Trucking Life was written for anyone interested in the world of trucking, whether you simply have a passing interest or you are someone who is considering truck driving as a career. There is a link to a free audiobook version included. The book is over 200 printed pages. The author, who has been a trucker since 1997, describes the trucking lifestyle through the use of stories and a really pathetic attempt at humor. The goal is to keep you amused while you're learning instead of boring you like your 7th grade History teacher did. Many of these stories include his wife of over 20 years and co-driver for 9, whom he lovingly refers to as The Evil Overlord. And yes, she knows and approves of that nickname, so what's that tell you? Topics included in Trucking Life are: How much money can you make? Who makes a good trucker? What's it like to drive a big rig? Can you be away from home? How will you handle downtime on the road? How does your home time work? Can you handle the long driving hours? What's it like to sleep in the truck? What about health issues? What about personal hygiene? How are women truckers treated? What are the job qualifications? Will I have job security? These are just some of the questions that will be answered for you. If you read about all these things and decide truck driving may work for you, you'll need to know the process of becoming a truck driver, so it also covers: Choosing and attending a driving school Finding a great job Going to orientation class Hitting the road with a trainer A day in the life of a trucker

I chose to write this book after seeing so many people wanting to get into hotshot trucking, but not knowing how. When I started I didn't know how either. I see people posting on social media wanting to get into the business and asking the most basic of questions. So many people are starved for information that they suck up all of the bad information with the tiny trickle of good information. These people are not even at the point of asking if they should be a contract carrier or a common carrier (check both boxes, it does not cost extra and some brokers want a contract carrier and others are just fine with a common carrier) they are just asking the most simplest of the simple questions!

"Tenoclock, Colorado, is one of those sleepy, little mountain towns that suddenly gets discovered and discovers that being a place to be often leaves something to be desired . . . unless, of course, you're part of the power structure. Now the town teeters at the edge: Newsweek calls it "the new Vail" and the Hollywood crowd is beginning to buy up the mountainside. Still, Deputy Sheriff Johnelle "Johnnie" Baker can always count on closing the police station at 11:00 P.M." "Then one September night, as the tourists begin arriving to watch the aspen change color - and to watch the celebrities watching, too - the sleep is knocked right out of Tenoclock. Johnnie's routine is shattered by a jail brawl and a missing persons report, not to mention the demands for attention from a not-so-significant other. At every scene, the facts just don't add up . . . and witnesses are falling like autumn leaves. One of the bodies is that of the sheriff." "The town fathers think naming Johnnie sheriff will be the kind of good publicity they've been seeking, and, after all, what can she do to cause trouble? She'll follow orders, the dead will be buried, and no one will ask embarrassing questions of the folks who are doing so much for the standard of living."
