**Big Questions for Young Minds** Penguin

A child can read every word on a page but not understand the material. Identifying the subtle signs of a reading comprehension problem can often require paying attention to how the child responds to the text after reading. The pupils' ability to understand what they are reading is completely linked to their background knowledge. Most of the stories in this book are true events. This book titled "Best Book to Improve your English" contains events that the author believes ordinary children experienced in their daily lives. It will help develop the listening comprehension skill to answer who, what, when, where and why questions by mastering the Dolch basic sight words. To illustrate further, it contains the following components, to wit: \*Story The Basic Sight Words introduced in a particular short story are presented by the teacher with an emphasis on the sounds included with their corresponding meanings. This will challenge the ingenuity of the concerned teachers/parents to unlock the words to suit the performance levels of the pupils through the use of the said words in phrases and/or sentences on their own. In due time the pupils listen as the teacher/parent reads the story. Later, the teacher will then encourage the pupils to read the story, too. After a short story is read there are suggested guide questions. \*Question The pupil will answer the 5 WH questions and/or other questions the teachers deem necessary.
