Written by a celebrated math educator, this innovative inquiry encourages critical thinking and sparks memorable mathematical conversations. Children and their parents answer the same question about each set of four shapes: "Which one doesn't belong?" There's no one right answer--the important thing is to have a reason why. Kids might describe the shapes as squished, smooshed, dented, or even goofy. But when they justify their thinking,

they're talking math! Winner of the Mathical Book Prize for books that inspire children to see math all around them. "This is one shape book that will both challenge readers' thinking and encourage them to think outside the box."--Kirkus Reviews, STARRED review Frank Schaffer Publications 150+ Engaging Educational Toddler Activities for Ages 2 to 4! Did you know you can effectively improve your child's fine motor skills, memory, and language skills through handwriting practice? Research has shown that writing in longhand, compared to printing, significantly helps in brain development. The Tracing Book of Shapes & Patterns is a 76-page workbook loaded with fun and engaging activities that kids will definitely enjoy while learning to practice tracing the various shapes and patterns. The book comes with reproducible practice pages and a handy reference chart/guide to follow. The worksheets inside are a fantastic way to test how well your child has improved throughout the book. Best for classroom and after-school activities, during the summer, or any time your child needs extra handwriting practice.
