Of Nathaniel
Hawthorne's insight
into the Puritan's
simultaneous need for
fulfillment and self-

destruction, D. H.
Lawrence wrote,
"Nathaniel knew
disagreeable things in
his inner soul. He was
careful to send them
out in disguise." By
means of artfully
crafted and compelling
tales, Hawthorne
explored the destinies
and concerns of early
American settlers and
citizens. In several of

the stories in this collection, characters who hold themselves apart from their fellow man fall prey to the corroding desires of lust for perfection. Then they unwittingly commit evils—against themselves and others—in the name of pride. Edgar Allan Poe noted of Hawthorne’s writing: “Every word tells, and there is not a word which does not tell.”

The Token and Atlantic Souvenir

John Wiley & Sons
Gorgeously illustrated in a large-format album with two gatefolds and a stunning foldout of a jungle at war, *The Tiger Who Would Be King* is as entertaining as it is wise, as wry as it is passionate. Yoon's humorous images support this beautifully written text with wit

and insight, playing up the comic elements, while showing the pathos as well.

The first books to present specific guidance for teaching the Common Core State Standards Forty-three states plus the District of Columbia and the U.S. Virgin Islands have signed on to adopt the Common Core State Standards (CCSS). The need for curriculum guides to assist teachers in helping students meet these standards has become imperative. Created by teachers, for teachers, the research-based curriculum maps in this book present a

comprehensive, coherent sequence of thematic units for teaching the skills outlined in the CCSS for English language arts in Grades 9-12. Teachers can use the maps to plan their year and craft their own more detailed lesson plans. Each grade is broken down into six units that include focus standards, suggested works, sample activities and assessments, lesson plans, and more. The maps address every standard in the CCSS, yet are flexible and adaptable to accommodate diverse teaching styles. Any teacher, school, or district that chooses to follow the Common Core maps can be confident that they are adhering to the standards.

Florence Nightingale is famous as the “lady with the lamp” in the Crimean War, 1854—56. There is a massive amount of literature on this work, but, as editor Lynn McDonald shows, it is often erroneous, and films and press reporting on it have been even less accurate. The Crimean War reports on Nightingale’s correspondence from the war hospitals and on the staggering amount of work she did post-war to ensure that the appalling death rate from disease (higher than that from bullets) did not recur. This volume contains much on Nightingale’s efforts to achieve real reforms. Her well-known, and relatively

“sanitized”, evidence to the royal commission on the war is compared with her confidential, much franker, and very thorough Notes on the Health of the British Army, where the full horrors of disease and neglect are laid out, with the names of those responsible.

G-Zero — \JEE-ZEER-

oh\ —n A world order in which no single country or durable alliance of countries can meet the challenges of global leadership. What happens when the G20 doesn't work and the G7 is history. If the worst threatened—a rogue nuclear state, a major health crisis, the collapse of the global financial system—where would the world look for leadership? For the first time in seven decades, there is no single power or alliance of powers ready to take on the challenges of global leadership. A generation ago, the United States, Europe, and Japan were the world's powerhouses, the free-market democracies that propelled the global economy forward. But

today, they struggle just to find their footing. Acclaimed geopolitical analyst Ian Bremmer argues that this leadership vacuum is here to stay, as power is regionalized instead of globalized. Now that so many challenges transcend borders—from the stability of the global economy and climate change to cyber-attacks and terrorism—the need for international cooperation has never been greater.

 PBS television
 commentator and syndicated radio talk-show host Tony Brown has been called an "out-of-the-box thinker" and, less delicately, and "equal opportunity ass kicker." Those who attempt to pigeonhole him do so at their own peril. This journalist, media commentator,

self-help advocate, entrepreneur, public speaker, film director, and author is a hard man to pin a label on -- and an even more difficult man to fool. In *Black Lies, White Lies*, Tony Brown does what few high-profile African Americans have done before: He dares to challenge the lies of both Black and White leaders, and he dares to tell the truth. He attacks White racism and Black self-victimization with equal vehemence. He condemns integration as a disastrous policy, not for just Blacks but for the entire country. And he confronts the Black Talented Tenth, White liberals, conservatives, Democrats, Republicans, demagogues, and racists on all sides for

their self-serving lies, their failures, and their lack of vision. But Tony Brown does not simply slash and burn. He also offers farsighted, workable solutions to America's problems. He provides a blueprint for American renewal based on his belief that although we may not have come to this country on the same ship, we are all now in the same boat.

Mystery crime fiction written in the Golden Age of Murder "As with the best of such compilations, readers of classic mysteries will relish discovering unfamiliar authors, along with old favorites such as Arthur Conan Doyle and G.K. Chesterton."

—Publishers Weekly
STARRED review A man is forbidden to uncover the secret of the tower in a fairy-tale castle by the Rhine. A headless corpse is found in a secret garden in Paris—belonging to the city's chief of police. And a drowned man is fished from the sea off the Italian Riviera, leaving the carabinieri to wonder why his socialite friends at the

Villa Almirante are so unconcerned by his death. These are three of the scenarios in this new collection of vintage crime stories. Detective stories from the golden age and beyond have used European settings—cosmopolitan cities, rural idylls and crumbling chateaux—to explore timeless themes of revenge, deception, murder and haunting. Including lesser-known stories by Agatha Christie, Arthur Conan Doyle, G.K. Chesterton, J. Jefferson Farjeon and other classic writers, this collection reveals many hidden gems of British crime.

(+Biographie et Bibliographie) (Matte Cover Finish): One September night a family had gathered round their hearth, and piled it high with the driftwood of mountain streams, the dry cones of the pine, and the splintered ruins of great trees that had come crashing down the precipice. Up the chimney roared the fire, and brightened the room with its broad blaze. The faces of the father and mother had a sober gladness; the children laughed; the eldest daughter was the image of Happiness at seventeen; and the aged grandmother who sat knitting in the warmest place, was the image of Happiness grown old.

Then an old roommate reappears, bringing back Jo's memories of her early 20s. Jo's obsession with that period in her life--and the crime that ended it--draws her back to a horrible secret.

A monumental, genre-defying novel that David Mitchell calls "Michel Faber's second masterpiece," *The Book of Strange New Things* is a masterwork from a writer in full command of his many talents. It begins with Peter, a devoted man of faith, as he is called to the mission of a

lifetime, one that takes him galaxies away from his wife, Bea. Peter becomes immersed in the mysteries of an astonishing new environment, overseen by an enigmatic corporation known only as USIC. His work introduces him to a seemingly friendly native population struggling with a dangerous illness and hungry for Peter's teachings—his Bible is their "book of strange new things." But Peter is rattled when Bea's letters from home become increasingly desperate: typhoons and earthquakes are devastating whole countries, and governments are crumbling. Bea's faith, once the guiding light of their lives, begins to falter. Suddenly, a

separation measured by an otherworldly distance, and defined both by one newly discovered world and another in a state of collapse, is threatened by an ever-widening gulf that is much less quantifiable. While Peter is reconciling the needs of his congregation with the desires of his strange employer, Bea is struggling for survival. Their trials lay bare a profound meditation on faith, love tested beyond endurance, and our responsibility to those closest to us. Marked by the same bravura storytelling and precise language that made *The Crimson Petal* and *the White* such an international success, *The Book of Strange New Things* is extraordinary, mesmerizing, and

replete with emotional complexity and genuine pathos. Bible Answers for Almost All Your Questions Thomas Nelson

J. Hillis Miller is undoubtedly one of the most important literary critics of the past century. For well over five decades his work has been at the forefront of theoretical and philosophical thinking and writing. From his earliest work with Georges Poulet and the so-called Geneva School, which introduced a generation of North American critics to the concept of a phenomenological literary hermeneutic, to a deconstructive rhetorical philology and an ethically motivated textual analysis, Miller's readings have

not only reflected major movements in literary theory, they have also created them. Surprisingly, Eamonn Dunne's *J. Hillis Miller and the Possibilities of Reading* is the first book devoted exclusively to examining Miller's work. Dunne argues that an appreciation of Miller is crucial to an informed understanding about the radical changes occurring in critical thinking in the humanities in recent years. This book, the first of its kind, will be a vital and enabling avenue for further research into J. Hillis Miller's exemplary and prolific output. Lutterworth Press

"The Great Carbuncle" is a short story by Nathaniel Hawthorne published in 1835. The

Great Carbuncle points out that earthly possessions are not necessary for success and that people should be satisfied with what they have instead of wanting things that are not essential in life. The Collar Cosimo, Inc. Combining thematic analysis and stimulating close readings, 'The Collar' is a wide-ranging study of the many ways - heroic or comic, shrewd or dastardly - in which Christian clergy have been represented in literature, from George Herbert and Laurence Sterne, via Anthony Trollope, G.K. Chesterton, T.S. Eliot, and Graham Greene, to Susan Howatch and Robertson Davies, and in film and television, such as 'Pale Rider', 'The Thorn Birds', 'The Vicar of Dibley', and

'Father Ted'. Since all Christians are expected to be involved in ministry of some type, the assumptions of secular culture about ministers affect more than just clergy. Ranging across several nations (particularly Britain, the U.S., and Canada), denominations, and centuries, 'The Collar' encourages creative and faithful responses to the challenges of Christian leadership and develops awareness of the times when leadership expectations become too extreme. Using the framework of different media to make inquiries about pastoral passion, frustration, and fallibility, Sue Sorensen's well-informed, sprightly, and perceptive book will be helpful to

anyone who enjoys evocative literature and film as well as to clergy and those interested in practical theology.

Providential Fictions:
Nathaniel Hawthorne's
Secular Ethics

Princeton University
Press

In this celebrated analysis of Nathaniel Hawthorne, Michael J. Colacurcio presents a view of the author as America's first significant intellectual historian. Colacurcio shows that Hawthorne's fiction responds to a wide range of sermons, pamphlets, and religious tracts and debates--a variety of moral discourses at large in the world of provincial New England. Informed by comprehensive historical research, the

author shows that Hawthorne was steeped in New England historiography, particularly the sermon literature of the seventeenth century. But, as Colacurcio shows, Hawthorne did not merely borrow from the historical texts he deliberately studied; rather, he is best understood as having written history. In *The Province of Piety*, originally published in 1984 (Harvard University Press), Hawthorne is seen as a moral historian working with fictional narratives--a writer brilliantly involved in examining the moral and political effects of Puritanism in America and recreating the emotional and cultural contexts in which earlier

Americans had lived.
