The Iliad: Join Achilles at the Gates of Troy as he slays Hector to

Avenge the death of Patroclus. Here is a story of love and war,

hope and despair, and honor and glory. The recent major motion

picture Helen of Troy staring Brad Pitt proves that this epic is as relevant today as it was twenty five hundred years ago when it was first written. So journey back to the Trojan War with Homer and relive the grandest adventure of all times. The *Odyssey*: Journey with Ulysses as he battles to bring his victorious, but decimated, troops home from the Trojan War, dogged by the wrath of the god Poseidon at every turn. Having been away for twenty years, little does he know what awaits him when he finally makes his way home. These two books are some of the most important books in the literary canon, having influenced virtually every adventure tale ever told. And yet they are still accessible and immediate and now you can have both in one binding.

The Odyssey Routledge

A replacement of the author's well-known book on Translation Theory, *In Search of a Theory of Translation* (1980), this book makes a case for Descriptive Translation Studies as a scholarly activity as well as a branch of the discipline, having immediate consequences for issues of both a theoretical and applied nature. Methodological discussions are complemented by an assortment of case studies of various scopes and levels, with emphasis on the need to contextualize whatever one sets out to focus on. Part One deals with the position of descriptive studies within TS and justifies the author's choice to devote a whole book to the subject. Part Two gives a detailed rationale for descriptive studies in translation and serves as a framework for the case studies comprising Part Three. Concrete descriptive issues are here tackled within ever growing contexts of a higher level: texts and modes of translational behaviour in the appropriate cultural setup; textual components in texts, and through these texts, in cultural constellations. Part Four asks the question: What is knowledge accumulated through descriptive studies performed within one and the same framework likely to yield in terms of theory and practice? This is an excellent book for higher-level translation courses.

The most comprehensive Yup'ik dictionary in existence, the second edition of this important work now adds extensive research on Central Alaskan Yup'ik, enhancing the forty years of research done by Steven A. Jacobson on the Yup'ik language and dialects. Over these decades, Jacobson has combed through records of explorers, linguists, missionaries, and anyone who has come in contact with the actively migratory Yup'ik people. Combined with information from native Yup'ik speakers, that research has led to a richly detailed dictionary that covers the entire language and all its dialects. The dictionary also offers sections on Yup'ik spelling, early vocabulary, demonstrative words, and important intersections of Yup'ik language and culture such as the kayak, dogsled, parka, and old-style dwellings.

Towards a General Theory of Translational Action Simon and Schuster

Robert Alter's award-winning translation of the Hebrew Bible continues with the stirring narrative of Israel's ancient history. To read the books of the Former Prophets in this riveting Robert Alter translation is to discover an entertaining amalgam of hair-raising action and high literary achievement. Samson, the vigilante superhero of Judges, slaughters thousands of Philistines with the jawbone of a donkey. David, the Machiavellian prince of Samuel and Kings, is one of the great literary figures of antiquity. A ruthless monarch, David embodies a life in full dimension as it moves from brilliant youth through vigorous prime to failing old age. Samson and David play emblematic roles in the rise and fall of ancient Israel, a nation beset by internal divisions and external threats. A scattering of contentious desert tribes joined by faith in a special covenant with God, Israel emerges through the bloody massacres of Canaanite populations recounted in Joshua and the

anarchic violence of Judges. The resourceful David consolidates national power, but it is power rooted in conspiracy, and David dies bitterly isolated in his court, surrounded by enemies. His successor, Solomon, maintains national unity through his legendary wisdom, wealth, and grand public vision, but after his death Israel succumbs to internal discord and foreign conquest. Near its end, the saga of ancient Israel returns to the supernatural. In Elijah's fiery ascent to heaven many would find the harbinger of a messiah coming to save his people in their time of need.

The New Larned History W. W. Norton & Company

According to Roger Caillois, play is an occasion of pure waste. In spite of this - or because of it - play constitutes an essential element of human social and spiritual development. In this study, the author defines play as a free and voluntary activity that occurs in a pure space, isolated and protected from the rest of life.

The Wanderer's Hávamál features Jackson Crawford's complete, carefully revised English translation of the Old Norse poem Hávamál, newly annotated for this volume, together with facing original Old Norse text sourced directly from the Codex Regius manuscript. Rounding out the volume are Crawford's classic Cowboy Hávamál and translations of other related texts central to understanding the character, wisdom, and mysteries of Óðinn (Odin). The Wanderer's Havamal Zondervan

This is the first English translation of the seminal book by Katharina Reiß and Hans Vermeer, *Grundlegung einer allgemeinen Translationstheorie*, first published in 1984. The first part of the book was written by Vermeer and explains the theoretical foundations and basic principles of skopos theory as a general theory of translation and interpreting or 'translational action', whereas the second part, penned by Katharina Reiß, seeks to integrate her text-typological approach, first presented in 1971, as a 'specific theory' that focuses on those cases in which the skopos requires equivalence of functions between the source and target texts. Almost 30 years after it first appeared, this key publication is now finally accessible to the next generations of translation scholars. In her translation, Christiane Nord attempts to put skopos theory and her own concept of 'function plus loyalty' to the test, by producing a comprehensible, acceptable text for a rather heterogeneous audience of English-speaking students and scholars all over the world, at the same time as acting as a loyal intermediary for the authors, to whom she feels deeply indebted as a former student and colleague.

This classic volume presents the core vocabulary of everyday life in Morocco--from the kitchen to the mosque, from the hardware store to the natural world of plants and animals. It contains myriad examples of usage, including formulaic phrases and

idiomatic expressions. Understandable throughout the nation, it is based primarily on the standard dialect of Moroccans from the cities of Fez, Rabat, and Casablanca. All Arabic citations are in an English transcription, making it invaluable to English-speaking non-Arabists, travelers, and tourists--as well as being an important resource tool for students and scholars in the Arabic language-learning field.

Siddhartha W. W. Norton & Company

In this book, Jeremy Munday presents advances towards a general theory of evaluation in translator decision-making that will be of high importance to translator and interpreter training and to descriptive translation analysis. By 'evaluation' the author refers to how a translator's subjective stance manifests itself linguistically in a text. In a world where translation and interpreting function as a prism through which opposing personal and political views enter a target culture, it is crucial to investigate how such views are processed and sometimes subjectively altered by the translator. To this end, the book focuses on the translation process (rather than the product) and strives to identify more precisely those points where the translator is most likely to express judgment or evaluation. The translations studied cover a range of languages (Arabic, Chinese, Dutch, French, German, Indonesian, Italian, Japanese, Russian, Spanish and American Sign Language) accompanied by English glosses to facilitate comprehension by readers. This is key reading for researchers and postgraduates studying translation theory within Translation and Interpreting Studies.
