**Hearing**, \* Yale University Press  
A National Book Award Nominee and a Kirkus Reviews Best Nonfiction Book of the Year. Over the centuries, Florida has been many things: an unconquered realm protected by geography, a wilderness that ruined Spanish

conquistadors, “God’s waiting room,” and a place to start over. Depopulated after the extermination of its original native population, today it’s home to nineteen million. The site of vicious racial violence, including massacres, slavery, and the roll-back of Reconstruction, Florida is now one of our most diverse states, a dynamic multicultural place with an essential role in twenty-first-century America. In *Finding Florida*, T. D. Allman reclaims the remarkable history of Florida from the state’s mythologizers, apologists, and boosters. Allman traces the discovery, exploration, and settlement of Florida, its transformation from a swamp to “paradise.” Palm Beach, Key West, Miami, Tampa, and Orlando boomed, fortunes were won and lost, land was

stolen and flipped, and millions arrived. The product of a decade of research and writing, *Finding Florida* is the first modern comprehensive history of this fascinating place. “A take-no-prisoners account . . . Extremely timely and relevant.” —The New York Times Book Review “The Seminole Wars, the Civil War, various massacres, Reconstruction, a second Reconstruction, Disney World, the Marielitos, voter suppression—it’s all here, and even Carl Hiaasen couldn’t make it up.” —Booklist, starred review [Fond Du Lac County](#) University Press of America

This book utilizes multiple types of data to provide an explanation for the disparate outcomes of the 2008 elections in Florida. It chronicles changes in voter registration and voter turnout

over time and compares the electoral behavior of social groups in Florida to that in the nation as a whole.

Original Sin brings a rigorous review of the performance of the "new originalists" to the debate, applying their methodology to real cases. Marcossou focuses on the judicial decisions of Clarence Thomas, an avowed originalist who nevertheless advocates "color blind"

readings of the Constitution which are at odds with the framers' ideas concerning anti-miscegenation and other laws.

Inside the experiences of immigrants from Latin America and the Caribbean Latino Orlando portrays the experiences of first- and second-generation immigrants who have come to the Orlando metropolitan area from Puerto Rico, Cuba, Mexico, Venezuela, Colombia, and other Latin American countries. While much research on immigration focuses on urban destinations, Simone Delorme delves into a middle- and upper-class suburban context, highlighting the profound demographic and cultural transformation of an overlooked immigrant hub.

Drawing on interviews, observations, fieldwork, census data, and traditional and new media, Delorme reveals the important role of real estate developers in attracting Puerto Ricans—some of the first Spanish-speaking immigrants in the region—to Central Florida in the 1970s. She traces how language became a way of racializing and segregating Latino communities, leading to the growth of suburban ethnic enclaves. She documents not only the tensions between Latinos and non-Latinos, but also the class-based distinctions that cause dissent within the Latino population. Arguing that Latino migrants are complicating racial categorizations and challenging the deep-rooted Black-white binary that has long prevailed in the American South, Latino Orlando

breaks down stereotypes of neighborhood decline and urban poverty and illustrates the diversity of Latinos in the region. A volume in the series Southern Dissent, edited by Stanley Harrold and Randall M. Miller

A prize-winning reporter, his wife, and their two kids describe life in Disney's vision of the future. In 1997, six months after the first residents had moved into Celebration, Florida-Disney's town of the future with its distinctly retro link to a longed-for past-Doug and Cathy and their two kids closed on their new home and settled down to participate in (and observe) this new venture. Their report from the trenches will surprise both Disney haters and Disney fans. What is it like to start a new community-not a

suburb or subdivision, but a town, intended to be a self-supporting community with the best of the new technologies (including the very latest in teaching techniques) and the most cherished elements in American towns that existed before the automobile turned everything into a mall? For almost two years the family lived this experiment firsthand. Their report is vivid, funny, and painful-and it tells us as much about ourselves and our hopes and dreams as it does about the daily reality of building a community from the ground up.
