcefulness and resilience to this task while continuing to

demonstrate the same courage shown by previous generations fighting the nation's battles. These stories not only symbolize the tip of the spear formed by units in contact, but they also represent the contributions of all American men and women who have served their country in Operation Iraqi Freedom. Taken together, these accounts will provide our

deploying leaders and soldiers a better understanding of the environment that they will encounter and prepare them for the work that must be done. Spear of Destiny Pickle Partners Publishing
A narrative analysis of the complex evolution of the Continental Army, with the lineages of the 177 individual units that comprised the Army, and fourteen charts depicting

regimental organization. *The Doolittle Raid* Simon and Schuster "An overview of the ... history of Apache chief Geronimo, with a look at the timeless strategies we can learn from his life, from ... football coach Mike Leach"-- *Air University Library Index to Military Periodicals* Wiley Global Education In the pantheon of air power spokesmen, Giulio Douhet holds center stage. His writings, more

often cited than perhaps actually read, appear as excerpts and aphorisms in the writings of numerous other air power spokesmen, advocates-and critics. Though a highly controversial figure, the very controversy that surrounds him offers to us a testimonial of the value and depth of his work, and the need for airmen today to become familiar with his thought. The progressive

development of air power to the point where, today, it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest In fact, in many ways, the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision. Douhet, together with Hugh "Boom" Trenchard of Great Britain and William "Billy" Mitchell of the United

States, is justly recognized as one of the three great spokesmen of the early air power era. This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book, published in 1921. Readers may well find much that they disagree with in this book, but also much that is of enduring value. The vital necessity of Douhet's

central vision—that command of the air is all important in modern warfare—has been proven throughout the history of wars in this century, from the fighting over the Somme to the air war over Kuwait and Iraq.

Midnight Rising U. S. National Aeronautics & Space Administration
 Finalist for the Pulitzer Prize and the National Book Critics Circle Award *A New York Times Notable Book* *Winner

of the Texas Book Award and the Oklahoma Book Award* This New York Times bestseller and stunning historical account of the forty-year battle between Comanche Indians and white settlers for control of the American West “is nothing short of a revelation...will I leave dust and blood on your jeans” (The New York Times Book Review). Empire of the Summer Moon spans two

astonishing stories. The first traces the rise and fall of the Comanches, the most powerful Indian tribe in American history. The second entails one of the most remarkable narratives ever to come out of the Old West: the epic saga of the pioneer woman Cynthia Ann Parker and her mixed-blood son Quanah, who became the last and greatest chief of the Comanches. Although

readers may be more familiar with the tribal names Apache and Sioux, it was in fact the legendary fighting ability of the Comanches that determined when the American West opened up. Comanche boys became adept bareback riders by age six; full Comanche braves were considered the best horsemen who ever rode. They were so masterful at war and so skillful with

their arrows and lances that they stopped the northern drive of colonial Spain from Mexico and halted the French expansion westward from Louisiana. White settlers arriving in Texas from the eastern United States were surprised to find the frontier being rolled backward by Comanches incensed by the invasion of their tribal lands. The war with the Comanches lasted four

decades, in effect holding up the development of the new American nation. Gwynne's exhilarating account delivers a sweeping narrative that encompasses Spanish colonialism, the Civil War, the destruction of the buffalo herds, and the arrival of the railroads, and the amazing story of Cynthia Ann Parker and her son Quanah—a historical feast for anyone interested in

how the United States came into being. Hailed by critics, S. C. Gwynne's account of these events is meticulously researched, intellectually provocative, and, above all, thrillingly told. *Empire of the Summer Moon* announces him as a major new writer of American history. [Raider's Peril](#) JHU Press An analysis of the fundamental narrative structure, why it works, the meanings of

stories, and why we tell them in the first place. The idea of *Into the Woods* is not to supplant works by Aristotle, Lajos Egri, Robert McKee, David Mamet, or any other writers of guides for screenwriters and playwrights, but to pick up on their cues and take the reader on a historical, philosophical, scientific, and psychological journey to the heart of all storytelling. In this exciting and wholly original book,

John Yorke not only shows that there is truly a unifying shape to narrative—one that echoes the great fairytale journey into the woods, and one, like any great art, that comes from deep within—he explains why, too. With examples ranging from *The Godfather* to *True Detective*, *Mad Men* to *Macbeth*, and fairy tales to *Forbrydelsen* (*The Killing*), Yorke utilizes Shakespearean five-act

structure as a key to analyzing all storytelling in all narrative forms, from film and television to theatre and novel-writing—a big step from the usual three-act approach. *Into the Woods: A Five-Act Journey* into Story is destined to sit alongside David Mamet’s *Three Uses of the Knife*, Robert McKee’s *Story*, Syd Field’s *Screenplay*, and Lajos Egri’s *The Art of Dramatic Writing* as one

of the most original, useful, and inspiring books ever on dramatic writing. Praise for *Into the Woods* “Love storytelling? You need this inspiring book. John Yorke dissects the structure of stories with a joyous enthusiasm allied to precise, encyclopedic knowledge. Guaranteed to send you back to your writing desk with newfound excitement and drive.”
—Chris Chibnall, creator/writer,

<p>Broadchurch and Gracepoint “Outrageously good and by far and away the best book of its kind I’ve ever read. I recognized so much truth in it. But more than that, I learned a great deal. Time and again, Yorke articulates things I’ve always felt but have never been able to</p>	<p>describe. . . . This is a love story to story—erudite, witty and full of practical magic. I struggle to think of the writer who wouldn’t benefit from reading it—even if they don’t notice because they’re too busy enjoying every page.” —Neil Cross, creator/writer, Luther and</p>	<p>Crossbones “Part ‘how-to’ manual, part ‘why-to’ celebration, Into the Woods is a wide-reaching and infectious passionate exploration of storytelling in all its guises . . . exciting and thought-provoking.” —Emma Frost, screenwriter, The White Queen and Shameless</p>
