The #1 bestselling pioneer of "fratire" and a leading evolutionary psychologist team up to create the dating book for guys. Whether they conducted their research in life or in the lab, experts Tucker Max and Dr. Geoffrey Miller have spent the last 20+ years learning what women really want from their men, why they want it, and how men can deliver those qualities. The short answer: become the best version of yourself possible, then show it off. It sounds simple, but it's not. If it were, Tinder would just be the stuff you use to start a fire. Becoming your best self requires honesty, self-awareness, hard work and a little help. Through their website and podcasts, Max and Miller have already helped over one million guys take their first steps toward Ms. Right. They have collected all of their findings in Mate, an evidence-driven, seriously funny playbook that will teach you to become a more sexually attractive and romantically successful man, the right way: No "seduction techniques," No moralizing, No bullshit. Just honest, straightforward talk about the most ethical, effective way to pursue the win-win relationships you want with the women who are best for you. Much of what they've discovered will surprise you, some of it will not, but all of it is important and often misunderstood. So listen up, and stop being stupid!

Now a decade later, Brandon is a leading member of the Logical Men's Society—for no woman since Kate has managed to captivate him. To Kate, the memory of that night still burns strongly, because it was followed by a stunning betrayal. A chance encounter may have brought Brandon back into her life, but that doesn't mean Kate will ever forgive him. She's vowed to make him pay—even as she realizes the promises of the young love they once shared are still etched upon her heart . . . Loving her exiled him. Trusting him ruined her. The key to advancing gender equality? Men. Women are at a disadvantage. At home, they often face an unequal division of household chores and childcare, and in the workplace, they deal with lower pay, lack of credit for their contributions, roadblocks to promotion, sexual harassment, and more. And while organizations are looking to address these issues, too many gender-inclusion initiatives focus on how women themselves should respond, reinforcing the perception that these are "women's issues" and that men—often the most influential stakeholders in an organization—don't need to be involved. Gender-in-the-workplace experts David G. Smith and W. Brad Johnson counter this perception. In this important book, they show that men have a crucial role to play in promoting gender equality at work. Research shows that when men are deliberately engaged in gender-inclusion programs, 96 percent of women in those organizations perceive real progress in gender equality, compared with only 30 percent of women in organizations without strong male engagement. *Good Guys* is the first practical, research-based guide for how to be a male ally to women in the workplace. Filled with firsthand accounts from both men and women, and tips for getting started, the book shows how men can partner with their female colleagues to advance women's leadership and equality by breaking ingrained gender stereotypes, overcoming unconscious biases, developing and supporting the talented women around them, and creating productive and respectful working relationships with women.
