That?" BoD - Books on Demand

"Carrino and Colaneri, HGTV personalities known as the Cousins, bring their design and construction know-how to a young audience in this sprightly introduction to the tools of their trade." —Publishers Weekly From HGTV stars, cousins, and best friends John Colaneri and Anthony Carrino comes a fun-filled picture book

that introduces young readers to the tools in a toolbox and how to use them. A hammer. Nails. A screwdriver. How do we use them? Using simple language, cousins Anthony and John introduce kids to tools and their uses. As their construction project grows, so does the number of kids helping. At the end, they reveal exactly what you can do with a toolbox: We can build a playground!

Could I Do That? John Wiley & Sons
How women can "lean in" to entrepreneurship to create the life they want! Claudia Reuter left a promising

corporate career to raise her two young children but realized, when re-entering the workforce, that the gap in her resume looked like a gap in ambition—not a purposeful plan. Instead of leaning into a corporate career and fighting the structures and systems designed by and for men decades ago, or leaning out and giving up income, Claudia took a different path. That decision ultimately led to success in the corporate world and at home. In *Yes, You Can Do This!*, Claudia shares her own reasons for starting a business and makes a call to action for

women to consider entrepreneurship so that they can create businesses with the rules they want and change the playing field for others, making a significant impact in the world. More than a "how-to book" on building a business, *Yes, You Can Do This!* provides clear examples and practical resources to help others create the life they want through entrepreneurship. In *Yes, You Can Do This!*, you'll learn: How to develop and share your vision How to deal with stereotypes and unconscious bias How to leverage perceived weaknesses and turn them into strengths How to balance life at high speeds and avoid burnout How to cultivate the confidence to move from idea to creating a company with the culture and rules you want Claudia provides women with an electrifying third career option: it's not just "lean in" or "lean out," but startup and change the playing field for others in the process. Praise for *Yes, You Can Do This!* "It's rare to find a book on entrepreneurship that fuels your heart with inspiration and encouragement and your mind with practical, tangible things you can put into action immediately — but this is one of them. As a woman who has

started three companies and been a senior team member of five startups, this is the guide I wish I'd read when I was starting out." —Nataly Kogan, Author of *Happier Now* and founder of *Happier, Inc.* "Combining compelling storytelling with practical, tactical advice, Reuter has created a manifesto for the next generation of female founders. Rooted in the research around gender and work, this is a must read for women looking to launch the next new thing." —Jennifer McFadden, Associate Director of Entrepreneurial Programs, Yale School of Management "A must-read for any woman considering taking the leap into entrepreneurship, *You Can Do This* brings together today's best thinking about women in the workplace with practical advice for creating your dream career and life - by starting a company. Whether you are just curious or ready to take the leap, this book is a great read and a valuable resource." —Anna Barber, Managing Director, Techstars "Claudia helps not just the female entrepreneur, but all entrepreneurs, find their footing in what can be an overwhelming whirlwind of starting a business. This book is not only

inspiring and uplifting, but positively necessary for any woman looking to find success in the startup space!" —Shira Atkins, Co-founder & CMO Wonder Media Network "Stories of entrepreneurial success exist in abundance for men who receive 97.8% of venture funding and hold 95% of CEO roles. What is most inspiring about Claudia's book, making me want to shout from the rooftop, is that it is told from the perspective of an everyday woman who pushed hard through barriers, doubts, and setbacks that any entrepreneur would face. On top of all that, she overcame obstacles that are uniquely ours as women today. Claudia is now a standout among women, but with her book in hand, women who want to build a business to scale have a blueprint and path to do so. Here's to making dreams come true!" —Coco Brown, CEO and Founder, The Athena Alliance. "As I read through the book, there were multiple points where I thought, 'Every man in any startup or fast-growing business should read this.' As a man in technology, I took away lots of new ideas, along with examples that were explained in a way that I wouldn't have been able to

do prior to reading Claudia's book" —Brad Feld, Managing Director, at Foundry Group, author of *Venture Deals and Do More Faster* "Reuter breaks the stigma about mothers that chose to leave the workforce. She provides practical tools to start a business, by showing the path to success for every woman that wants to write her own rules" —Sharon Kan, CEO of Pepperlane & Co-Founder of the WIN Lab "Reuter manages to put into words what women have been facing and feeling for decades. She leaves the readers with stories, steps and inspiration to create the career path they are worthy of no matter if it's starting from scratch or breaking glass ceilings. This book will fuel the next generation of women in leadership and entrepreneurship giving them guides and confidence as it has fueled me to start the business I have always wanted."

Here is a book of workable, sensible solutions to the everyday problems faced by newly observant Jews as they try to explain the parameters of their new lives to the people who love them—but think

they've gone around the bend. For the formerly nonobservant Jew who has decided to live an observant life, the most daunting task can be dealing with less-observant loved ones. How can you explain to them what you now feel and believe? How can you continue to be part of the lives of your parents, your siblings and their families, and your in-laws, given how differently you now live your life? In this book, Azriela Jaffe—the observant daughter of less-observant parents—answers these and other pressing questions. Jaffe discusses how to eat kosher and observe the Sabbath and Jewish holidays in the home of a non-observant relative, and how to host nonobservant relatives in your own home; how to explain the laws of modesty and courtship practices; how to attend family life-cycle events—or explain why you sometimes can't; and how to help your relatives understand the decision to put secular education temporarily aside to attend yeshivah and further your knowledge of Jewish law, rituals, and customs. Eminently insightful, helpful, and readable, *What Do You Mean, You Can't Eat in My Home?* will be an invaluable tool

in the lives of an ever-increasing number of Jewish families.

If believers are not careful, church can be reduced to a mere social club. Barbara and Gina demonstrate how to find a cherished friendship through the process of discipleship. They have often observed, when women come to a new church, they seem to be on an endless search to "find a friend" so they can "feel" a part or "feel" connected. Often this leaves them discontent in their search. A more biblical and satisfying way is by developing discipleship relationships in the body of Christ. *Who Needs a Friend When You Can Make a Disciple?* defines and highlights some practical "how-tos" to help women implement biblical ways to practice and sustain discipleship relationships. Barbara and Gina's aim in sharing their personal story is to show women the impact discipleship can have on their spiritual growth as they find a cherished friend.

Graduate schools churn out tens of thousands of Ph.D.'s and M.A.'s every year. Half of all college courses are taught by adjunct faculty. The chances of an academic landing a tenure-track job seem only to shrink as student loan and credit card debts grow. What's a frustrated would-be scholar to do? Can he really leave academia? Can a non-academic job really be rewarding—and will anyone want to hire a grad-school refugee? With “So What Are You Going to Do with That?”

Susan Basalla and Maggie

Debelius—Ph.D.'s themselves—answer all those questions with a resounding “Yes!” A witty, accessible guide full of concrete advice for anyone contemplating the jump from scholarship to the outside world, “So What Are You Going to Do with That?” covers topics ranging from career counseling to interview etiquette to translating skills learned in the academy into terms an employer can understand and appreciate. Packed with examples and stories from real people who have successfully made this daunting—but potentially rewarding— transition, and

written with a deep understanding of both the joys and difficulties of the academic life, this fully revised and up-to-date edition will be indispensable for any graduate student or professor who has ever glanced at her CV, flipped through the want ads, and wondered, “What if?” “I will absolutely be recommending this book to our graduate students exploring their career options—I'd love to see it on the coffee tables in department lounges!”—Robin B. From the host of the YouTube channel that went viral—Dad, How Do I?—comes a book that's part memoir/part inspiration/part DIY. Rob Kenney's father left him and his seven siblings when he was fourteen years old, and the youngest had to fend for themselves. He wished that he had someone who could teach him the basics—how to tie a tie, jump-start a car, unclog a drain, use tools properly—as well as succeed in life. But he and his siblings had to figure these things out on their own. Now a father himself, Rob decided that he would help people out by providing

how-to tips as well as advice—and even throw in some bad dad jokes. He started a YouTube channel for anyone looking for fatherly advice, and in the course of three months, gained a following of nearly 2.5 million subscribers, with millions of views for his how-to and inspirational videos. In this book, Rob shares his story of overcoming a difficult childhood with the strength of faith and family, and offers inspiration and hope. In addition, he provides 50 practical DIY instructions (30 of which will be unique to the book), illustrated with helpful line drawings.

Witty and thought provoking, two Vatican astronomers shed provocative light on some of the strange places where religion and science meet. "Imagine if a Martian showed up, all big ears and big nose like a child's drawing, and he asked to be

baptized. How would you react?" —Pope Francis, May, 2014 Pope Francis posed that question—without insisting on an answer!—to provoke deeper reflection about inclusiveness and diversity in the Church. But it's not the first time that question has been asked. Brother Guy Consolmagno and Father Paul Mueller hear questions like that all the time. They're scientists at the Vatican Observatory, the official astronomical research institute of the Catholic Church. In *Would You Baptize an Extraterrestrial?* they explore a variety of questions at the crossroads of faith and reason: How do you reconcile the The Big Bang with Genesis? Was the Star of Bethlehem just a pious religious story or an actual description of astronomical events? What really went down between Galileo and the Catholic Church—and why do the effects of that confrontation still reverberate to this day? Will the Universe come to an end? And... could you really baptize an extraterrestrial? With disarming humor, Brother Guy and Father Paul explore these questions and more over the course of six days of dialogue. *Would You Baptize an Extraterrestrial* will make you laugh, make you think, and make you

reflect more deeply on science, faith, and the nature of the universe.

Robots can't do networking (yet). 12 takeaways on how to create and manage interpersonal relationships in the digital era Ciro Discepolo

English-speaking readers fond of Astrology already know the Author, thanks to his previous works - Transits and Solar

Returns and Lunar Returns and Earth Returns, which have also been translated into several other languages. In a practice of almost forty years of astrological research, the Author has studied and guided over twenty thousand aimed birthdays; he has also published a dozen books specifically on Solar Returns and Lunar Returns. This is his fifth work in English; two of them can be downloaded free from his webpage

www.cirodiscepolo.it - In this volume Ciro Discepolo deals with the second 'resource' on which his Active Astrology is based (the first one being the aimed birthday): the so-called exorcism of symbols. In these pages the Author suggests to the Reader about what can be done when you cannot aim, i.e. actively relocate your birthday (either your Solar or Lunar Return) by a practical application of the notion of 'activating' or 'constellating' a symbol. For example, Ciro Discepolo claims that if you can not leave for an aimed birthday to avoid Saturn being placed in the 5th House of your next Solar Return, during the twelve months covered by the SR, you had better devote more time to your kids, help them in their studies or in their sporting activities, pay

the fee to enrol them in a course, perhaps abroad, where they could learn new subjects and/or nurture and improve their condition in a broad sense. Planet by planet, House by House, this volume contains all the suggestions of the Author on the exorcism of symbols - a useful practice also in the case you do relocate your Solar and/or Lunar Returns: for

example if you have willingly left some dissonant position in your map of Aimed SR or of Aimed LR, and you wish to lower the threshold of risk a little more. The volume also explains the philosophical and psychological roots justifying the practice of the exorcism of symbols.
