Science = art. They are the same thing. Both science and art are human attempts to understand and describe the world around us. The subjects and methods have different traditions, and the intended audiences are different, but I think the motivations and goals are fundamentally the same.

The STEAMy Relationship Between Art and Science

Traditionally, art and science have been treated as two separate disciplines, but when they are studied together it's clear to see the impact one has on the other. A great deal of creativity is required to make scientific breakthroughs, and art is just as often an expression of (or a product of)

scientific knowledge.
