 "How women have been duped into the romantic dream--and how they're paying for it"--Jacket.  
**Think** Simon and Schuster  
 Hiding in plain sight throughout America are historic, highly private women's self-education groups. These clubs are fascinating survivors from an era following the Civil War when women couldn't apply to most colleges and were told they

shouldn't leave the home. In their earliest days, the study groups also contributed to the welfare of their towns - often by helping to found their town's first library-and served to get women out of the house and into the world. Today's all-women study clubs have no civic component but still fashion their meetings as their founding great-grandmothers did, with members taking turns giving original papers. In *Smart Women*, author Ann Dodds Costello discusses her four-year quest to locate, often visit, and describe today's 100-year-old, all-women study clubs, all over America, even though they do not publicize and have no central organization or knowledge of each

other. Included: an invaluable, first-ever directory of most of the book's ninety-plus clubs.

The *Smart Women Finish Rich* program has helped millions of women for over twenty years gain confidence, clarity and control over their financial well-being--it has been passed from generations to generation -- and it now can help you. Power Up Mothers at Home  
Are you one of the many women out there who needs a brand-

new model for your business career? Are you looking for entrepreneurial alternatives to the world of big business, but aren't sure where to start? A transition into small business is a natural progression for countless women who have invested the first phase of their careers in large companies. Many mid-career women dream of starting their own businesses, but until now there hasn't been a book that gives them the sense of multiple choice that helps them find the right entrepreneurial fit—options that go beyond starting a venture to include buying an independent business or a franchise, joining or consulting for small businesses, or working with partners.

There's a confusing array of how-to books out there with general advice about starting a business, conducting a job search, or balancing work and family. But what entrepreneurial women really need are the strategic tools for choosing and growing a business that will not only make them money, but make them happy as well. Women need direct, gender-specific advice about succeeding financially in their businesses; they also crave the feeling that their work matters, and they want flexibility and control over their professional lives in order to achieve a healthy work-life balance. This book offers them the womenfriendly business advice they need and numerous

true-life role models to identify with and emulate. Author Ginny Wilmerding opens women's eyes to the advantages of buying, joining, or consulting for existing small businesses, fully explaining the alternatives to starting from scratch. If you lack an original business idea, this book will give you the confidence you need to get excited about pursuing a business idea other than your own. But if you do want to start a company from the ground up, there's plenty of food for thought for you here, too. Wilmerding not only shares her own stories and outside experts' advice but also includes insightful vignettes from women who have found their niches and

are succeeding financially. If you're wondering how to finance your small business, Wilmerding steers you toward success in obtaining SBA loans and other financing. Finally, if you're considering partnering with others to share the risk and the fun, she prepares you for partnership success, and explains the importance of good advisers and mentors. The goal of this book is to get you started on the path to a successful career in the small business world, a world that needs experienced, smart, versatile women like you to join its ranks. Smart Women and Small Business is the ultimate professional guide for mid-career, business-minded women who

want to achieve the same independence and success as their entrepreneurial male peers—but in their own way.

Smart Women Throughout History Saint Martin's Paperbacks Inspired by a suffragist ancestor who starved herself to promote the integration of Cambridge University, Evie refuses to marry and Dorothy defies a ban on photographing the bodies of her dead Iraq War soldier sons, a choice that embarrasses Dorothy's dau **A Short History of Women** John Wiley & Sons Natalie Merchant. Sigourney Weaver. Tabitha Soren. Wendy Wasserstein. Rebecca Lobo. Lauren Hutton. Anita Roddick. Lynda Barry. These are among the thirty-three

extraordinary women who lend their diverse voices to this outstanding collection of stories, songs, poems, comics, and essays that will give every adolescent girl reason to feel hopeful about making the transition from girlhood to womanhood. Dealing with subjects like popularity, success, communication with boys, speaking one's mind, and body image, here is a book that offers help and inspiration to girls as they struggle to find a portrayal of womanhood they can call their own. 33 Things Every Girl Should Know is an empowering and inspirational gift book that every girl will want to own, to share with friends, and to use as a

springboard to self-knowledge, self-acceptance, and self-esteem. From the Trade Paperback edition.

Smart Women: The Search for America's Historic All-Women Study Clubs Currency

Does your IQ really measure your intelligence? Is IQ genetic? Can your IQ vary? Do we get smarter or dumber as we get older? How will IQ tests be different in the future? Dr. Kaufman, a leading expert on the development of IQ tests, explores these critical questions and many more in IQ Testing 101. This book provides a brief, compelling introduction to the topic of IQ testing-its mysteries, misconceptions, and truths. This newest

edition to the popular Psych 101 Series presents a common-sense approach to what IQ is and what it is not. In lucid, engaging prose, Kaufman explains the nature of IQ testing, as well as where it came from, and where it's going in the future. A quick, fun, even enlightening read, not only for psychologists and educators, but for anyone interested in the study of intelligence. The Psych 101 Series Short, reader-friendly introductions to cutting-edge topics in psychology. With key concepts, controversial topics, and fascinating accounts of up-to-the-minute research, The Psych 101 Series is a valuable resource for all students of psychology and anyone

interested in the field. Smart Women Love Money Springer Publishing Company  
D. Lindsey Berkson MA CNS DABCN is a participating scholar at a science-focused think tank that specializes in the most up-to-date research on estrogen, called the Center for Bioenvironmental Research at Tulane and Xavier Universities. Berkson has lectured to doctors of all backgrounds on health and hormones for 30 years. She has a master's degree in nutrition, higher board certifications in nutrition, formulated the 1st non-hormonal nutritional supplement for menopause for doctor's use in practice (in the 80's) and she consults with many doctors and patient's on hormonal issues.

This is her 4th book on hormones, such as Hormone Deception - one of the earliest books on the role of the environment and pollutants on hormones and health.

### **Smart Women Finish Rich, Expanded and Updated**

ReadHowYouWant.com  
With empowering insights to help women navigate the narrowest corridors of sexism, tech-industry pioneer Magdalena Yesil shares on-the-ground career advice that is as powerful as any MBA  
Pioneering Silicon Valley entrepreneur and investor Magdalena Yesil came to the United States in 1976 with two suitcases and \$43, blind to the challenges she would face as a woman and immigrant in Silicon Valley. Today,

she is best known as the first investor and a founding board member of Salesforce, the now-multibillion dollar company that ushered in the era of cloud-based computing. In Power Up: How Smart Women Win in the New Economy, Yesil urges women to look beyond the alarming gender statistics of the workplace and feel confident entering tech or any field-but also to be prepared to deal with the challenges. She shares what she experienced as a woman in Silicon Valley with surprising candor and heart, relying not just on her insight but that of more than a dozen top women entrepreneurs to offer pragmatic takeaways on topics such as: ·  
Owning career choices

while managing risk · Getting credit for your work · Managing sexual dynamics · Recruiting allies in the movement toward a supportive workplace for everyone Pragmatic, incisive, and full of highly actionable advice, Yesil prepares ambitious women to break glass ceilings and rise to the top in the New Silicon Valley--and beyond.

Regulating Womanhood Crown Books for Young Readers  
Sexuality, motherhood and marriage were matters of public policy throughout the nineteenth and early twentieth centuries. They were prominent areas in the regulation of women, but the idea that the law merely reflected what was normal and natural obscured the extent of this regulation. Regulating Womanhood poses

historically and culturally specific questions about the mechanisms that have controlled and restricted women. It shows not merely how laws and policies have set boundaries to the lives of women but also how the category of 'woman' has been constructed as a specific object for legal and social policy, and how women came to be seen as needing 'special' regulation. In addition, Regulating Womanhood explores how children and the organisation of reproduction and sexuality operated to normalise and make acceptable the degree of regulation to which women were subjected. Yet this is not a catalogue of the unmitigated subjection of women in history.

The contributors focus on women's resistance and activity, and on the shift in modes of regulation, to challenge the idea of an unchanging history of the legal oppression of women.

Smart About the First Ladies

YOU ARE A SMART WOMAN, BUT DO YOU STILL: —Feel you're too busy to invest your money? —Rely on someone else to deal? —Get bored by financial talk? —Think that investing is something only men do? —Worry you're not smart enough? THINK AGAIN. Women have made strides in so many areas and yet we still have a blind spot when it comes to managing our money. Why? A myriad of factors cause women to earn less than men

over a lifetime, making it all the more imperative that we make the money we do have work for us as much as possible. And here's a reality check: as many as nine out of ten of us will have to manage our finances and those of our family at some point in our lives. And a lot of us think that means keeping our money "safe" in savings accounts, and not investing it. But not doing so has an opportunity cost that will lead to opportunities lost—the ability to pay for a college education, own a home, change careers to pursue a dream, or retire. Alice Finn wants to change how you think about your money, no matter how much or little you have. In Smart Women

Love Money, Finn paves the way forward by showing you that the power of investing is the last frontier of feminism. Drawing on more than twenty years of experience as a successful wealth management adviser, Finn shares five simple and proven strategies for a woman at any stage of her life, whether starting a career, home raising children, or heading up a major corporation. Finn's Five Life-changing Rules of Investing will secure your financial future: 1. Invest in Stocks for the Long Run: Get the magic of compounding working for you, starting now. 2. Allocate your Assets: Strategize your investing to get the most of your returns. 3. Implement with Index

Funds: Take advantage of "passive" investing with simple, low-cost, and diverse funds. 4. Rebalance Regularly: Sell high and buy low without much effort, to keep you on track toward your goals. 5. Keep Your Fees Low: Uncover hidden fees so you don't lose half of your wealth to Wall Street. Finn will also provide the tools you need to achieve long-term success no matter what the markets are doing or what the headlines say. So even in the face of uncertainty—such as the possible dumping of the fiduciary rule (requiring financial advisers to act in their client's best interests) by the Trump administration—Smart Women Love Money will help you protect yourself and all of your

assets for your future. Whether you have \$10, \$10,000, or more, it's time to get smart about your money.

Smart Women Simon and Schuster

For every president, there has been a first lady, sometimes two. Who were these women? How has the job of First Lady (unpaid and unelected) changed over time? The Smart About format proves just right for covering history in an easy, appealing way.

### **33 Things Every Girl Should Know**

Lulu.com

Award-winning journalist Sharon Wright presents a fascinating account of the fabulous eighteenth and nineteenth-century female pioneers of balloon flight. More

than a century before the first airplane took flight, women were heading for the heavens in crazy, inspired contraptions that brought both danger and glory. Women were in the vanguard of the "Balloonomania" craze that took hold in the eighteenth and nineteenth centuries, sweeping across Europe and then the world. Their exploits were a vital element of our first voyages into the sky. In a time when women's lives were often severely limited by law and convention, these intrepid pioneers took on an exhilarating quest for spectacle, adventure, and danger. From the perilous ascent in 1784 by feisty French teenager Elisabeth Thible, female aeronauts have

never looked back . . .  
or down. But who were  
these brave women  
who fearlessly—and  
scandalously—took to  
the air? In

Balloonomania Belles,  
journalist Sharon  
Wright reveals the hair-  
raising adventures of  
the first flying women  
in a book that  
celebrates the  
brightest stars of an  
extraordinary era in  
human achievement.

### **Why Smart Women Make Bad Decisions**

Routledge

Inside every woman is  
a smart woman with  
special abilities. But do  
women show or even  
know this part of  
themselves? Do  
women sometimes find  
themselves 'dumbing  
down, ' pretending to  
not be as competent as  
they know they are?  
Why do women tend to  
downplay their

dreams? What happens  
in our culture to create  
these and numerous  
other situations where  
women do not live the  
life they feel they can  
because of what others  
might 'think' or 'do' or  
'believe' in  
response? Author Alice  
Rowe, with a doctorate  
in human  
development, presents  
Where Have All the  
Smart Women Gone?  
offering an honest,  
clear place to explore  
these painful questions  
and to provide  
inspiration for women  
to let their light shine:  
to celebrate their gifts  
and talents, not to hide  
them. As an educator,  
speaker and trainer,  
Alice Rowe, Ph.D.,  
based her book on her  
extensive study of  
American women. The  
themes explored in  
these women's lives  
overlap with most

women. Conversational in tone, one hears the voices of real women describe various themes such as: Smart women often find themselves trapped in a Double Bind. As they strive to achieve professional success and recognition, they still feel societal pressure to assume more conventional roles. Smart women feel as though they must do everything, and do it well. They are expected to handle everything, and there is no room to ask for help. These themes and many more offer inspiring models of achievement and tell of triumphs in the midst of conflicting expectations...hitting at the heart of life for many women. Dr. Rowe portrays vivid real-life experiences within the

framework of her research. She includes excerpts from leading researchers And probing, stimulating questions at the end of each chapter inviting sincere reflection and discovery. This format creates a very accessible book, revealing a clear portrait of the dilemmas and challenges facing 21st century women. Although ideal for personal journeying, these materials have been widely used as a course text in women's study classes, a resource in Women's Centers, for study and interaction at women's organizations and in church groups across the country. This material gets to the issues and helps

women discover answers for themselves and their own lives. Valuable resources, including other books, organizations and websites create opportunities for women to continue their exploration. With a mission to help women not only understand, but more fully realize themselves, Where Have All the Smart

Women Gone? is an enlightening portrayal of smart women in our culture.

*Only the Smartest Women Become Dental Hygienists* Seal Press  
Merryn Somerset Webb, star of Channel 4's hit series 'Superscrimpers', shows you how to face the future with both money and confidence in this financial bible for sassy women.
