Psychology

Brown/Wallace

accompanies and

supplements Brown and Wallace's book on physiological psychology. This book discusses three key philosophical issues that provide a framework for the science of physiological psychology— mind-body problem, localization of function, and nature vs. nurture. Study and objective questions that include short answer essays, identification and definition of terms, fill-in-the-blanks, multiple choice, and matching questions are also provided to indicate the

reader's mastery of the chapters. Other topics covered include the axonal conduction, synaptic transmission, overview of the nervous system, and introduction to the senses and vision. The chemical senses, somatosensory and vestibular systems, motor system of the brain, and sexual behavior are also elaborated. This text likewise deliberates the biological rhythms and sleep and plasticity in the nervous system. This publication is valuable to students taking an

introductory course in behavioral science or biology.

Living Science Biology

10 S. Chand Publishing Quick Review Series (QRS) for BSc Nursing Semester I and II, 2nd edition is an extremely exam-oriented book. The content has been developed and arranged in a manner so the entire INC syllabus has been covered. The subject content has been divided unit wise and according to the weightage of marks in each unit. It is well-illustrated with simple

reproducible diagrams and flow charts. To aid in quick learning before examinations, memory aides and mnemonics have also been added. The book will serve the requirements of BSc Nursing Semester I and II students to prepare for their examinations. Content presented in well-classified sections Compliant to the revised INC Curriculum All question types asked in the University exams are addressed: Long essays, Short essays and Short notes Clearly describes

how to attempt a question in the exam Suitable number of tables and flow charts according to the need of the questions Reproducible diagrams in Anatomy and Physiology sections
Concise Textbook of Human Physiology - E-Book Pascal Press Living Science for Classes 9 and 10 have been prepared on the basis of the syllabus developed by the NCERT and adopted by the CBSE and many other State Education Boards. Best of both, the traditional courses and

the recent innovations in the field of basic Biology have been incorporated. The books contain a large number of worked-out examples, illustrations, illustrative questions, numerical problems, figures, tables and graphs.

Qrs for Bds I Year Oswal Publishers

Well-labelled illustrations, diagrams, tables, figures and experiments have been given to support the text, wherever necessary.

The first-of-its-kind sample paper booklet, i.e., one incorporating not only the practice papers but also the basic concepts for each chapter, is here. The practice papers in this booklet are designed per the specimen paper released by the CBSE board to give its readers an edge over the others in preparing for the CBSE examinations to be held in 2023. Some salient features of this book are as follows: 1. This sample

paper booklet begins with basic concepts about each chapter, providing a snapshot of the entire chapter. It hence facilitates the purpose of last-minute revisionary notes needed by the students. 2. To help students practice and evaluate their understanding, detailed solutions of the CBSE-released sample paper have been incorporated in this booklet and a total of 15 sample papers. Out of these 15 sample papers, five papers include detailed step-by-step

solutions, and the remaining ten papers are for practice by the students (answers for objective questions are included). 3. A blueprint based on the specimen paper released by the CBSE Board has also been included in this booklet to enable the students to gauge the unit-wise weightage and the marking scheme of the paper. 4. Effort has been made to model each practice paper based on the CBSE released sample paper hence all typology of questions to be tested

in the annual examination 2023 (both objective and descriptive type questions) have been included. 5. Special emphasis has been laid to include the new typology of questions in each paper, i.e., matching-type MCQ, reason and assertion-based, statement-based, case-based, and miscellaneous questions. 6. This book is a one-stop destination for all the subject matter required for the final revision to ace the annual social science exam. Your guide to annual exams
