For owners and would-be owners of four-wheeled Morgans, Ken Hill has created an invaluable 'Bible' which is absolutely packed with genuinely useful information. Ken sets the stage by detailing the history of the Morgan motor company, describes the marque's motorsport record and then, in great

detail, chronicles the evolution of all four-cylinder and eight-cylinder models available since 1968. Next comes practical advice on restoration and general care - advice based on information gathered, over a number of years, from a host of Morgan owners and specialists around the world. This book's guidance on restoration techniques will prove to be a real boon to those undertaking a rebuild or considering the purchase of a car in need of restoration. Again, this advice is based upon experience, as Ken restored his own concours-winning Morgan. Part of the 'Morgan experience' is the extraordinary social scene that embraces the marque on a worldwide basis, so Ken devotes a whole chapter to Morgan clubs and their activities. The last part of the book is a series of appendices comprised of original specifications, production changes, wiring diagram, technical data sheets, Lucas electrical component data, details of specialists, distributors and manufacturers, details of Morgan miniature models and a record of factory sales literature. Altogether, this

work is a unique source book of essential information for all Morgan owners and enthusiasts.

wildly successful 1969
Chevelle SS 396 with this

comprehensive
publication that covers
options for the engine,
transmission, paint,
aesthetics, and more!
Chevrolet's marketing
campaign for the 1969
Chevelle changed the SS
396 to an option instead
of its own series. For this
year only, the SS 396
Equipment option was
offered on four different
bodystyles (coupe, sport
coupe, convertible, and se-
dan pickup) and in two se-
ries (300 Deluxe and Mal-
ibu). The clean styling and
extended production year
saw sales at 86,307 units
sold with the SS 396
Equipment option, the all-
time high watermark. The
SS 396 equipment option
offered three engine pack-
ages: those with 325, 350,
and 375 hp--the latter be-
ing available with an alu-
minum-head option (L89).
Two SS 396-specific paint
colors (Daytona Yellow
and Hugger Orange) were
available at a \$42.15
charge adding a splash of
brightness to the color
chart palette. The year
1969 was also the first
time that an SS 396 Chev-
elle came with its own spe-
cial wheels. Leading Chev-
elle specialists contribut-
ed data to this book, certi-
fying that the information
presented is accurate and
ensuring that 1969
