Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave

them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

Kindergarten Writing Life Between Summers

From the author and illustrator of *Our Class is a Family*, this

touching picture book expresses a teacher's sentiments and well wishes on the last day of school. Serving as a follow up to the letter in *A Letter From Your Teacher: On the First Day of School*, it's a read aloud for teachers to bid a special farewell to their students at the end of the school year. Through a letter written from the teacher's point of view, the class is invited to reflect back on memories made, connections formed, and challenges met. The letter expresses how proud their teacher is of them, and how much they will be missed. Students will also leave on that last day knowing that their teacher is cheering them on for all of the exciting things to come in the future. There is a blank space on the last page for teachers to sign their own name, so that students know that the letter in the book is coming straight from them. With its sincere message and inclusive illustrations, *A Letter From Your Teacher: On the Last Day of School* is a valuable addition to any elementary school teacher's classroom library. *365 Creative Writing Prompts* Scholastic Inc.

Turkey Trouble Teaching Resources

Sight words, also called high frequency words, are the words that appear with the highest frequency in written text. Working hard to learn these words by sight (memorizing) pays off. It allows kids to free up cognitive resources so they can focus on the tougher words that require strong decoding skills. They are also able to understand the majority of the text if those decoding skills fail. There is more to why sight words are important than just simply the mechanics of reading; they are also fantastic confidence boosters. Sight-word knowledge provides a scaffold of understanding and confidence for new readers who need to use all the other tools in their tool box to complete the job at hand: reading with understanding.
