The magazine that helps career moms balance their personal and professional lives.

Working Mother Directory of Corporate Counsel, 2023 Edition
Cofounder of Fast Company magazine and bestselling author of *Mavericks at Work* and *Practically Radical* shows how true business innovation can spring from the unlikeliest places. Far away from Silicon

Valley, in familiar, traditional, even unglamorous fields, ordinary people are unleashing extraordinary advances that amaze customers, energize employees, and create huge economic value. Their secret? They understand that the work of inventing the future doesn't just belong to geeks designing mobile apps and virtual-reality headsets, or to social-media entrepreneurs hoping to launch the next Facebook. Some of today's most compelling organizations are doing brilliant things in simple settings such as retail banks, office cleaning companies, department stores, small hospitals, and

auto dealerships. William C. Taylor, cofounder of Fast Company and best-selling author of *Practically Radical*, traveled thousands of miles to visit these hotbeds of simple brilliance and unearth the principles and practices behind their success. He offers fascinating case studies and powerful lessons that you can apply to do ordinary things in extraordinary ways, regardless of your industry or profession. Consider, for instance, how... ·Miami Beach's dazzling 1111 Lincoln Road reimagined the humble parking garage as a high-profile public space that hosts weddings, yoga classes, and celebrity

gatherings. ·USAA, the financial-services giant that provides soldiers and their families with insurance and banking products, inspires frontline employees to deliver legendary service by immersing them in military culture. ·Pal's Sudden Service, a fast-food chain with a cult following, serves up burgers and fries with such speed and accuracy that companies from other industries pay to learn from its astonishing discipline. ·Lincoln Electric, a manufacturer based in Euclid, Ohio, dominates its ultracompetitive markets with a fierce devotion to quality and productivity. But the key to its prosperity is a share-the-wealth model that gives everybody a sense of security and a piece of the action. It has maintained a strict no-layoff pledge since 1958. As Taylor writes: "The story of this book, its message for leaders who aim to do something important and build something great, is both simple and subversive: In a time of wrenching disruptions and exhilarating advances, of unrelenting turmoil and unlimited promise, the future is open to everybody. The thrill of breakthrough creativity and breakaway performance . . . can be summoned in all sorts of industries

and all walks of life, if leaders can reimagine what's possible in their fields." Simply Brilliant shows you how.

With 200,000+ copies in print, this New York Times bestseller shares the story and the recipes behind the chef and cuisine that changed the modern-day culinary landscape. Never before has there been a phenomenon like Momofuku. A once-unrecognizable word, it's now synonymous with the award-winning restaurants of the same name in New York City (Momofuku Noodle Bar, Ssäm Bar, Ko, Má Pêche, Fuku, Nishi, and Milk Bar), Toronto, and Sydney. Chef David Chang single-handedly revolutionized cooking in America and beyond with his use of bold Asian flavors and impeccable ingredients, his mastery of the humble ramen noodle, and his thorough devotion to pork. Chang relays with candor the tale of his unwitting rise to superstardom, which, though wracked with mishaps, happened at light speed. And the dishes shared in this book are coveted by all who've dined—or yearned

to—at any Momofuku location (yes, the pork buns are here). This is a must-read for anyone who truly enjoys food.

Written by a practicing emergency physician, *The White Coat Investor* is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals.

Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape from your student loans, provide for your family, build wealth, and stop getting ripped off by unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested by a novice to the subject matter yet the book also contains advanced concepts specific to physicians you won't find in other financial books. This book will teach you how to: Graduate from medical school with as little debt as possible Escape from student loans within two to five years of residency graduation Purchase the right types and amounts of insurance Decide when to buy a house and how much to spend on it Learn to invest in a sensible, low-cost and effective manner with or without the assistance of an advisor Avoid investments which are designed to be sold, not bought Select advisors who give

great service and advice at a fair price Become a millionaire within five to ten years of residency graduation Use a "Backdoor Roth IRA" and "Stealth IRA" to boost your retirement funds and decrease your taxes Protect your hard-won assets from professional and personal lawsuits Avoid estate taxes, avoid probate, and ensure your children and your money go where you want when you die Minimize your tax burden, keeping more of your hard-earned money Decide between an employee job and an independent contractor job Choose between sole proprietorship, Limited Liability Company, S Corporation, and C Corporation Take a look at the first pages of the book by clicking on the Look Inside feature Praise For *The White Coat Investor* "Much of my financial planning practice is helping doctors to correct mistakes that reading this book would have avoided in the first place." - Allan S. Roth, MBA, CPA, CFP(R), Author of *How a Second Grader Beats Wall Street* "Jim Dahle has done a lot of thinking about the peculiar financial problems facing physicians, and you, lucky reader, are about to reap the bounty of both his experience and his research." -

William J. Bernstein, MD, Author of The Investor's Manifesto and seven other investing books "This book should be in every career counselor's office and delivered with every medical degree." - Rick Van Ness, Author of Common Sense Investing "The White Coat Investor provides an expert consult for your finances. I now feel confident I can be a millionaire at 40 without feeling like a jerk." - Joe Jones, DO "Jim Dahle has done for physician financial illiteracy what penicillin did for neurosyphilis." - Dennis Bethel, MD "An excellent practical personal finance guide for physicians in training and in practice from a non biased source we can actually trust." - Greg E

Wilde, M.D Scroll up, click the buy button, and get started today!
