SIMMONS CHRIS

Making Gay Okay Crown
 Twenty years after the signing of the Paris Accords, the constitutional ambiguities of American involvement in the Vietnam War remain unresolved. John Hart Ely examines the overall constitutionality of America's role in Vietnam; and shows that Congress authorized each new phase of American involvement without committing itself to the stated aims of intervention.

 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

 The five-volume Oxford History of Protestant Dissenting Traditions series is governed by a motif of migration ('out-of-England'). It first traces organized church traditions that arose in England as Dissenters distanced themselves from a state church defined by diocesan episcopacy, the Book of Common Prayer, the Thirty-Nine Articles, and royal supremacy, but then follows those traditions as they spread beyond England- and also traces newer traditions that emerged downstream in other parts of the world from earlier forms of Dissent. Secondly, it does the same for the doctrines, church practices, stances toward state and society, attitudes toward Scripture, and characteristic patterns of organization that also originated in earlier English Dissent, but that have often defined a trajectory of influence

independent ecclesiastical organizations. Volume IV examines the globalization of dissenting traditions in the twentieth century. During this period, Protestant Dissent achieved not only its widest geographical reach but also the greatest genealogical distance from its point of origin. Covering Africa, Asia, the Middle East, America, Europe, Latin America, and the Pacific, this collection provides detailed examination of Protestant Dissent as a globalizing movement. Contributors probe the radical shifts and complex reconstruction that took place as dissenting traditions encountered diverse cultures and took root in a multitude of contexts, many of which were experiencing major historical change at the same time. This authoritative overview unambiguously reveals that 'Dissent' was transformed as it travelled.

BUSINESSMEN: A LEGACY** Oxfam

An aging judge about to step down.

Aggressive prosecutors friendly with the judge. A disgraced president. A nation that had already made up its mind. The Watergate trials were a legal mess—and now, with the discovery of new documents that reveal shocking misconduct by prosecutors and judges alike, former Nixon staffer Geoff Shepard has a convincing case that the wrongdoing of these history-making trials was actually a bigger scandal than the Watergate scandal itself.

General Orders in Bankruptcy

Understanding Nonprofit Law and Finance Many of the photos were removed due to copyright restrictions. Welcome to the first annual release of the Federal Fumbles report! Our national debt is careening toward \$19 trillion (yes, that is a 19 followed by 12 zeros), and federal regulations are expanding at a record pace. Meanwhile families struggle to get home loans, and small businesses struggle to make ends meet. States are constantly handed unfunded mandates and executive fiats that they are forced to implement with minimal direction and no way to pay for them. I present this report as a demonstration of ways we can cut back on wasteful federal spending and burdensome regulations to help families, small businesses, and our economy begin to get out from under the weight of federal stagnation. Cited here are not only prime examples of wasteful spending, but also federal departments or agencies that regulate outside the scope of the federal government's constitutional role. I firmly believe my staff and I have the obligation to solve the troubles of our nation, not just complain, which is why for every problem identified, you will also find a

recommended solution. There is a way to eliminate wasteful, ineffective, or duplicative program spending; develop oversight methods to prevent future waste; and find ways to get us back on track.

Understanding Nonprofit Law and Finance Princeton University Press

Americans were shocked and outraged to see chaos unfold at the Capitol on January 6, 2021. The melee shut down plans by some Republican lawmakers to object to Congress's official certification of the 2020 presidential election results. Democrats, the news media, and many leading Republicans immediately blamed the roughly four-hour disturbance on President Trump. The president "incited an insurrection," the American public was told. It prompted a second impeachment trial of Donald Trump after he left office. But one year later, the original narrative of what happened that day has crumbled while hundreds of Americans have been swept up in an unprecedented investigation led by Joe Biden's Justice Department to punish them for their involvement in the January 6th protest. The public has been misled—and flat-out lied to—about a number of aspects related to that day. This book exposes them all.

A Question Of Intent HarperCollins

Recalling pivotal moments from her dynamic career on the front lines of American diplomacy and foreign policy, Susan E. Rice—National Security Advisor to President Barack Obama and US Ambassador to the United Nations—reveals her surprising story with unflinching candor in this New York Times bestseller. Mother, wife, scholar, diplomat, and fierce champion of American interests and values, Susan Rice powerfully connects the personal and the professional. Taught early, with tough love, how to compete and excel as an African American woman in settings where people of color are few, Susan now shares the wisdom she learned along the way. Laying bare the family struggles that shaped her early life in Washington, DC, she also examines the ancestral legacies that influenced her. Rice's elders—immigrants on one side and descendants of slaves on the other—had high expectations that each generation would rise. And rise they did, but not without paying it forward—in uniform and in the pulpit, as educators, community leaders, and public servants. Susan too rose rapidly. She served throughout the Clinton administration, becoming one of the nation's youngest assistant secretaries of state and, later, one of President Obama's most trusted advisors. Rice

provides an insider's account of some of the most complex issues confronting the United States over three decades, ranging from "Black Hawk Down" in Somalia to the genocide in Rwanda and the East Africa embassy bombings in the late 1990s, and from conflicts in Libya and Syria to the Ebola epidemic, a secret channel to Iran, and the opening to Cuba during the Obama years. With unmatched insight and characteristic bluntness, she reveals previously untold stories behind recent national security challenges, including confrontations with Russia and China, the war against ISIS, the struggle to contain the fallout from Edward Snowden's NSA leaks, the U.S. response to Russian interference in the 2016 election, and the surreal transition to the Trump administration. Although you might think you know Susan Rice—whose name became synonymous with Benghazi following her Sunday news show appearances after the deadly 2012 terrorist attacks in Libya—now, through these pages, you truly will know her for the first time. Often mischaracterized by both political opponents and champions, Rice emerges as neither a villain nor a victim, but a strong, resilient, compassionate leader. Intimate, sometimes humorous, but always candid, *Tough Love* makes an urgent appeal to the American public to bridge our dangerous domestic divides in order to preserve our democracy and sustain our global leadership.

Wayne Law Review Public Affairs

Every ten years, the Texas legislature redistricts itself and the state's congressional districts in an attempt to ensure equality in representation. With a richly textured cultural fabric, Texas often experiences redistricting battles that are heated enough to gain national attention. Collecting a variety of voices, including legislators themselves, in addition to lawyers, community organizers, political historians, and political scientists, *Rotten Boroughs, Political Thickets, and Legislative Donnybrooks* delivers a multidimensional picture of how redistricting works in Texas today, and how the process evolved. In addition to editor Gary Keith's historical narrative, which emphasizes the aftermath of the Warren Court's redistricting decisions, longtime litigators David Richards and J. D. Pauerstein describe the contentious lines drawn from the 1970s into the 2000s. Former state legislator and congressman Craig Washington provides an insider's view, while redistricting attorney and grassroots organizer Jose Garza describes the repercussions for Mexican Americans

in Texas. Balancing these essays with a quantitative perspective, political scientists Seth McKee and Mark McKenzie analyze the voting data for the 2000 decade to describe the outcomes of redistricting. The result is a timely tour that provides up-to-date context, particularly on the role of the Voting Rights Act in the twenty-first century. From local community engagement to the halls of the Capitol, this is the definitive portrait of redistricting and its repercussions for all Texans.

The Corruption Chronicles PublicAffairs Public diplomacy has become one of the central instruments of foreign policy and national security; this crucial Research Agenda provides a new outline for its investigation. Aiding the comprehension of the broad boundaries of the field, it proposes a clear starting point for contemporary research into important areas of public diplomacy.

Muslim Mafia Lawfare Press

For more than 40 years, the Historic Documents series has made primary source research easy by presenting excerpts from documents on the important events of each year for the United States and the World. Each volume includes 60 to 70 events with well over 100 documents from the previous year, from official reports and surveys to speeches from leaders and opinion makers, to court cases, legislation, testimony, and much more. Historic Documents is renowned for the well-written and informative background, history, and context it provides for each document. Each volume begins with an insightful essay that sets the year's events in context, and each document or group of documents is preceded by a comprehensive introduction that provides background information on the event. Full-source citations are provided. Readers have easy access to material through a detailed, thematic table of contents, and each event includes references to related coverage and documents from the last ten editions of

the series.

The Real Watergate Scandal Simon and Schuster

Discloses secrets and corruption the watchdog group has discovered in the Obama administration through various legal battles, sharing insights into activities related to terrorism, illegal immigration, and the health-care initiative. University of Texas Press

The official report from the House Intelligence Committee on Donald Trump's secret pressure campaign against Ukraine, featuring an exclusive introduction by Pulitzer Prize-winning author and biographer Jon Meacham For only the fourth time in American history, the House of Representatives has conducted an impeachment inquiry into a sitting United States president. This landmark document details the findings of the House Intelligence Committee's historic investigation of whether President Donald J. Trump committed impeachable offenses when he sought to have Ukraine announce investigations of former vice president Joe Biden and his son Hunter. Penetrating a dense web of connected activity by the president, his ambassador Gordon Sondland, his personal attorney Rudolph Giuliani, and many others, these pages offer a damning, blow-by-blow account of the president's attempts to "use the powers of his office to solicit foreign interference on his behalf in the 2020 election" and his subsequent attempts to obstruct the House investigation into his actions. Published here with an introduction offering critical context from bestselling presidential historian Jon Meacham, The Impeachment Report is necessary reading for every American concerned about the fate of our democracy.

The Third Branch Oxford University Press An award-winning "Washington Post" journalist takes readers on an unsettling ride behind the scenes of the emerging surveillance society where private companies and the government watch every move.

One Damn Thing After Another

Ignatius Press

When Jefferson Davis became president of the Confederacy, his wife, Varina Howell Davis, reluctantly became the First Lady. For this highly intelligent, acutely observant woman, loyalty did not come easily: she spent long years struggling to reconcile her societal duties to her personal beliefs. Raised in Mississippi but educated in Philadelphia, and a long-time resident of Washington, D.C., Mrs. Davis never felt at ease in Richmond. During the war she nursed Union prisoners and

secretly corresponded with friends in the North. Though she publicly supported the South, her term as First Lady was plagued by rumors of her disaffection. After the war, Varina Davis endured financial woes and the loss of several children, but following her husband's death in 1889, she moved to New York and began a career in journalism. Here she advocated reconciliation between the North and South and became friends with Julia Grant, the widow of Ulysses S. Grant. She shocked many by declaring in a newspaper that it was God's will that the North won the war. A century after Varina Davis's death in 1906, Joan E. Cashin has written a masterly work, the first definitive biography of this truly modern, but deeply conflicted, woman. Pro-slavery but also pro-Union, Varina Davis was inhibited by her role as Confederate First Lady and unable to reveal her true convictions. In this pathbreaking book, Cashin offers a splendid portrait of a fascinating woman who struggled with the constraints of her time and place.

January 6 Bloomsbury Publishing USA

In *After Trump: Reconstructing the Presidency*, Bob Bauer and Jack Goldsmith provide a comprehensive roadmap for reform of the presidency in the post-Trump era. In fourteen chapters they offer more than fifty concrete proposals concerning presidential conflicts of interest, foreign influence on elections, pardon power abuse, assaults on the press, law enforcement independence, Special Counsel procedures, FBI investigations of presidents and presidential campaigns, the role of the White House Counsel, war powers, control of nuclear weapons, executive branch vacancies, domestic emergency powers, how one administration should examine possible crimes by the president of a prior administration, and more. Each set of reform proposals is preceded by rich descriptions of relevant presidential history, and relevant background law and norms, that place the proposed reforms in context. All of the proposals are prefaced by a chapter that explains how Trump--and, in some cases, his predecessors--conducted the presidency in ways that justify these reforms. After Trump will thus be essential reading for the coming debate on how to reconstruct the laws and norms that constitute and govern the world's most powerful office. It's hard to imagine two better co-authors for the task. Both served in senior executive branch positions in the administrations of Barack Obama and George W. Bush, respectively--and have written widely on the presidency. Bob Bauer served from

2010-2011 as White House Counsel to President Barack Obama, who in 2013 named Bauer to be Co-Chair of the Presidential Commission on Election Administration. He is a Professor of Practice and Distinguished Scholar in Residence at New York University School

of Law, as well as the co-director of its Legislative and Regulatory Process Clinic. Jack Goldsmith served as Assistant Attorney General, Office of Legal Counsel from 2003-2004, and Special Counsel to the Department of Defense from

2002-2003. He is the Learned Hand Professor at Harvard Law School, co-founder of Lawfare, and a Senior Fellow at the Hoover Institution. Together, in this book, they set the terms for the national discussion to come about the presidency, its powers, and its limits.
