The Ascension Machine

No Starch Press Back cover: "Deacon is a prototype android soldier so advanced he is referred to as an 'artificial person'. On

his first extended mission, Deacon was ordered by his corporate masters to eliminate a team of scientists who knew too much--and he has failed spectacularly. Not only did he let one of his targets live, he attacked the team sent to retrieve him. Now the Corporation wants answers and they bring in the brilliant robopsychologist Dr. Clarice Maven to get them, giving her the power to make sure

Deacon never fails the Corporation ever again. As the doctor cuts through his defenses, Deacon is forced to reveal the shocking events that took place on Da Vinci Four. He disobeyed orders. He murdered corporate workers. And yet he insists that his actions are those of a good soldier! Somehow Deacon's relationship with the sole survivor, 19-year-old outcast Jeff Linnell, is

behind it all and Dr. Maven will stop at nothing to learn the whole truth. Deacon is clearly protecting something, but what chance does he have in fighting an adversary who can control his every move? With scenes of tense action and surprisingly tender romance, *Artifice* is a thoughtful and provocative science-fiction story that both women and men will enjoy." Ms. Marvel

Chronicle Books An erotic graphic novel that pushes all the right buttons, *Cheat(er) Code* is a hilarious, sexy, and surprisingly tender story about navigating heartbreak and rediscovering your own confidence. Kennedy and his boyfriend Seth have been together six years, and honestly, it's pretty comfortable. That is, until the couple gets into a huge,

potentially relationship-changing fight. Kennedy turns to his trusty video games to distract himself, but when a random power surge hits, he's transported inside his video game library. Dazed and incredulous about his digital predicament, Ken finds himself seduced by a silver daddy, rutting with a couple of barbarians from an epic fantasy, and sorting

through a lot of confusing feelings about his favorite anthropomorphic cheetah character. Kennedy will need to confront his biggest fears to get back to reality before the game glitches him out of existence, but sometimes, the unexpected (and unexpectedly sexy) is just what you need to hit the reset button. "Hilarious and heartwarming, it's an absolute must for your favorite

gaymer and an incredible read for anyone who's ever console-d themselves through a heartbreak."

Avengers Epic Collection Hay House, Inc The Avengers meets Louis Sachar in this hilarious and action-packed tween novel by John David Anderson, which Publishers Weekly called a "superhero story that any comics fan will enjoy" in a starred review. Andrew Bean might be a part of H.E.R.O., a secret organization for the training of superhero sidekicks, but that doesn't mean that life

is all leaping tall buildings in single bounds. First, there's Drew's power: Possessed of super senses—his hearing, sight, taste, touch, and smell are the most powerful on the planet—he's literally the most sensitive kid in school. Then there's his superhero mentor, a former legend who now spends more time straddling barstools than fighting crime. Add in trying to keep his sidekick life a

secret from everyone, including his parents, and the truth is clear: Middle school is a drag even with superpowers. But this is all before a supervillain long thought dead returns to the city of Justicia, superheroes begin disappearing at an alarming rate, and Drew's two identities threaten to crash head-on into each other. Drew has always found it pretty easy to separate right

from wrong, good from evil. It's what a superhero does. But what happens when that line starts to disappear?

Essential Fantastic Four - Volume 5

Marvel Comics Group

For decades, Marvel Comics' superhero group the Avengers have captured the imagination of millions, whether in comics, multi-billion dollar grossing films or video games. Similar to the chronology of

the Marvel Cinematic Universe, the Avengers video games first started with titles driven by single characters, like Iron Man, the Hulk, Thor and Captain America. Over time, the games grew to include more and more heroes, culminating in playing experiences that featured the Avengers assembled. This is the first-ever book assessing the video games starring "Earth's Mightiest

Heroes." Featured games span consoles and platforms, from popular PlayStation and Xbox titles to an arcade game in danger of being lost to time. All video games are covered in depth, with each entry including game background and a detailed review from the author. Some game entries also include behind-the-scenes knowledge from the developers themselves,

providing exclusive details on the Marvel video game universe.
