This book deals with a novel and practical advanced method for control of tandem cold metal rolling processes based on the emerging state-dependent Riccati equation technique. After a short history of tandem cold rolling, various types of cold rolling processes are described. A basic mathematical model of the process is discussed, and the diverse conventional control methods are compared. A detailed treatment of

the theoretical and practical aspects of the state-dependent algebraic Riccati equation technique is given, with specific details of the new procedure described and results of simulations performed to verify the control model and overall system performance with the new controller coupled to the process model included. These results and data derived from actual operating mills are compared showing the improvements in performance using the new method. Material is included which shows how the new technique can be extended to the control of a broad range of large-scale complex nonlinear processes.

A collector's edition of a long-lost translated cuneiform tablet collection revealing the most ancient and complete guide to Babylonian spiritual and magical protection spells, exorcisms rites, and banishing rituals--right from the heart of Mesopotamia as used by Mardukite priests, priestesses and magicians of Sumerian Anunnaki tradition. The Maqlu Ritual Tablets of Babylon... the most ancient and coveted complete magical manual concerning the Dark Arts ever known to man--newly translated and prepared by the "Mardukite Research Organization" for a special 10th Anniversary Collector's Edition. This tome celebrates a decade of intensive academic and esoteric exploration, drawn from the

underground archives of "Mardukite Chamberlains," and now accessible to the modern public for contemporary practice in an incredible new way for the first time ever. Here is an authentic cuneiform tablet collection--perhaps the very first "spellbook" of its kind on the planet--the complete account of a Mesopotamian magical tradition that forms a "grimoire" of very real and very ancient Sumerian Anunnaki magic. "The Maqlu Ritual Book" reveals materials used by magicians and priests for thousands of years to reverse the effects of evil spells and curses, banish disease and nightmares, combat in wizards' duels, and even conjure protection and blessings of the gods to benefit the entire community! The Maqlu Ritual Tablets of Babylon... no mere "folk

magic" or rural witches Book of Shadows, the Maqlu cuneiform tablet series was first in possession only of the highest orders of priest-scribes, temple-magicians, priestesses and kings of ancient Mesopotamia--the ancient "cradle of modern human civilization." Maqlu magic was so powerful that the government of the greatest ancient empires in history employed it to ensure prosperous lands, happiness among the population, and carrying the awesome abilities to dispel chaos, evil, and malignant forces in the world--things we long for, and are in great need of, even today. Perhaps this long forgotten occult secret is the key!

*The Lovings: An Intimate Portrait* documents the extraordinary love story of Mildred and Richard Loving. The Lovings presents Grey Villet's stunning photo-essay in its entirety for the first time and reveals with striking intensity and clarity the powerful bond of a couple that helped change history. Mildred, a woman of African American and Native American descent and Richard, a white man, were arrested in July 1958 for the

crime of interracial marriage, prohibited under Virginia state law. Exiled to Washington, DC, they fought to bring their case to the US Supreme Court. Knowledge of their struggle spread across the nation, and in the spring of 1965, the Life magazine photojournalist Villet spent a few weeks documenting the Lovings and their family and friends as they went about their lives in the midst of their trial. *Loving v. Virginia* was the landmark US civil rights case that, in a unanimous decision, ultimately ended the prohibition of interracial marriage in 1967.
