This publication is a guide to complying with both Federal and State firearms laws. Specifically, it assists in complying with the Gun Control Act of 1968 (GCA) requirement that you may not sell or deliver a firearm to a nonlicensee whose receipt or possession of the firearm would violate State or local laws applicable at the place of sale or delivery. It also assists in making lawful over-the-counter sales of long guns to out-of-state residents.

This report is based upon the results from a survey conducted of the administrators of the State criminal history record repositories in March and June 2009. Fifty-six jurisdictions were surveyed. Responses were received from 53 jurisdictions. It presents a snapshot as of Dec. 31, 2008. In addition, the FBI was the source for some of the information relating to criminal history records, including State participation in the Interstate Identification Index (III) system (the national criminal records exchange system) and the number of III records maintained by the FBI on behalf of the States; the number of records in the protection order file; and the number of sex offender records in the FBI National Crime Information Center files. Today, a parent's right to choose a private education for his or her children is reflected in the statutes of all 50 states. State regulation of private schools, however, is not without limitations. The challenge to state legislators in regulating private schools is to draft legislation that: (1) respects the fundamental right of parents to direct the education of their children; (2) protects the states' interest in an informed citizenry but avoids interference with religious beliefs unless compelling interests are at issue; and (3) avoids comprehensive regulation of private education that would deprive parents of any choice in education. This handbook presents findings of a study, initiated by the Office of Nonpublic Education, U.S. Department of Education, that conducted a state-by-state analysis of state laws regulating private education. The study, which includes all 50 states, Puerto Rico, the Virgin Islands, and the District of Columbia, identified the following general areas of regulation advanced by state legislators: recordkeeping and reports, licensing/registration/accreditation, health and safety, curriculum, and public funding. The data show that none of the states regulates private schools in the same way. The report contains comparison charts depicting state oversight of private schools, state-mandated educational requirements, and public assistance to private schools and

private school children. (LMI)

There have been cases of physical abuse of children at youth residential treatment programs and public and private schools. However, children are also vulnerable to sexual abuse. A 2004 report estimated that millions of students are subjected to sexual misconduct by a school employee at some time between kindergarten and the twelfth grade (K-12). This report: (1) examines the circumstances surrounding cases where K-12 schools hired or retained individuals with histories of sexual misconduct and determine the factors contributing to such employment actions; and (2) provides an overview of selected federal and state laws related to the employment of convicted sex offenders in K-12 schools. The book is about abuses of the domestic violence laws. I am an attorney in Pennsylvania. I was a victim of domestic violence. As a former victim of Domestic Violence, any violence makes me sad. As a conscientious attorney, the widespread abuse of the Domestic Violence Laws makes me sick. Victims of domestic violence need help! They need more shelters and more counselors. They need a criminal justice system that will punish the abusers and put them in jail! HOWEVER, this has to be done through the criminal justice system and through due process. It has to be taken out of civil court. Men's rights have to be protected as well as the women's rights. The current system is being seriously abused and the potential for continuing abuse is astronomical! Vindictive women and unscrupulous attorneys have made a total mockery out of the current system and way too many innocent men are serving a "life sentence" because of it!

Tragically, churches have not always been safe places for children or youth or vulnerable adults. With this in mind, attorney, pastor, and author Melton outlines a process for developing policies and procedures to recognize and reduce the risk of abuse in the church. *Safe Sanctuaries* combines and expands information from two of her earlier groundbreaking books, which focused, separately, on children and teens.
