Original John Deere Letter Series Tractors, 1923-1954 Motorbooks International
 Using Lady Morgan's *The Wild Irish Girl* as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps the genealogy of this development in fiction, political discourse, and the popular press, from Edgeworth's *Castle Rackrent* through Trollope's Irish novels, focusing on the pivotal

period from 1806 through the 1870s. SAGE Publications

Research Methods in Psychology: Investigating Human Behavior draws on fascinating stories to illustrate the entire research process within a unifying conceptual framework. Bestselling authors Paul G. Nestor and Russell K. Schutt present a clear and comprehensive introduction to the logic and techniques of research methods in psychology by employing a unique combination of two distinct yet complementary pedagogical techniques. First, chapters designed for experiential, hands-on studies put the student in the roles of researcher, participant, and consumer to bring concepts to life. Second, the findings of cognitive science guide the text in a way that is most conducive to learning. This novel approach serves as an effective way to make the world of psychological research fun and rewarding for students, in addition to allowing them to gain the foundational knowledge they need to design, conduct, and present research. represented a watershed for Deere & Company insofar as it was the implement-maker's first foray into tractor production after purchasing the Waterloo Gasoline Traction Engine Company. Ideal for those seeking authentic restorations, this marvelous color guide examines all of Deere's post-merger "Letter Series" tractors through the 1954 Model R. Each chapter features

exhaustive data, color photography depicting handsomely restored tractors in evocative settings and up-close detail shots. Covers industrial tractors and crawlers, as well as agricultural models.
