Biodiversity, sometimes simply understood as "diversity of species", is a specific quality of life on our planet, the dimensions and importance of which have just lately been fully

realized. Today we know that "biological diversity is a global asset of incalculable value to present and future generations" (Kofi Annan). Biodiversity is spread unequally over the world: in fact, the main share of biological resources worldwide is harboured predominantly by the so-called developing countries in the tropics and sub tropics.

Therefore, Biodiversity - A Challenge for Development Research and Policy was chosen as the title for an international conference which was held in Bonn in 1997 as one of the first major events organized by the then newly established North-South Centre for Development Research (ZEF) at Rheinische Friedrich-Wilhelms-Universität Bonn

(Germany). Since the ZEF, founded by the Senate of the University of Bonn in 1995, has played a central role in turning Bonn into a centre for international cooperation and North-South dialogue. The Centre is a product of the Bonn Berlin agreement of July 1994 which was adopted to offset the effects caused by the Parliament and much of the Government moving to Berlin. It fits in well with the double strategy to strengthen Bonn's position as an international science

arena and as an eminent place for development policy and the national and supranational agencies dealing with this issue.

It's suicide, Shyla. You're the prize they want. Through her courage and tenacity, Shyla Sun-Kissed has awoken the power of The Eyes of Tamburah. But this feat only marks the beginning of the challenges that the magical order, the Invisible Sword, faces to free the underground city of Zirdai. Though they have allies among the monks and splinter cells

inside the city, Shyla knows the Invisible Sword doesn't have the strength to win. With the group fracturing due to the strain of losses from their latest ordeal, thinly veiled suspicions and endless disagreements, it's up to Shyla to forge a new united order. When both the draconian Water Prince and brutal Heliacal Priestess learn of Shyla's new powers, life becomes even more complicated as they will stop at nothing to capture Shyla and take the magic of The Eyes for themselves. Hunted at

every turn and unable to hide, Shyla and the Invisible Sword must use every resource at their command - and unearth new ones - in their race to save the city from destruction. But their enemies always seem to be one step ahead. And the cost to win the battle may be more than Shyla would ever be willing to pay...

Winner: Fantasy He thinks

you are the thief... Shyla is a researcher who resides in the underground desert city of Zirdai, which is ruled by the wealthy Water Prince and brutal Heliacal Priestess. Even though Shyla is sun-kissed - an outcast, considered cursed by the Sun Goddess - she is still renowned for uncovering innumerable archaic facts, lost artefacts, ancient maps, and obscure historical documents. Her quiet life is about to change when Banqui, an archaeologist, enlists her

services to find The Eyes of Tamburah: legendary gemstones that bestow great magic on their wielder. These ancient objects can tip the balance of power and give whoever possesses them complete control of the city. But chaos erupts when The Eyes are stolen soon after they're found - and Shyla is blamed for the theft. Forced to flee, with the Prince's soldiers and the Priestess' deacons on her trail, Shyla must recover the jewels and clear her name. A quest that will

unearth secrets even more valuable than The Eyes of Tamburah themselves...
