"A passionate, incisive critique of the many ways in which women and girls of color are systematically erased or marginalized in discussions of police violence." —Michelle Alexander,

author of *The New Jim Crow Invisible No More* is a timely examination of how Black women, Indigenous women, and women of color experience racial profiling, police brutality, and immigration enforcement. By placing the individual stories of Sandra Bland, Rekia Boyd, Dajerria Becton, Monica Jones, and Mya Hall in the broader context of the twin epidemics of police violence and mass incarceration, Andrea Ritchie documents the evolution of movements centered around women's experiences of policing. Featuring a powerful forward by activist Angela Davis, *Invisible No More* is an essential exposé on police violence against WOC that demands a radical rethinking of our visions of safety—and the means we devote to achieving it.

Winner of the 2006 National Council on Public History Book Award for the best work published about or growing out of public history, Road, River, and Ol' Boy Politics has quickly established its reputation as the definitive source on the subject of the growth of supersuburbs. In 1946 Williamson County was profoundly rural, centered on an agricultural economy, ethnically diverse, and Democratic. Half a century later, it was one of the five fastest-growing counties in the United States, staunchly Republican, and culturally homogeneous. Linda Scarbrough presents the story of how this came about through the machinations of a handful of local political and economic "bosses" who brought Williamson County two federal public works projects: Interstate Highway 35 and a dam on the San Gabriel River.

A surprising history of explorers, pirates, priests, artists, and more: "The best overall study of the French experience in Texas ever assembled." —Jack Jackson, editor of *Texas by Terán* The flag of

France is one of the six flags that have flown over Texas, but all that many people know about the French presence in Texas is the ill-fated explorer Cavalier de La Salle, fabled pirate Jean Lafitte, or Cajun music and food. Yet the French have made lasting contributions to Texas history and culture that deserve to be widely known and appreciated. In this book, François Lagarde and thirteen other experts present original articles that explore the French presence and influence on Texas history, arts, education, religion, and business from the arrival of La Salle in 1685 to the dawn of the twenty-first century. Each article covers an important figure or event in the France-Texas story. The historical articles thoroughly investigate early French colonists and explorers; the French pirates and privateers; the Bonapartists of Champ-d'Asile; the French at the Alamo; Dubois de Saligny and French recognition of the Republic of Texas; the nineteenth-century utopists of Icaria and Reunion; and the French Catholic missions. Other articles deal with French immigration in Texas, including the founding of Castroville; Cajuns in Texas; and the French economic presence in Texas today—the first such study ever published. The remaining articles look at painters Théodore and Marie Gentilz; sculptor Raoul Josset; French architecture in Texas; French travelers from Théodore Pavie to Simone de Beauvoir who have written on Texas; and the French heritage in Texas education. Includes more than seventy photos and illustrations

This 14th edition covers the 10-year period 1995 to 2004 with a primary focus on 2004. For the first time, only native National Fire Incident Reporting System (NFIRS) 5.0 data are used for NFIRS-based analyses. The report addresses the overall national fire problem. Detailed analyses of the residential and non-residential fire problem, firefighter casualties, and other subsets of the national fire problem are not included. These topic-specific analyses will be addressed as separate, stand-alone publications.
