For all of Robert Louis Stevenson's
achievements in fiction, many of his
contemporaries thought of him primarily
as an essayist. His essays, known for their
intellectual substance, emotional force,
and stylistic vitality, were widely
considered the best of their time. Despite

the importance of Stevenson's nonfiction,
his personal essays—70 in total—have
never been printed together in a single
volume until now. Stevenson's essays
explore a range of topics from illness and
evolution to marriage and dreams, and
from literal and literary travel to the
behavior of children and the character of
dogs. Grappling with many of the cultural,
ethical, and existential questions of his
age, he resists dogma to draw fresh
conclusions. Stevenson examines beggars
and university students, immigrants and
engineers, invalids and nurses, outlining

his own colorful life story and unique approach to "the art of living" along the way. Whereas the most common and widely available versions of these texts were modified after Stevenson's death, this volume gathers his personal essays, many of which have never appeared in any modern edition, in their authorized versions. These essays are still considered classic models of the form, and in this volume, the Editor presents them alongside an introduction and notes to assist in a rereading and reappreciation that is long overdue.

The Pride of the Peacock Litres

Wychford is a charming and quiet West Country village. Or rather, it was - until Mrs Tompkins was found with her throat slashed. Now, when evening shadows fall, the picturesque little lanes seem filled with menace and golden Cotswold stones are stained with blood in the first of Paula Gosling's Luke Abbott series, *The Wychford Murders*. Detective Chief Inspector Luke Abbott is sent to find the killer. He was born and brought up in Wychford - but he hardly recognizes it.

The young girl he loved has become the local doctor. The boy who once bullied him is now a respected local Squire. And in all the small homes and cottages the people of Wychford hide - wondering who next will fall victim to the killer's bloody knife. Abbott's investigation exposes the private lives behind the postcard prettiness: secret loves and hates, perversion, envy, jealousy, greed, and - eventually - a ruthless murderer.

The Peacocks are five in family: father, mother, and three daughters. The year is 1870 or thereabouts. But though the opening chapter has the cool detachment of a 'period piece', it is not long before we are caught up in a passionate concern with the girls' love affairs and the undercurrent of conflict between the two generations. By his self-imposed discipline of Victorianism Mr Bullett has succeeded in creating a story more tense and exciting than many a self-styled 'thriller'- the intimate story of three marriageable young ladies, each of whom, though they are united in family affection, is a person apart, with her own special quality and character. They live in a small comfortable

world, with a dryly humorous father and an affectionate mother who knows all the answers. Why should they wish to escape from such sweet security? And yet ...

Campbell's latest collection reads like an extended elegy for the poet himself, for his lost loved ones, and for the changes in the wider world. In this way, it is reminiscent of Hardy. This is the work of a man wise in the ways of the world and not afraid to be flawed.

Until Flynn's neighbor in North Carolina offered him one, he had never considered whether he wanted a peacock. His family became the owners of not one but three charming yet fickle birds: Carl, Ethel, and Mr. Pickle. Here he chronicles their first year as peacock owners, from struggling to build a pen to assisting the local bird doctor in surgery to triumphantly watching a peahen lay her first egg. He also examines the history of peacocks, from their appearance in the Garden of Eden. And Flynn travels across the globe to learn more about the birds firsthand. His book

offers surprising lessons about love, grief, fatherhood, and family. -- adapted from jacket.

I was hanging out with Elizabeth when I saw the boy again. Not just a boy, but that boy, the one you sort-of notice, but only to think, hey, wasn't he here yesterday? He glided by Elizabeth's hedge on his bike once too often, giving that sliding sideways glance he hoped (I expect) looked casual, disinterested and, oh, there's that chick again, hanging out with her big sister...or is it her auntie? Too old to be a friend. Elizabeth is my great-great-great-great granny, for your information, Bike Boy, I thought-spoke to him on the fourth bypass of the week. He toed his pedal down and skimmed away before getting into some serious calf-work as he headed up the hill towards Caroline Court. Cat Mahal has an ordinary life in the suburbs. Unlucky in love, Dr Alexander French, a gruff but likeable surgeon travels to Suffolk to start a new life. There, in a small country village, he meets the rich and

impulsive Jardine Savage newly arrived from Jamaica and the new owner of Ramillies, the elegant but now dilapidated ancestral home of the Raynor family.

Nearby lives Lizzie Raynor a feisty and brilliant artist who at one stroke lost her father, home and lover and is now forced to be one of Jardine's tenants. Neither she nor the neighbourhood takes kindly to Ramillies new and exotic occupants. 'This has been an unlucky house since my father died,' she said quietly to herself, 'or before that, since ... since he killed the peacock. They all said it would bring bad luck. I used to tell myself it was all the fault of the peacock; it was a kind of comfort. But now this: perhaps the house is cursed after all.' All religions believe in an afterlife existence immediately after death. All believe in the immortality of the soul. Some believe in reincarnation. Jews,

Christians, and Muslims believe that good people will go to Heaven, evil ones will go to Hell. Many devout Jews pray to their Saints in Heaven. Catholics pray to their Saints, especially to Mary -- The Queen of Heaven. Protestants pray to their loved ones in Heaven. Devout Muslims believe that their Prophet Muhammad ascended up to Heaven from Jerusalem. They regard this city as the third holiest place to Islam. As a consequence, much of the Jew/Arab conflict centers over the holiness of the City to both Jews and Muslims -- and the alleged Temple Mount true location. Fanatic Muslim terrorists believe the road to Paradise as Shahids, immediately after death, must be paved over the body parts of their indiscriminate victims. According to Iran's president, Ahmadinejad, the purpose of the revolution and nuclear Iran is to prepare for the imminent return of the Mahdi, the twelfth Imam. Hence Israel must be destroyed, the West must be subjugated, and the rest of the world must submit to the coming Mahdi's reign of peace on earth. If the belief in an afterlife - - immediately after death -- is true, then both the Bible and the Quran should fully confirm it in plain words. But what if they,

instead, contradict it? What if God, Jesus, and Muhammad are not the source of this doctrine? What if the doctrine of an afterlife immediately after death is a hoax? What if man has no immortal soul? In the pages of this book, the unbiased reader will discover the real story about the afterlife, the true destiny of humanity, the true location of the Temple Mount in Jerusalem and its link to the afterlife. *The Law Reports of British India* The Familiar A young woman uncovers her family's dark secrets in this mystery and her connection to a famously cursed gemstone in this Victorian gothic thriller from an internationally bestselling author To secure her inheritance, Jessica Clavering agrees to a marriage of convenience, but will her handsome new husband's desire for her ever surpass his obsession with a famously cursed opal?
