### CHURCH KELLEY

*Journalism of Ideas* John Wiley & Sons

"An index to library and information science".

**Kenya Gazette** Routledge

Leading people in today's complex world is challenging. There are regulations, unions, lawyers, and more to deal with on a daily basis. Written by a longtime human resources consultant, this guidebook helps you develop your leadership skills so you can recruit qualified applicants; interview candidates with confidence; hire the right people; train new employees and keep the best performers; deal with unions; and stay out of court. In addition to the basics, you'll learn how to respond to situations that catch you off guard. For instance, what do you do if your best employee tells you that he or she is leaving to join a competitor? What if one of your employees takes a public stand against one of your policies? What if someone you fire for theft hires a lawyer who sends you a nasty letter? Other textbooks on human resources management focus on theories

and statistics, but *A Practical Guide to Human Resources Management* provides real-life examples to help you handle any situation with leadership that inspires confidence.

*What Can You Do with a Major in Business?* Copyright Office, Library of Congress

For more than 40 years, Computerworld has been the leading source of technology news and information for IT influencers worldwide. Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network.

*Land That Job!* Oxford University Press

[Resources in Education](#) Springer

This book connects experts in the field of child assessment to provide child psychiatrists with knowledge in evaluation and educational programming. The book provides a review of the latest science behind: common learning disabilities, including etiology and guidelines for assessment/diagnosis; neurodevelopmental disorders, like learning disabilities, ADHD; psychiatric disorders in childhood such as mood and anxiety disorders; and impact learning and development

protocols. The Massachusetts General Hospital Guide to Learning Disabilities evaluates the interventions that are effective in addressing these learning challenges in the context of multiple factors in a way that no other current text does. Special topics such as special education law and managing the needs of transitional age youth allow psychiatrists to support their patients' and their families as they navigate the system. By offering a better understanding the learning needs of their patients, this text gives readers the tools to consult with families and educators regarding how to address the learning needs of their patients at school and in other settings. The Massachusetts General Hospital Guide to Learning Disabilities is a vital tool for child psychiatrists, students, assessment professionals, and other professionals studying or working with children suffering from learning disabilities.

The Student Newspaper Survival Guide has been extensively updated to cover recent developments in online publishing, social media, mobile journalism, and multimedia storytelling; at the same time, it continues to serve as an essential reference on all aspects of producing a student publication. Updated and expanded to discuss many of the changes in the field of journalism and in college newspapers, with two new chapters to enhance the focus on online journalism and technology. Emphasis on Web-first publishing and covering breaking news as it happens, including a new section on mobile journalism. Guides student journalists through the intricate, multi-step process of producing a student newspaper including the challenges of reporting, writing, editing, designing, and publishing campus newspapers and websites. Chapters include discussion questions, exercises, sample projects, checklists, tips from professionals, sample forms, story ideas, and scenarios for discussion. Fresh, new, full color examples from award winning college newspapers around North America. Essential reading for student reporters, editors, page designers, photographers, webmasters, and advertising sales representatives.

*Library Literature* EasyUni Sdn Bhd

Your guide to glide from campus to career. Make sure you get a good ROI (Return on Investment) from your college courses and career choices. Whether you're a student pounding the books or a graduate pounding the pavement, *What Can You Do with a Major in Business?* alerts you to diverse job options, some of which you probably haven't considered. It addresses specific concerns of business majors with valuable information, including: \* Advice on college and curriculum choices--courses, internships, advanced degrees, and more \* Tips to energize and expand your job search \* Profiles of real graduates, their jobs, and how they got them \* Objective audits of their careers from the manager of a recreational facility, a city/county administrator, a marketing field representative, a public relations specialist, and an import/export broker \* Overviews of typical salary levels, hours, and work environments \* Extensive additional resources, including Web sites, professional organizations, periodicals, and more. With practical information and enlightening insight from your peers in business careers, this book helps you analyze opportunities and choose a career that lets you make the most of your assets. Bottom line, that's the key to success.

*Library Literature* Springer

Provides information on more than four hundred undergraduate majors, including related fields, sample college curricula, suggested high school preparation courses, and career and salary prospects for graduates.

Computerworld For more than 40 years, Computerworld has been the leading source of technology news and information for IT influencers worldwide. Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network. *EASYUNI Ultimate University Guide 2014*

Hi there! It's nice to present you once again with another 'hot' issue of easyuni. On 11 June this year, we launched the unifrens social platform, an extension to easyuni's existing vision of providing comprehensive and accurate information to students about colleges and universities. This is another milestone in the history of easyuni as one of Asia's most popular education portals, committed to helping students with their higher education plans. unifrens is a social platform which allows students, searching for universities and colleges with similar interests, to connect with each other to help them make unbiased and community-driven decisions about their higher education. It also allows them to connect with students who are currently enrolled at universities who can tell them about their experiences about a particular city, country, university or a course. unifrens is something we had been planning for a while to complement our current family of tools for students. We always knew that our users would love it as they want more community-driven information instead of promotional content from universities and "study abroad" consultants. I believe this feature will democratise the way information about specific courses, countries or institutions is presented and this can only mean good news for students and their parents/visitors, as it helps them make more informed decisions about which course, institution or country to pick. Students can also pose questions to their groups, which will be answered by experts and the community. The feature is still in its beta stage but has gained massive traction with over 100,000 users already registered and assigned to groups. Exciting, isn't it? The issue you're holding now has so much to offer as well. So, read every page and fill yourself with all the knowledge needed to make informed decisions about your higher education.

It is published every week, usually on Friday, with occasional releases of special or supplementary editions within the week.

*University Bulletin*

*Journalism of Ideas* is a comprehensive field guide for brainstorming, discovering, reporting, digitizing, and pitching news, opinion, and feature stories within journalism 2.0. With on-the-job advice from professional journalists, activities to sharpen your multimedia reporting skills, and dozens of story ideas ripe for adaptation, Dan Reimold helps you develop the journalistic know-how that will set you apart at your campus media outlet and beyond. The exercises, observations, anecdotes, and tips in this book cover every stage of the story planning and development process, including how news judgment, multimedia engagement, records and archival searches, and various observational techniques can take your reporting to the next level. Separate advice focuses on the storytelling methods involved in data journalism, photojournalism, crime reporting, investigative journalism, and commentary writing. In addition to these tricks of the trade, *Journalism of Ideas* features an extensive set of newsworthy, timely, and unorthodox story ideas to jumpstart your creativity. The conversation continues on the author's blog, *College Media Matters*. Reimold also shows students how to successfully launch a career in journalism: the ins and outs of pitching stories, getting your work published, and navigating the post-graduation job search. Related sections of the book highlight the art of freelancing 2.0, starting an independent site, blogging, constructing quality online portfolios, securing internships, and building a social media following.

*Marketing Information Guide*

The global popularity and lucrative potential of tourism has made sustainability a major concern for archaeologists, site managers, politicians, local communities, tourism officials, and other stakeholders. This book establishes new, interdisciplinary ground for tourism and archaeology that will foster a new generation of sustainable thinking and practice. First, three teams of co-authors from both disciplines tackle key conceptual dilemmas: exploration vs. exploitation, education vs. entertainment, and cultural sensitivity vs. embeddedness. Then, international case studies examine site development, marketing, community relations, and other on-the-ground examples of heritage work. The volume launches an important new era of collaboration in this growing field.

*Tourism and Archaeology*

First multi-year cumulation covers six years: 1965-70.
