Crossing the Bar Little, Brown Books for Young Readers

The two books, Oral English 1 and Oral English 2, are unique publications in the field of spoken English for English learners at the college or similar level. They're unique in three important ways: First, the books treat all the popular topics, thirty in total, from fun topics like sports to serious topics like politics. Each topic is covered in an unprecedentedly comprehensive way, using various approaches ranging from key words to games. Second, the books can be used as class textbooks, in which case they have more than enough material for a whole academic year. They can also be used for self-study and as reference books. Third, the books are very user-friendly: they present content in a logical format, use clear and helpful illustrations, and provide hints and answers to questions. The two books are the result of more than a decade of research and teaching oral English to non-native speakers. Readers will find the books not only educational, but also very informative and quite entertaining.

Adah's desire to write is pitted against the forces of an egotistical and unfeeling husband and a largely indifferent white society.

Disease Control Priorities, Third Edition (Volume 6) ASHP

All too often the poorest readers learn that if they keep quiet

during sustained silent reading (SSR), they're doing okay--no reading required. This is especially true in middle school where class sizes are large and instructional emphasis is on content rather than reading. In *Are They Really Reading?*, Jodi Crum Marshall discusses how to find out if your students are using SSR time wisely and what to do about it if they're not. Her book describes how to support middle-grade readers who need it the most, while embracing a research-proven need to increase independent, self-selected reading time for students. Jodi shares lessons and anecdotes from her classroom and from her experience as a reading specialist implementing her model schoolwide. She expands the traditional concepts of SSR to include read-alouds, writing, and accountability to scaffold struggling middle-grade students. Bolstered by these additional supports, Jodi's students dramatically increased their interest and ability in reading through a program they named Supporting Student Literacy (SSL). Classroom teachers will appreciate the clear direction on how and why to implement an SSR program. Administrators will appreciate the guidance for establishing a schoolwide literacy block that substantially improves student motivation and learning. *Are They Really Reading?* answers the following important questions: Why should I start an SSR program? How do I build a classroom library? Where do I get funding for books and other materials? How do I prepare the students for SSR? How do I motivate students to read? What is the role of the teacher? How do I assess SSR? If you don't currently use a sustained silent reading program, this book will help you get started on the right track. If you worry that some of your students aren't really reading during SSR or if you want to enhance your program, here is a roadmap that is instructionally sound and flexible enough to fit your students' needs.

*Six-three Two One* Being and Becoming African as a Permanent Work in Progress

This publication has been carried out on behalf of the Great Ape Survival Partnership (GRASP), established by UNEP and UNESCO in collaboration with a wide range of non-governmental organisations in response to growing concern over the plight of the orangutan, the chimpanzee, the bonobo and the gorilla. The report used the latest satellite imagery and data from the

Government of Indonesia to assess changes in the forests of one part of south-east Asia. The results indicate that illegal logging, fires and the plantation of crops such as palm oil are intruding extensively into Indonesia's national parks, the last safehold of the orangutan. The orangutans share this habitat with a wild range of other threatened and ecologically important species including the Sumatran tiger, Sumatran rhinoceros and Asian elephant.

This book is a timely addition to debates and explorations on the epistemological relevance of African proverbs, especially with growing calls for the decolonisation of African curricula. The editors and contributors have chosen to reflect on the diverse ways of being and becoming African as a permanent work in progress by drawing inspiration from Chinua Achebe's harnessing of the effectualness of oratory, especially his use of proverbs in his works. The book recognises and celebrates the fact that Achebe's proverbial Igbo imaginations of being and becoming African are compelling because they are instructive about the lives, stories, struggles and aspirations of the rainbow of people that make up Africa as a veritable global arena of productive circulations, entanglements and compositeness of being. The contributions foray into how claims to and practices of being and becoming African are steeped in histories of mobilities and a myriad of encounters shaped by and inspiring of the competing and complementary logics of personhood and power that Africans have sought and seek to capture in their repertoires of proverbs. The task of documenting African proverbs and rendering them accessible in the form of a common hard currency with fascinating epistemological possibilities remains a challenge yearning for financial, scholarly, social and political attention. The book is an important contribution to John Mbiti's clarion call for an active and sustained interest in African proverbs.

*Sustainable Development and Social Responsibility—Volume 2*  
Learning Express (NY)

This rags-to-riches story by an award-winning Ghanaian author has page-turning appeal with luminous literary resonance. Writing with effortlessly engaging prose, Wolo showcases the interweaving layers of Ghanaian culture to create a prismatic,

multifaceted world in which two young girls, against all odds, are able to find each other. When Faiza, a Muslim migrant girl from northern Ghana, and Abena, a wealthy doctor's daughter from the south, meet by chance in Accra's largest market, where Faiza works as a porter or kaya girl, they strike up an unlikely and powerful friendship that transcends their social inequities and opens up new worlds to them both. Set against a backdrop of class disparity in Ghana, *The Kaya Girl* has shades of *The Kite Runner* in its unlikely friendship, and of *Slumdog Millionaire* as Faiza's life takes unlikely turns that propel her thrillingly forward. As, over the course of the novel, Abena awakens to the world outside her sheltered, privileged life, the novel explores a multitude of awakenings and the opportunities that lie beyond the breaking down of barriers. This is a gorgeously transporting work, offering vivid insight into two strikingly diverse young lives in Ghana.

A man has lived on his own beside a wild, unforgiving coastline for many years. His companions are the birds, the land and the sea. From a choice made long ago, he keeps himself separate from the world of people and he gains a fierce pleasure from his environment. His solitude is broken by his discovery, one early morning on the flat sands of low tide, of a child washed up on the beach, but still alive. This is a novel of redemption, the story of a man experiencing the world as though for the first time.

**Are They Really Reading?** African Books Collective

Street life in the slums of Accra is realistically portrayed in this socially-committed, subtle novel about four educated women who are inspired by the plight of a 14-year old girl, Fofo. As the main characters convert their library center into a practical street initiative, the novel invokes the squalor, health risks, and vicious cycles of poverty and violence that drive children to the streets and women to prostitution; and, from which, ultimately, no one in the society is free.

University of Washington Press

The rapid outbreak of the COVID-19 has presented unprecedented challenges on education systems. Closing schools and universities and cancelling face-to-face activities have become a COVID-19 inevitable reality in most parts of the world. To be business-as-usual, many higher education providers have taken steps toward digital transformation, and implementing a range of remote teaching, learning and assessment approaches. This book provides timely research on COVID-19 impacts on education systems and seeks to bring together scholars, educators, policymakers and practitioners to collectively and critically identify, investigate and share best practices that lead to rethinking and reframing the way we deliver education in future.
