Ask This! the book with crazy questions that won't be half as funny as the answers you'll hear. by pulling out this little black box in your head of over one thousand questions that you read, you'll have your guests laughing out loud and at each other in no time. But you can get deep too. Totally off-the-wall questions will make you laugh and think at the same time. Is

kissing sex? How fast is Godspeed? Are yawns contagious? Do you think someone could have faked their own death in 9/11? Some You've heard before, and some may be just worded differently. Is it kitty-corner or kaddy-corner? If you never vote then how can you complain? Did we really land on the moon? What time were you born? So read this, and for about a penny per question you'll have hours of entertainment for you and your friends. the questions are easy to remember, so they're great for starting conversations on a date or at a stressful meeting. Ask This!

the book with crazy questions that won't be half as funny as the answers you'll get.

These libraries offer students and their parents 24-hour access and are invaluable for providing up-to-date information in a way traditional materials cannot. This guide outlines the steps library media specialists can take to create a cyber library, provide

content and policies for use, and maintain it for maximum efficiency. Craver justifies the need for cyber libraries in the 21st century, and how they can help librarians to meet the standards in *Information Power* (1998). She explains the different types of cyber libraries available, along with their advantages and disadvantages. She discusses how to construct them using portals or by acquiring fee-based cyber libraries, and what policies should be in place to protect both the school and its students. Also included are instructions for establishing remote access to subscription databases, creating cyber reading rooms, and providing instructional services to student users. Once a cyber library is created, it must be maintained and evaluated to keep it useful and current, and this book provides guidelines to do so. Finally, there is a chapter on promoting the cyber library, so the school community is aware of its features and participates in its growth process. No school library should be without this volume!

From the creator of the popular website *Ask a Manager* and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist

have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party

*Praise for Ask a Manager*  
"A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review)

"The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives.

Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green’s Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together* *How to Think Fast on Your Feet (Without Putting Them in Your Mouth)* Abrams Susan, a young White House staffer, becomes suspicious when one of her colleagues disappears. The colleague's sister informs Susan that her brother suspects the administration is raising money on the black market in Vietnam to help finance the president's 1968 re-election. The colleague's sister also informs Susan that four Navy SEALs were killed in Vietnam when they intercepted

the president's campaign money. A car is reported burned, with an unidentified body inside, the day Susan's colleague disappears. Susan suspects her friend was murdered. When a man Susan believes to be involved with her colleague's disappearance approaches her, she escapes. Susan travels to Vietnam, with a Navy SEAL she knew from home, and uncovers evidence exposing the black market. Susan gets caught in the Tet offensive of 1968 and kills a Viet Cong. At the time her colleague disappeared, Susan was dating a member of the administration. Part of the evidence she uncovers in Vietnam proves her boyfriend is involved in the black market. Susan and the SEAL travel back to the United States and turn the evidence over to a former boyfriend of Susan's who is an FBI agent. The result of uncovering the black market has a devastating effect on the 1968 presidential election.

Life is a series of negotiations—from who will make the morning coffee to the landing of a multi-million-dollar contract. Each successful negotiation is a victory, but how is success measured? And after a negotiation is completed, what are the implications for the future? In *The Savvy Negotiator*, William Morrison addresses these questions in the context of two simple, but profound, ideas: (1) We negotiate to set the ground rules for a future relationship; (2) We negotiate to satisfy our needs. In other words, a negotiation is not simply a transaction, but an opportunity to develop a dynamic relationship; whatever the outcome, there will be future effects. If a negotiation is not designed to provide some benefit to the negotiator, there is no reason to engage. Morrison develops these themes against the backdrop of a general evolution in negotiation theory and practice—from an antagonistic WIN/LOSE approach to the more collaborative WIN/WIN approach. Through dozens of engaging examples, from business and other areas (such as home and car buying), he demonstrates the eight key concepts that underlie any

negotiation, and offers many practical strategies for conducting successful and satisfying negotiations in virtually any situation. Along the way, he highlights such timely issues as the role of ethics in negotiation and the impact of the Internet on communication dynamics.

Frank J. O'Connell is the original millennial, and in his book *Jump First, Think Fast* he shares how he blazed a trail of innovation for some of the biggest brands in American business. Frank O'Connell grew up as a farm boy in a small town of 2,000 in Ovid, New York, where he drove tractors, sold eggs, and won prizes at 4H Fairs. He learned the value of hard work from his mother, who told him that he could surpass everyone by outworking them. Because of the values instilled in him, Frank went on to live an outsized life as a corporate chieftain. For more than fifty years, Frank has helmed such companies as Reebok, Fox Video Games, HBO Video, SkyBox, Gibson Greetings, and Indian Motorcycles. Frank has led major consumer product revolutions, including innovative food products, video games,

video tapes, the Reebok Pump, collectibles, toys, greeting cards, action figures, and the iconic Indian Motorcycle. A student of hard work and business who learned his craft on the front lines of sales and marketing, Frank knew that the right thing to do was to *Jump First* and then *Think Fast*. In his book, he shares his personal stories, business strategies, his passion for mentoring, and proven methods for management. *Jump First, Think Fast* details Frank's many business successes – as well as some failures – in an honest and forthright way. *Jump First, Think Fast* is for those who want to think differently about business and learn how to find their place, trust their instincts, and enjoy the ride from a successful CEO's stories, lessons, and life moments.
