An intellectual property discussion is central to qualitative research projects, and ethical guidelines are essential to the safe accomplishment of research projects. Undertaking research studies without adhering to ethics may be dangerous to researchers and research subjects. Therefore, it is important to understand and develop practical techniques for handling ethics with a specific focus on qualitative projects so that researchers conducting this type of research may continue to use ethical practices at every step of the project. Data Analysis and Methods of Qualitative Research: Emerging Research and Opportunities discusses in detail the methods related to the social constructionist paradigm that is popular with qualitative research projects. These methods help researchers undertake ideal qualitative projects that are free from quantitative research techniques/concepts all while acquiring practical skills in handling

ethics and ethical issues in qualitative projects. The chapters each contain case studies, learning outcomes, question and answer sections, and discuss critical research philosophies in detail along with topics such as ethics, research design, data gathering and sampling methods, research outputs, data analysis, and report writing. Featuring a wide range of topics such as epistemology, probability sampling, and big data, this book is ideal for researchers, practitioners, computer scientists, academicians, analysts, coders, and students looking to become competent qualitative research specialists.

This volume brings together contributions that provide a snapshot of current food research. What is Food? acknowledges the many dimensions of food, including its social, cultural, symbolic and sensual qualities, while also being material in that it is fundamental to our survival. The collection addresses contemporary challenges and reflects the concerns of funders and researchers working in the broad field of the sociology of food: dietary health, sustainability, food safety and food poverty. Reflecting broader academic trends, the chapters are moreover concerned with interdisciplinarity, the analysis of change, data

reuse and the use of social media as data. The book includes empirical evidence from around the UK, Denmark, Sweden, Switzerland and Taiwan and addresses food both as a lens through which to examine these wider social relationships, processes and social change and as a primary subject. The contributions will be of interest to a wide range of students and researchers looking for a cutting-edge insight into how to frame and study food in areas related to the sociology of food, health, risk, poverty, sustainability and research methods.

In this instant New York Times Bestseller, Geoff Smart and Randy Street provide a simple, practical, and effective solution to what *The Economist* calls "the single biggest problem in business today": unsuccessful hiring. The average hiring mistake costs a company \$1.5 million or more a year and countless wasted hours.

This statistic becomes even more startling when you consider that the typical hiring success rate of managers is only 50 percent. The silver lining is that "who" problems are easily preventable. Based on more than 1,300 hours of interviews with more than 20 billionaires and 300 CEOs, Who presents Smart and Street's A Method for Hiring. Refined through the largest research study of its kind ever undertaken, the A Method stresses fundamental elements that anyone can implement--and it has a 90 percent success rate. Whether you're a member of a board of directors looking for a new CEO, the owner of a small business searching for the right people to make your company grow, or a parent in need of a new babysitter, it's all about Who. Inside you'll learn how to

- avoid common "voodoo hiring" methods
- define the outcomes you seek
- generate a flow of A Players to your team--by implementing the #1 tactic used by successful businesspeople
- ask the right interview questions to dramatically improve your ability to quickly distinguish an A Player from a B or C candidate
- attract the person you want to hire, by emphasizing the points the candidate cares about most

In business, you are who you hire. In *Who*, Geoff Smart and Randy Street offer simple, easy-to-follow steps that will put the right people in place for optimal success.

Features sound advice from successful professionals, as well as basic tips and industry secrets, for readers interested in succeeding in the health care industry.

Managing Your Career in the Health Care Industry IGI Global From the creator of the popular website *Ask a Manager* and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for *Ask a Manager* "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to

read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's *Ask a Manager* column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

This book provides a thorough review of tested qualitative methods often used in organization studies, and outlines the challenges and essential requirements of designing a qualitative research project. The methods examined include case studies, observation, interviewing and the repertory grid technique. By highlighting certain key 'rules' for carrying out qualitative research and describing issues that should be avoided, this second volume of *Qualitative Methodologies in Organization Studies* is essential reading for academics and researchers who wish to understand the current state of qualitative data gathering within organization studies. Those exploring organization studies will find this two-volume collection extremely valuable as it contains robust contributions from highly-skilled authors who are actively researching in this field.
