AXEL DECKER

Utah Since Statehood Oxford University Press
 By 1939 Mao Zedong was a leader in the Chinese Communist Party through his political acumen, his organizing energy, and his executive ability. At the same time, his abilities to shift register, to maintain a sense of the whole and also of the particular, and to absorb seemingly contradictory realities in the social, political and military arenas he

Commemorative Biographical Record of the Counties of Dutchess and Putnam, New York Visible Ink Press
 From the New York Times bestselling author of the Coulter and Harrigan Family series comes the first novel in a compelling contemporary romance series about unexpected love, second chances, and hope reborn... After years of living in fear of her husband, Amanda Banning has left him and moved to Mystic Creek, Oregon, for a fresh start. But she's having a tough time providing for herself and her six-year-old daughter. Writing her secret yearnings on slips of paper and sending them into the wind helps her cling to the hope that things will get better...and

that she can find happiness again. Jeb Sterling has no idea that the handwritten messages he finds scattered across his land are the first hints that his life is about to change. Nor does he understand why he feels so compelled to help Amanda Banning and her daughter when a cold snap leaves them temporarily homeless. Maybe he's inspired by Amanda's courage or perhaps by her beautiful brown eyes. Either way, the man who once renounced love suddenly finds himself willing to do anything for the pair. Amanda seems to have given up on her dreams, but Jeb refuses to quit until he makes her every wish come true...

Silver Thaw John Benjamins Publishing

China's rapid and complex political and socioeconomic changes provide fertile ground for pioneering analysis, but they also present daunting theoretical and practical challenges. This reader takes up the challenge, offering the most comprehensive assessment of Chinese domestic politics available by bringing together the best recent scholarship in the field. The anthology focuses on the origin, content, and significance of the post-1989 phase of China's reform and opening to the world, commonly known in the PRC as "deep reform." This period has been unfolding in interaction with globalization, marketization, privatization, political institutionalization, as well as with financial

and legal changes. Deep reform includes new policy initiatives that have penetrated political, legal, economic, and social sectors untouched by previous initiatives as reformers have been forced to deal with the consequences—intended and unintended—of earlier reforms. These carefully selected essays by leading scholars have been revised and updated for this text. In addition, a substantive introduction and conclusion place the articles in their broader context for readers new to the subject. With the successful transition of the leadership of the party, state, and military since 2002, the time is ripe for a comprehensive evaluation of China's deep reform as it enters a new stage. This timely reader will offer students, scholars, and policymakers invaluable insights into the dynamics of change in one of the world's emerging political and economic dynamos. Contributions by: Marc Blecher, Bruce J. Dickson, Lowell Dittmer, Joseph Fewsmith, Ting Gong, Baogang Guo, William Hurst, Cheng Li, Guoli Liu, Andrew J. Nathan, Kevin J. O'Brien, Veronica Pearson, Randall Peerenboom, Yingyi Qian, Tony Saich, Tianjian Shi, Edward S. Steinfeld, Shaoguang Wang, Lynn White, Yu-Shan Wu, and Guobin Yang

The Long Game Oxford University Press

For centuries, Muslim countries and Europe have engaged one another through theological dialogues, diplomatic missions, political rivalries, and power struggles. In the last thirty years, due in large part to globalization and migration from Islamic countries to the West, what was previously an engagement across national and cultural boundaries has increasingly become an internalized encounter within Europe itself. Questions of the Hijab in schools, freedom of expression in the wake of the Danish Cartoon crisis, and the role of Shari'a have come to the forefront of contemporary European discourse. The Oxford Handbook of European Islam is the first collection to present a comprehensive approach to the multiple and changing ways Islam has been studied across European countries. Parts one to three address the state of knowledge of Islam and Muslims within a selection of European countries, while presenting a critical view of the most up-to-date data specific to each country. These chapters analyze the immigration cycles and policies related to the presence of Muslims, tackling issues such as discrimination, post-colonial identity, adaptation, and assimilation. The thematic chapters, in parts four and five, examine secularism, radicalization, Shari'a, Hijab, and Islamophobia with the goal of synthesizing different national discussion into a more comparative theoretical framework. The Handbook attempts to balance cutting edge assessment with the knowledge that the content itself will eventually be superseded by events. Featuring eighteen newly-commissioned essays by noted scholars in the field, this volume will provide an excellent resource for students and scholars interested in European Studies, immigration, Islamic studies, and the sociology of religion.

Handbook of Party Politics SAGE

This book analyses the determinants behind the openings in party leader selection rules (leaders' selectorate) in 10 Western European countries and more than 55 parties between the mid-1980s and the mid-2010s. Presenting a novel and revealing theoretical and empirical framework, it tackles the impact of party change and the personalisation of politics, specifically using data coming from the first expert survey on the personalisation of politics in Western Europe; the PoPES. A quantitative analysis is paired with more in-depth explorations of two Italian parties (the Italian Communist Party - Democratic Party of the Left; the Northern League) and the (missed) opening of their leader selectorate. This book highlights the critical importance of studying party leader selection rules against the backdrop of allegedly declining parties and rising party leaders and concludes

by placing its findings in a broader discussion about the future of Western European party leaders. This book will be of key interest to scholars and students of political parties and party systems, leadership, political elites, elections, democracy, and more widely of Western European politics and comparative politics.

Beijing Review Routledge

The book is about the revival of China in the 20th century and the first decade of the 21st century. It has eight parts: (1) The civil revolution in China, (2) The countryside bases, (3) The Long March of the Red Army, (4) The Anti Japanese War, (5) Decisive civil battles before the establishment of the People's Republic of China, (6) The Mao Era before the Great Cultural Revolution, (7) The Great Cultural Revolution, and (8) The Reform and opening up. This version of the book is with pictures.

Study of Essential Railroad Passenger Service Routledge

Ireland has enjoyed continuous democratic government for almost a century, an unusual experience among countries that gained their independence in the 20th century. But the way this works in practice has changed dramatically over time. Ireland's colonial past had an enduring influence over political life for much of the time since independence, enabling stable institutions of democratic accountability, while also shaping a dismal record of economic under-development and persistent emigration. More recently, membership of the EU has brought about far-reaching transformation across almost all aspects of Irish life. But if anything, the paradoxes have only intensified. Now one of the most open economies in the world, Ireland has experienced both rapid growth and one of the most severe crashes in the wake of the Great Recession. On some measures Ireland is among the most affluent countries in the world, yet this is not the lived experience for many of its citizens. Ireland is an unequivocally modern state, yet public life continues to be marked by formative ideas and values in which tradition and modernity are held in often uneasy embrace. It is a small state that has ambitions to leverage its distinctive place in the Atlantic and European worlds to carry more weight on the world stage. Ireland continues to be deeply connected to Britain through ties of culture and trade, now matters of deep concern in the context of Brexit. And the old fault-lines between North and South, between Ireland and Britain, which had been at the core of one of Europe's longest and bloodiest civil conflicts, risk being reopened by Britain's new hard-edged approach to national and European identities. These key issues are teased out in the 41 chapters of this book, making this the most comprehensive volume on Irish politics to date.

Isaac Asimov's Science Fiction Routledge

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Hygeia State University of New York Press

The Handbook of Party Politics is the first book to comprehensively map the state-of-the-art in contemporary party politics scholarship. This major new work brings together the world's leading party theorists to provide an unrivalled resource on the role of parties in the pressing contemporary problems of institutional design and democratic governance today.

Railroad Passenger Service Committee Serial No. 90-81. Considers S. 3861, to require DOT to submit a report on existing and future intercity railroad passenger service, and to require that a special test of public convenience and necessity and financial burden be met before an established route that represents the last rail service between two points may be abolished. Model Rules of Professional Conduct

China's basic work units, collectively known as the danwei system, have undergone significant reform, particularly since 1984. The author examines how this system operates and how reform is generating change in the party at grassroots level. The author demonstrates how China's post-Mao reforms have produced a quiet revolution from below as the process of political and economic liberalization has accelerated. This book presents new research findings that will be invaluable to those wishing to understand the nature of change in China.

What's your worst nightmare? Is it that ghost lurking next door? The cabal conspiring to rule the world? Those monsters slithering under your bed? The extraterrestrial visitors lurking among us? Paranormal researcher extraordinaire Brad Steiger, an author of thousands of books and articles on the mysterious and unknown, gathers his favorite and scariest stories of the unexplained in this compilation. Have you ever awakened with a start, hoping it was just a dream? Sorry, these stories are not dreams. They are unbelievable, but true tales of the supernatural, mysterious, and the downright spooky. Keep the lights on when you read *Real Nightmares: True and Truly Scary Unexplained Phenomena*.

Model Rules of Professional Conduct Rowman & Littlefield Publishers

For more than a century, no US adversary or coalition of adversaries - not Nazi Germany, Imperial Japan, or the Soviet Union - has ever reached sixty percent of US GDP. China is the sole exception, and it is fast emerging into a global superpower that could rival, if not eclipse, the United States. What does China want, does it have a grand strategy to achieve it, and what should the United States do about it? In *The Long Game*, Rush Doshi draws from a rich base of Chinese primary sources, including decades worth of party documents, leaked materials, memoirs by party leaders, and a careful analysis of China's conduct to provide a history of China's grand strategy since the end of the Cold War. Taking readers behind the Party's closed doors, he uncovers Beijing's long, methodical game to displace America from its hegemonic position in both the East Asia regional and global orders through three sequential "strategies of displacement." Beginning in the 1980s, China focused for two decades on "hiding capabilities and biding time." After the 2008 Global Financial Crisis, it became more assertive regionally, following a policy of "actively accomplishing something." Finally, in the aftermath populist elections of 2016, China shifted to an even more aggressive strategy for undermining US hegemony, adopting the phrase "great changes unseen in century." After charting how China's long game has evolved, Doshi offers a comprehensive yet asymmetric plan for an effective US response.

Ironically, his proposed approach takes a page from Beijing's own strategic playbook to undermine China's ambitions and strengthen American order without competing dollar-for-dollar, ship-for-ship, or loan-for-loan.

Dearborn Independent Oxford Handbooks

In 2000, just a few hundred votes out of millions cast in the state of Florida separated Republican presidential candidate George W. Bush from his Democratic opponent, Al Gore. The outcome of the election rested on Florida's 25 electoral votes, and legal wrangling continued for 36 days. Then, abruptly, one of the most controversial Supreme Court decisions in U.S. history, *Bush v. Gore*, cut short the battle. Since the Florida debacle we have witnessed a partisan war over election rules. Election litigation has skyrocketed, and election time brings out inevitable accusations by political partisans of voter fraud and voter suppression. These allegations have shaken public confidence, as campaigns deploy "armies of lawyers" and the partisan press revs up when elections are expected to be close and the stakes are high.

The Million American Bar Association

Euroscepticism has emerged as a growing constraint on European integration, starting with the Maastricht Treaty in the early 1990s, continuing with the mid-2000s constitutional debacle and intensifying with the eurozone crisis - a crisis in which Southern Europe has played a key role. But is opposition to European integration really greater now than in the past? The only way to answer this question is through diachronic studies, focusing on change over time. This is the gap in the literature which the present volume aims to fill, through an examination of the origins, evolution and prospects of opposition to integration, focusing on a region traditionally regarded as exceptionally europhile. As a laboratory for the study of attitudes towards European integration, Southern Europe offers a particularly rich range of case studies, including a founder member (Italy), three 'second generation' states (Greece, Spain and Portugal), two recent entrants (Cyprus and Malta) and a negotiating candidate (Turkey). The volume traces the evolution of euroscepticism in each South European country, assessing its significance, identifying key turning-points and highlighting both continuity and change. Covering party and popular euroscepticism, the book illuminates similarities and differences between national experiences of euroscepticism. This book was published as a special issue of *South European Society and Politics*.

[Congressional Record](#) Penguin

The present volume follows the author's tradition of bringing together at certain intervals selections of articles which more often than not had previously been published in not easily accessible places, or which had not been published before. These papers do not typically represent mere reprints but in most instances thoroughly revised versions. This volume contains twelve articles organized under three headings, "Programmatic Papers in the History of Linguistics," "Studies in Linguistic Historiography," and "Sketches historiographical and (auto)biographical," plus as an appendix a complete list of Zellig Harris' writings as an illustration of Koerner's penchant for and belief in the importance of good bibliographies as a basis for historical research. While the first two sections, which take up the bulk of the volume, either show the author as an historian engage or demonstrate his work as a historiographer of 19th and 20th century linguistics, the third section is much shorter and less heavy going. Indexes of Biographical Names and of Subjects, Terms & Languages round out the volume, which also contains a number of portraits of linguists and other illustrations.

World Marxist Review Mao Min

The Congressional Record is the official record of the proceedings

and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Real Nightmares (Book 1)

Developing a framework of analysis which enables a detailed empirical investigation of Scottish Green Party membership, this is a detailed assessment of why people become members of a green party. The questions are particularly relevant in the light of declining political participation. Lynn Bennie responds to the gap in the literature on green and small parties and builds on the work of other researchers who have used similar methods to explore membership of the larger parties. The volume incorporates an extensive review of participation literature;

details the history of the Scottish Green Party; documents extensive survey data of party members; and develops an understanding of motivations behind membership of a green party. It will prove ideal for courses on political behaviour and green politics, and be of interest to sociologists and political science researchers.

Wisconsin Journal of Education

In Nation and Revolution, Anouar Abdel-Malek examines the dynamics of power and social change and shows how the super-imposition of new geo-politics on the existing order of national states has brought about the primacy of the political in contemporary history. Taking issue with those who maintain that the Western proletariat constitutes the main impetus for social change today, Abdel-Malek argues that the united front historically necessary to break the hold of hegemonism will be based on a new "East Wind" combining mighty waves of national liberation and social revolution.
