New York Times bestselling authors and YouTube sensations Pat and Jen from the beloved Minecraft-inspired channel PopularMMOs fall into a "fun-tastic" new world in their exhilarating fourth graphic novel adventure, Into the Overworld. Pat and Jen do everything together, including saving the day! But when Jen and Evil Jen find out they have one chance to find their long-lost mother in the Overworld, Jen's going to take it—even if it means that Pat can't join her on an adventure for the first time ever. With Mr. Rainbow's help travelling to the Overworld should be the easiest part, but when something goes wrong, Jen and Evil Jen wind up trapped in the nether. Right about now would be the perfect time for Pat to help save the day, wouldn't it? But turns out, Pat himself has been imprisoned by an old villain set on the revenge. Pat's desperate to escape because he knows something that Jen doesn't . . . she's walking straight into a trap! There's an evil plot to start a zombie war brewing, and the person behind it may be the only one who could outsmart Jen and Evil Jen. Can Pat find a way to reach them in time and warn them before it's too late? Join the adventure in the fourth book of the New York Times bestselling graphic novel series from PopularMMOs, one of the most popular YouTubers in the world, with over 22 million subscribers and 14 billion views!

One dream vacation in paradise. One co-ed bachelor and bachelorette party. One week marooned with my ex. Six months ago, Casey Silvers ended her scorching romance with sexy rocker Cole Caldwell. None of her friends know the true reason behind her sudden change of heart. Despite her claim of their chemistry fizzling out, her feelings for Cole had never gone away. After receiving the invitation to her best friend's co-ed bachelor and bachelorette getaway, Casey knows she must once again face Cole. For one week, she'll be forced to party alongside the man who has come to despise her. The tropical cruise is meant to be a trip to paradise, but Casey is certain it will turn out to be a vacation from hell. But as the ship leaves port, past secrets are revealed-secrets that could change the fate of Casey's romance with Cole. With forces keeping them together, Cole and Casey soon discover that the passion between them has yet to extinguish. ***Standalone New Adult Romance-Ages 17+ Due to Strong Language and Sexual Situations***

Humble beans are the true MVPs of the kitchen. They have a long shelf life, are packed with protein, and best of all, they taste great in a wide variety of applications. This collection of 20 foolproof recipes gives beans their due, putting them center stage in recipes such as Ultracreamy Hummus (you've never had homemade hummus this velvety-smooth) and White Bean and Tuna Salad (two pantry-friendly ingredients come together for a dish that's greater than the sum of its parts). We share the secrets to making light and crispy Falafel as well as irresistible soups and sides. Whether you're looking for breakfast inspiration (our recipe for Scrambled Eggs with Pinto Beans and Cotija Cheese delivers tender eggs with a mildly spicy kick), internationally inspired mains such as Palak Dal (Spinach Dal with Cumin and Mustard Seeds) and Tuscan Shrimp and Beans, or hearty vegetarian dishes such as Black Bean Burgers and Meatless "Meat" Sauce with Chickpeas and Mushrooms, this collection gives you 20 great reasons to put beans on the menu.

Source water, herein defined as stream water collected at a water-system intake prior to water treatment, was sampled at nine community water systems, ranging in size from a system serving about 3,000 people to one that serves about 2 million people. As many as 17 source-water samples were collected at each site over about a 12-month period between 2002 and 2004 for analysis of

258 anthropogenic organic compounds. Most of these compounds are unregulated in drinking water, and the compounds analyzed include pesticides and selected pesticide degradates, gasoline hydrocarbons, personal-care and domestic-use compounds, and solvents. About one-half (134) of the compounds were detected at least once in source-water samples.

WARNING! Appearances can be deceptive...This book is NOT filled with ancient magic, mystical clairvoyants and the marvels of time travel. This is NOT a book detailing the latest top secret investigations of the Terces Society. You will NOT find stolen treasure, masked bandits and bloodthirsty knights between the pages of this book. But before you go, just remember one thing... This Isn't What It Looks Like. The utterly gripping fourth fantastic book in the "Secret" series in which Cass's mind has been transported back to medieval England after she dared to taste the Midnight Sun's deadly chocolate. She must seek out her ancient ancestor and founder of the Terces Society, the jester, and help him escape the evil clutches of Lord Pharaoh, founder of the Midnight Sun. To Cass's horror, when she wakes from her coma she has forgotten everything. But a school trip to a medieval fair stirs her memories and she is confronted with a menacing blast from her time-travelling past... "The crazy, upside-down, inside-out, mysterious, madcap and fun, fun, fun Pseudonymous Bosch is back with another extraordinary, out-of-this-world chapter in his seriously addictive children's 'Secret Series'. Bursting out all over with comic characters and intriguing adventures, this is... top-class entertainment for kids aged 10 and over, combining comical capers with old-fashioned mystery, sparkling adventure and lashings of Bosch's zany humour." - Lancashire Evening Post

The war in Vietnam was a bitter and unpopular conflict for the American soldiers and people back home. It was also a war where the media played a big role. Both French colonial rule and the American intervention in Vietnam failed, but why? Find out inside! Discover a timeline telling the story of the conflict and explore the battles, technology and tactics of combat. Imagine you're in the humid jungles of Vietnam, the Vietcong ready to ambush your squad any minute and booby traps lay hidden across the ground and you're only a teenager. That was the experience for many Americans in the sixties.

This book is the kick in the pants the hobby of metal detecting desperately needs today. It doesn't waste time teaching you about your detector. That's not its job. It's far beyond that. It's a plain written, straightforward, guide to rewarding metal detecting I wish existed when I first began detecting years ago! It's the perfect gift, not only for the new metal detectorist, but also the experienced metal detector who has grown bored and frustrated with the hobby. This work will drill down on where and HOW you should spend your time metal detecting today. Truth be told, metal detecting in 2021 is so much different than that of even ten years ago. The "battlefields" of today are barren. The parks and schoolyards are well and truly hunted out. And I am one of the rare few who dares to tell you this. Hunt these places today and you are wasting your time. There, I said it. Yet our hobby mopes along as if we are living back in the 50's, with loads of silver coins and jewelry, there for the taking. Sorry, but the Leave it to Beaver world that existed then ain't the hard scrabble world of today. Old school methods and approaches are outdated and don't give you any leg up, much less any useable knowledge, to undertake metal detecting in an exciting and profitable way today. You can, however, be an early pioneer and open your eyes to a novel way of metal detecting, one which can both help you start the hobby right, or reinvigorate a hobby which has become downright boring. Tired of digging clad coins, chewed up pennies, and cheap costume jewelry? So was I. Out of mad frustration one day, I tried something which blew me away and gave me instant rewards. Actually, the results of the first hunt plain stunned me! I have pursued this method of metal detecting now for a few years, refined it, and finally decided to share it with others. It is a truly a new frontier. It offers rewards enough to make me excited every time I go out.. I couldn't say that five years ago! What is this? Street metal detecting. This guide will tell you about my experiences and show you, with pictures, some of the incredible items I have recovered. More than this it will instill in your mind the foundations of why my approach to detecting today is so amazing. It also explains how you should do street detecting, step by step. This includes where to detect, the proper method, and example after example, all drawn from my experiences, impressing on you why this is the single best way to metal detect today. By the end, you will know what I tell you is grounded in reality and a philosophy. As a result you will adopt it and change your metal detecting forever. If I could drag you with me on one of my hunts, I doubt you would ever go back to a park or schoolyard. Yes, I feel that strongly about what's contained in this manual. Yes, you will read about some of the risks, but in this book I teach you how to mitigate them, and even use them to your advantage. Put another way, this is no pie in the sky read which promises much, and produces little. I am not a sales rep for detector manufacturers telling you to buy the latest most expensive detector if you want to succeed. In my approach, even the cheapest metal detector made will, when following my guidelines and suggestions, yield amazing finds. This hobby needs a "do over" and I think this book at least kick starts the process. Again, to me, if this guidebook was available to me as a raw beginner, I would have been eternally grateful. As for specifics, you will learn the right way to street detect as well as the perils of doing it wrong. I pull no punches here, but deal in plain logic and facts. It is a different world street detecting and there are some risks. But with any worthwhile undertaking, increased risk is usually commensurate with greater rewards. This is 2021, folks. The world has changed but metal detecting has neither recognized, nor has it adapted to, the realities of the challenges facing the hobby today.

This study illustrates why the language of the Qur'an is miraculous, unique, and evidence of divine authority. The author compares the language of the Qur'an with the language of pre-Islamic poetry, the Prophet's words (hadith), and the language of the Arabs both past and present, to demonstrate that although the Qur'an was revealed in Arabic it was at the same time an Arabic which was entirely new. Original and early Muslim audiences viewed this as miraculous and responded to the Qur'an's words, sounds, rhythms, etc. in a manner consistent with a deeper appreciation of its beauty and majesty which modern ears, trained by familiarity, and despite being surrounded by all manner of dictionaries and studies, are at a loss to capture. The author attempts to remove this veil and present the Qur'an to readers as if hearing it for the first time, to bring to life some of this wonder. In doing so he guides readers to appreciate the beauty of the Qur'an, to become more immersed in it, and to have a clearer understanding of its structure and flow. Devoting special attention to Surah Al Muddaththir, to underpin his analysis, Saeh thus brings the Revelation to life, to demonstrate that each surah has distinct features and characteristics that make it stand out uniquely within the design and sweep of the whole.
