DUNN BEARD

A Different Mirror Crossway

W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. Black

Reconstruction in America tells and interprets the story of the twenty years of Reconstruction from the point of view of newly liberated African Americans. Though lambasted by critics at the time of its publication in 1935, *Black Reconstruction* has only grown in historical and literary importance. In the 1960s it joined the canon of the most influential revisionist historical works. Its greatest achievement is weaving a credible, lyrical historical narrative of the hostile and politically fraught years of 1860-1880 with a powerful critical analysis of the harmful effects of democracy, including Jim Crow laws and other injustices. With a series introduction by editor Henry Louis Gates, Jr., and an introduction by David Levering Lewis, this edition is essential for anyone interested in African American history.

The American Political Tradition Univ of California Press
Some myths don't die, and lies are still being told about

Christopher Columbus: that he 'discovered' the Americas, that the land was sparsely populated by native people, that those people were primitive and that they submitted to Columbus's 'God-like' authority. Loewen disproves the myths about Columbus still enshrined in American textbooks with quotations from primary source material that sets the record straight. The poster and accompanying 48-page paperback book sum up the mistellings - and reveal the real story - in a graphically appealing and accessible format.

The Prodigal Church University of Toronto Press

A philosophical interpretation of history, examining the significance of historical study as a science and a reflection of social values.

Environmental Policy and Industrial Innovation Ludwig von Mises Institute

Revision and revisionism are generally seen as standard parts of historical practice, yet they are underexplored within the growing literature on historiography. In this accessibly written volume, Marnie Hughes-Warrington discusses this paucity of work on revision in history theory and raises ethical questions about linear models and spatial metaphors that have been used to explain it. *Revisionist Histories* emphasises the role of the authors and audiences of histories alike as the writers and rewriters of history. Through study of digital environments, graphic novels and reader annotated texts, this book shows that the 'sides' of history cannot be disentangled from one another, and that they are subject to flux and even destruction over time. Incorporating diverse and controversial case studies, including the French Revolution, Holocaust Denial and European settlers' contact with

Native Americans and Indigenous Australians, *Revisionist Histories* offers both a detailed account of the development of revisionism and a new, more spatial vision of historiography. An essential text for students of historiography.

Revisionist Histories Yale University Press

25th ANNIVERSARY EDITION • From the bestselling author of *The Passenger* and the Pulitzer Prize-winning novel *The Road*: an epic novel of the violence and depravity that attended America's westward expansion, brilliantly subverting the conventions of the Western novel and the mythology of the Wild West. Based on historical events that took place on the Texas-Mexico border in the 1850s, *Blood Meridian* traces the fortunes of the Kid, a fourteen-year-old Tennessean who stumbles into the nightmarish world where Indians are being murdered and the market for their scalps is thriving. Look for Cormac McCarthy's latest bestselling novels, *The Passenger* and *Stella Maris*.

What is History? Temple University Press

Into New Territory charts how the concept of US imperialism became prevalent in the writing of American diplomatic history, and how empire evolved into an effective analytical framework for the study of US foreign policy.

In Defence of History W. W. Norton & Company

Five essays on the tendency of modern historians to update other eras and on the need to recapture the concrete life of the past.

Why American History Is Not What They Say The New Press

In the rush to redefine the place of black Americans in contemporary society, many radical activists and academics have mounted a campaign to destroy traditional American history and replace it with a politicized version that few would recognize.

According to the new radical orthodoxy, the United States was founded as a racist nation—and everything that has happened throughout our history must be viewed through the lens of the systemic oppression of black people. Rejecting this false narrative, a collection of the most prominent and respected black scholars and thinkers has come together to correct the record and tell the true story of black Americans in all its complexity, diversity of experience, and poignancy. Collectively, they paint a vivid picture of black people living the grand American experience, however bumpy the road may be along the way. But rather than a people apart, blacks are woven into the united whole that makes this nation unique in history. Featuring Essays by: John Sibley Butler Jason D. Hill Colman Cruz Hughes John McWhorter Clarence Page Wilfred Reilly Shelby Steele Carol M. Swain Dean Nelson Rev. Corey Brooks Stephen L. Harris Harold L. Black Stephanie Deutsch Yaya J. Finalist for the Pulitzer Prize • Winner of the Council on Foreign Relations Arthur Ross Book Award • One of the New York Times' Ten Best Books of the Year "Impressive . . . Mr. Judt writes with enormous authority." —The Wall Street Journal "Magisterial . . . It is, without a doubt, the most comprehensive, authoritative, and yes, readable postwar history." —The Boston Globe Almost a decade in the making, this much-anticipated grand history of postwar Europe from one of the world's most esteemed historians and intellectuals is a singular achievement. Postwar is the first modern history that covers all of Europe, both east and west, drawing on research in six languages to sweep readers through

thirty-four nations and sixty years of political and cultural change—all in one integrated, enthralling narrative. Both intellectually ambitious and compelling to read, thrilling in its scope and delightful in its small details, Postwar is a rare joy. Judt's book, *Ill Fares the Land*, republished in 2021 featuring a new preface by bestselling author of *Between the World and Me* and *The Water Dancer*, Ta-Nehisi Coates.

Presidential Misconduct Penguin

Takaki traces the economic and political history of Indians, African Americans, Mexicans, Japanese, Chinese, Irish, and Jewish people in America, with considerable attention given to instances and consequences of racism. The narrative is laced with short quotations, cameos of personal experiences, and excerpts from folk music and literature. Well-known occurrences, such as the Triangle Shirtwaist Factory Fire, the Trail of Tears, the Harlem Renaissance, and the Japanese internment are included. Students may be surprised by some of the revelations, but will recognize a constant thread of rampant racism. The author concludes with a summary of today's changing economic climate and offers Rodney King's challenge to all of us to try to get along. Readers will find this overview to be an accessible, cogent jumping-off place for American history and political science plus a guide to the myriad other sources identified in the notes.

The Jewish Radical Right Alhoda UK

America has gone Hamilton crazy. Lin-Manuel Miranda's Tony-winning musical has spawned sold-out performances, a triple platinum cast album, and a score so catchy that it is being used to teach U.S. history in classrooms across the country. But just how historically accurate is Hamilton? And how is the show itself

making history? *Historians on Hamilton* brings together a collection of top scholars to explain the Hamilton phenomenon and explore what it might mean for our understanding of America's history. The contributors examine what the musical got right, what it got wrong, and why it matters. Does Hamilton's hip-hop take on the Founding Fathers misrepresent our nation's past, or does it offer a bold positive vision for our nation's future? Can a musical so unabashedly contemporary and deliberately anachronistic still communicate historical truths about American culture and politics? And is *Hamilton* as revolutionary as its creators and many commentators claim? Perfect for students, teachers, theatre fans, hip-hop heads, and history buffs alike, these short and lively essays examine why *Hamilton* became an Obama-era sensation and consider its continued relevance in the age of Trump. Whether you are a fan or a skeptic, you will come away from this collection with a new appreciation for the meaning and importance of the *Hamilton* phenomenon.

In Denial St. Martin's Griffin

A fast-paced literary thriller that recalls dystopian classics such as *1984* and *Fahrenheit 451*, from the award-winning author of *The Last Town on Earth*. Zed is an agent from the future. A time when the world's problems have been solved. No hunger. No war. No despair. His mission is to keep it that way. Even if it means ensuring every cataclysm throughout history runs its course—especially *The Great Conflagration*, an imminent disaster in our own time that Zed has been ordered to protect at all costs. Zed's mission will disrupt the lives of a disgraced former CIA agent; a young Washington lawyer grieving over the loss of her brother, a soldier in Iraq; the oppressed employee of a foreign diplomat;

and countless others. But will he finish his final mission before the present takes precedence over a perfect future? One that may have more cracks than he realizes? *The Revisionists* puts a fresh spin on today's global crises, playing with the nature of history and our own role in shaping it. It firmly establishes Mullen as one of the most exciting and imaginative writers of his generation.

A New World Begins University of Wisconsin Press

* Instant NEW YORK TIMES and USA TODAY bestseller **

GOODREADS CHOICE AWARD WINNER for BEST DEBUT and BEST ROMANCE of 2019 ** BEST BOOK OF THE YEAR* for VOGUE, NPR, VANITY FAIR, and more! * What happens when America's First Son falls in love with the Prince of Wales? When his mother became President, Alex Claremont-Diaz was promptly cast as the American equivalent of a young royal. Handsome, charismatic, genius—his image is pure millennial-marketing gold for the White House. There's only one problem: Alex has a beef with the actual prince, Henry, across the pond. And when the tabloids get hold of a photo involving an Alex-Henry altercation, U.S./British relations take a turn for the worse. Heads of family, state, and other handlers devise a plan for damage control: staging a truce between the two rivals. What at first begins as a fake, Instagramable friendship grows deeper, and more dangerous, than either Alex or Henry could have imagined. Soon Alex finds himself hurtling into a secret romance with a surprisingly unstuffy Henry that could derail the campaign and upend two nations and begs the question: Can love save the world after all? Where do we find the courage, and the power, to be the people we are meant to be? And how can we learn to let our true colors shine

through? Casey McQuiston's *Red, White & Royal Blue* proves: true love isn't always diplomatic. "I took this with me wherever I went and stole every second I had to read! Absorbing, hilarious, tender, sexy—this book had everything I crave. I'm jealous of all the readers out there who still get to experience *Red, White & Royal Blue* for the first time!" - Christina Lauren, *New York Times* bestselling author of *The Unhoneymooners* "*Red, White & Royal Blue* is outrageously fun. It is romantic, sexy, witty, and thrilling. I loved every second." - Taylor Jenkins Reid, *New York Times* bestselling author of *Daisy Jones & The Six*

[How History Gets Things Wrong](#) Univ of Wisconsin Press

Footbinding is widely condemned as perverse & as symbolic of male domination over women. This study offers a more complex explanation of a thousand year practice, contending that the binding of women's feet in China was sustained by the interests of both women and men.

Thinking About History Hachette UK

Not Out of Africa has sparked widespread debate over the teaching of revisionist history in schools and colleges. Was Socrates black? Did Aristotle steal his ideas from the library in Alexandria? Do we owe the underlying tenets of our democratic civilization to the Africans? Mary Lefkowitz explains why politically motivated histories of the ancient world are being written and shows how Afrocentrist claims blatantly contradict the historical evidence. *Not Out of Africa* is an important book that protects and argues for the necessity of historical truths and standards in cultural education. For this new paperback edition, Mary Lefkowitz has written an epilogue in which she responds to her critics and offers topics for further discussion. She has also

added supplementary notes, a bibliography with suggestions for further reading, and a glossary of names.

[Talking to Strangers](#) Emancipation Books

The Jewish Radical Right is the first comprehensive analysis of Zionist Revisionist thought in the 1920s and 1930s, and of its ideological legacy in modern-day Israel. The Revisionists, under the leadership of Ze'ev Jabotinsky, offered a radical view of Jewish history and a revolutionary vision for its future. Using new archival material, Eran Kaplan examines the intellectual and cultural origins of the Zionist and Israeli Right, when Revisionism evolved into one of the most important movements in the Zionist camp. He presents revisionism as a form of integral nationalism, rooted in an ontological monism and intellectually related to the radical right-wing ideologies that flourished in the early twentieth century. Kaplan provocatively suggests that revisionism's legacies can be found both in the right-wing policies of Likud and in the heart of Post Zionism and its critique of mainstream (Labor) Zionism. Published with support from the Koret Jewish Studies Program

The Devil and Karl Marx eBookIt.com

In this brilliant and impassioned work, John Earl Haynes and Harvey Klehr document how, beginning in the late 1960s, the study of American communism was taken over by "revisionist" historians who attempted to portray the United States as the aggressor in the Cold War and saw the American Communist Party (CPUSA) as an admirable force for promoting democratic values. Today, more than a decade after the death of communism, revisionists remain dismissive of Stalin's crimes and seriously understate the degree to which the CPUSA apologized

for Stalinism and gave assistance to Soviet espionage. Under their influence, the leading historical journals persist in teaching that America's rejection of the Communist Party was a tragic error, that American Communists were actually unsung heroes working for democratic ideals, and that those anticommunist liberals and conservatives who fought against the CPUSA in the 1950s were contemptible.

Critical Race Theory Triumph Books

Why we learn the wrong things from narrative history, and how our love for stories is hard-wired. To understand something, you need to know its history. Right? Wrong, says Alex Rosenberg in *How History Gets Things Wrong*. Feeling especially well-informed after reading a book of popular history on the best-seller list? Don't. Narrative history is always, always wrong. It's not just incomplete or inaccurate but deeply wrong, as wrong as Ptolemaic astronomy. We no longer believe that the earth is the center of the universe. Why do we still believe in historical narrative? Our attachment to history as a vehicle for understanding has a long Darwinian pedigree and a genetic basis. Our love of stories is hard-wired. Neuroscience reveals that human evolution shaped a tool useful for survival into a defective theory of human nature. Stories historians tell, Rosenberg continues, are not only wrong but harmful. Israel and Palestine, for example, have dueling narratives of dispossession that prevent one side from compromising with the other. Henry Kissinger applied lessons drawn from the Congress of Vienna to American foreign policy with disastrous results. Human evolution improved primate mind reading—the ability to anticipate the behavior of others, whether predators, prey, or cooperators—to

get us to the top of the African food chain. Now, however, this hard-wired capacity makes us think we can understand history—what the Kaiser was thinking in 1914, why Hitler declared war on the United States—by uncovering the narratives of what happened and why. In fact, Rosenberg argues, we will only understand history if we don't make it into a story.

Black Reconstruction in America (The Oxford W. E. B. Du Bois)
Cambridge University Press

With startling revelations, Tsuyoshi Hasegawa rewrites the standard history of the end of World War II in the Pacific. By fully integrating the three key actors in the story—the United States, the Soviet Union, and Japan—Hasegawa for the first time puts the last months of the war into international perspective. From April 1945, when Stalin broke the Soviet-Japanese Neutrality Pact and Harry Truman assumed the presidency, to the final Soviet military actions against Japan, Hasegawa brings to light the real reasons Japan surrendered. From Washington to Moscow to Tokyo and back again, he shows us a high-stakes diplomatic game as Truman and Stalin sought to outmaneuver each other in forcing Japan's surrender; as Stalin dangled mediation offers to Japan while secretly preparing to fight in the Pacific; as Tokyo peace advocates desperately tried to stave off a war party determined to mount a last-ditch defense; and as the Americans struggled to balance their competing interests of ending the war with Japan and preventing the Soviets from expanding into the Pacific. Authoritative and engrossing, *Racing the Enemy* puts the final days of World War II into a whole new light.

Red, White, and Black Vintage

Richard English's brilliant new book, now available in paperback,

is a compelling narrative history of Irish nationalism, in which events are not merely recounted but analysed. Full of rich detail, drawn from years of original research and also from the extensive specialist literature on the subject, it offers explanations of why Irish nationalists have believed and acted as they have, why their ideas and strategies have changed over time, and what effect Irish nationalism has had in shaping modern Ireland. It takes us from the Ulster Plantation to Home Rule, from the Famine of 1847 to the Hunger Strikes of the 1970s, from Parnell to Pearse, from

Wolfe Tone to Gerry Adams, from the bitter struggle of the Civil War to the uneasy peace of the early twenty-first century. Is it imaginable that Ireland might - as some have suggested - be about to enter a post-nationalist period? Or will Irish nationalism remain a defining force on the island in future years? 'a courageous and successful attempt to synthesise the entire story between two covers for the neophyte and for the exhausted specialist alike' Tom Garvin, Irish Times
