Here's how to start your personal service business. Develop an icon, logo, and motto for your coaching clients. As a job or career coach, an executive coach, or a life coach, you will be presenting and classifying your client's competencies, writing resumes, cover letters, and creating a wide variety of business correspondence including sales letters, news releases, and direct mail copy. You will be planning events for your clients and their prospective employers. You'll need to really work a room to find clients as well as niches or jobs for clients when networking at professional associations and trade shows. Most frequently, you'll be asked to write, evaluate, and repackage resumes, cover letters, and other summaries of qualifications of your clients. A resume is a summary of qualifications. A career coach helps clients find success by taking step-by-step detailed, concrete strategies that solve specific problems, get results, and reach a defined goal. A resume writing business online

can be combined with a career coaching enterprise. The steps are outlined here for you to follow in chronological order to open and operate a resume-writing service business and also a career coaching enterprise, online from your home, mobile location, or office. You can telecommute online and still help people find direction by offering information, training, or consulting services. Here's how to open an online business at home presenting and packaging your clients' competencies. Make your living writing resumes, business letters, and being a job coach. Help clients obtain appoints for interviews that may eventually lead to finding work. Write and repackage resumes and all types of business correspondence-from cover letters and follow-ups to direct mail or trade show sales letters.

Whether you are a coach, a business leader, a civic activist, a teacher, a counselor, or a parent, this book will offer you a powerful, highly effective way to connect to the people you care about and move them forward

toward their best selves. In sports, coaches have developed ways of connecting with their players quickly in the "heat of the battle," inspiring them to perform to their fullest potential and "leave it all on the field." Interestingly, although these techniques have not been codified, great coaches have independently developed remarkably similar models. This book aligns these techniques and distills their essence into a fundamental skill set that anyone can use to connect with, support, and inspire his or her colleagues, teammates, friends, and family members. At its foundation, great coaching is based on a solid set of techniques that can be applied to all areas of life. Essentially, those skills boil down to forging authentic connections, providing genuine support, and offering concise direction. While our everyday pressures may be less intense than those of a championship, the long-term game is even more important. Why not borrow from the best to develop the skills and abilities to win every day? Inspire and motivate people to higher

performance Improve communication in high-stakes situations Be more effective both professionally and socially Getting inside the way great coaching works gives you an unparalleled glimpse at the core of inspiration. A great coach can make the difference between a mediocre player and a world champion. What would that difference look like if you could inspire every colleague in your business? Everyone who matters to you in your personal life? You can be the source of empowerment and motivation that helps the people around you reach higher, go further, and achieve more. Coaching Up! gives you the game plan—and shows you how to run the plays.
